REPORTING AND USE OF GAAP AND NON-GAAP MEASURES

The company believes that each of the non-GAAP financial measures presented in this news release are useful to investors as they provide a measure of the company's operating performance excluding the effect of certain items which the company believes do not reflect its future operating outlook, and therefore supplement investors' understanding of comparability of operations across periods. Management used these non-GAAP financial measures during the periods presented to assess the company's performance and to develop expectations for future operating performance. The company also provides certain financial information on a constant currency basis to enhance investors' understanding of underlying business trends and operating performance, by removing the impact of foreign currency exchange rate fluctuations. The effect from foreign currency, calculated on a constant currency basis, is determined by applying current period exchange rates to prior year results and is net of the year-over-year impact from hedging. The per diluted share effect from foreign currency is calculated using a 27% tax rate. In addition, the company provides comparable sales, defined as the aggregate of: (1) year-over-year sales for stores that have been open as the same brand at least one year and whose square footage has not been expanded or reduced by more than 20% within the past year, with prior year's net sales converted at the current year's foreign currency exchange rate to remove the impact of foreign currency rate fluctuation, and (2) year-over-year directto-consumer sales with prior year's net sales converted at the current year's foreign currency exchange rate to remove the impact of foreign currency rate fluctuation. Due to the calendar shift in fiscal 2018, resulting from the 53rd week in fiscal 2017, comparable sales for the fiscal 2018 quarterly periods ended May 5, 2018, August 4, 2018, November 3, 2018 and February 2, 2019 are compared to the 13 weeks ended May 6, 2017, August 5, 2017, November 4, 2017 and February 3, 2018, respectively. The impact on net sales from the calendar shift, resulting from the loss of fiscal 2017's 53rd week, is the difference between net sales for the 13 weeks ended May 6, 2017, August 5, 2017, November 4, 2017 and February 3, 2018 and reported net sales for the fiscal quarters ended April 29, 2017, July 29, 2017, October 28, 2017 and February 3, 2018, respectively. Non-GAAP financial measures should be used supplemental to, and not as an alternative to, the company's GAAP financial results, and may not be calculated in the same manner as similar measures presented by other companies.
