Q4 CEO COMMENTARY

"We finished the year on a strong note, with record Black Friday week results contributing to net sales growth and positive comparable sales for the fourth quarter, and for the third consecutive year. Consistent with recent trends, Abercrombie outperformed Hollister and the U.S. outperformed international, which although still lagging registered significant sequential improvement."

"Recent results reflect the significant progress we have made against our long-term initiatives, with 2019 marking the second full year of our growing while transforming phase. Over the past two years we have delivered a combined 157 new store experiences, reduced gross square footage by 6%, accelerated the rationalization of our flagship fleet and introduced local customer and product-facing teams in the EMEA and APAC regions. We have laid the groundwork, and remain confident in our long-term vision and the global opportunities available to us as we continue to evolve with our customer."

"In the near-term, we are actively monitoring and reacting to COVID-19, with the health and safety of our global employees, customers and partners remaining our top priority."
