ABERCROMBIE & FITCH CO. REPORTS FOURTH QUARTER RESULTS

New Albany, Ohio, March 2, 2017: Abercrombie & Fitch Co. (NYSE: ANF) today reported GAAP net income per diluted share of \$0.71 for the fourth quarter ended January 28, 2017, compared to GAAP net income per diluted share of \$0.85 for the fourth guarter last year.

In addition, the company reported GAAP net income per diluted share of \$0.06 for the full year, compared to GAAP net income per diluted share of \$0.51 for the full year last year. Excluding certain items, the company reported adjusted non-GAAP net loss per diluted share of \$0.06 for the full year, compared to adjusted non-GAAP net income per diluted share of \$1.12 for the full year last year.

The net effect of changes in foreign currency exchange rates on a year-over-year basis adversely impacted fourth quarter and full year results by approximately \$0.05 and \$0.25 per diluted share, respectively.

A description of the use of non-GAAP financial measures and a schedule reconciling GAAP financial measures to adjusted non-GAAP financial measures accompanies this release.

Fran Horowitz, Chief Executive Officer, said:

"Results for the guarter reflect a still challenging and competitive retail environment, however we continue to make progress on our strategic priorities. Hollister, our largest brand, achieved positive comp sales and the Abercrombie brand renewal continues, although it is a work in progress. International markets improved measurably from last quarter, for both Abercrombie and Hollister brands, and the direct-to-consumer business continued to deliver positive comparable sales in both the U.S. and international markets. However, the competitive environment resulted in more promotional activity and a lower gross margin rate than planned.

While overall results did not meet expectations, 2016 was a year of significant progress on each of our strategic priorities. We continued to proactively respond to the evolving retail landscape through our store closure and channel optimization initiatives. We also stayed close to our customers to understand what inspires them, which helped inform our planning and execution. We began to communicate evolved identities for each of our brands, and made improvements to the customer experience through the roll out of store remodels, and ongoing investments in directto-consumer and omnichannel capabilities across both brands.

While the environment is likely to remain challenging in 2017, we have a strong balance sheet and continue to aggressively manage costs in order to continue our investments in strategies to provide our customers with compelling new experiences through a clearly defined brand voice, to position our business for sustainable growth."

By geography, net sales for the fourth quarter decreased 8% to \$688.2 million in the U.S. and decreased 5% to \$348.2 million in international markets from last year.

Direct-to-consumer and omnichannel sales grew to approximately 31% of total company net sales for the fourth quarter, compared to approximately 28% of total company net sales last year.

Additional Fourth Quarter Results Commentary

The gross profit rate for the fourth quarter was 59.3%. Excluding certain items last year, the gross profit rate decreased 90 basis points on a constant currency basis, primarily due to lower average unit retail, partially offset by lower average unit cost.

Stores and distribution expense for the fourth quarter was \$439.8 million, up from \$430.4 million last year, primarily due to a lease termination charge of \$15.6 million related to the A&F flagship store in Hong Kong and higher direct-to-consumer expense. These were partially offset by benefits from foreign currency exchange rates, the realization of savings on lower sales and expense reduction efforts.

Marketing, general and administrative expense for the fourth quarter was \$121.7 million, including \$3.9 million in severance charges, and was down from \$125.2 million last year, primarily due to lower compensation expense and expense reduction efforts, partially offset by higher marketing expense.

Asset impairment charges for the fourth quarter were \$1.6 million.

Net other operating income for the fourth quarter was \$9.4 million, compared to net other operating loss of \$0.6 million last year. Excluding certain items last year, net other operating income increased \$7.7 million, primarily due to the initial recognition of international gift card breakage of \$4.8 million and foreign currency related gains.

Operating income for the fourth quarter was \$61.3 million, compared to \$120.1 million last year. Excluding certain items, adjusted non-GAAP operating income for the fourth quarter last year was \$121.3 million.

The effective tax rate for the fourth quarter was 11%, reflecting an adjustment related to a change in the full year effective tax rate from last quarter's estimated rate, as well as a benefit of \$4.5 million related to the realization of foreign currency losses and a discrete benefit of \$2.4 million related to a tax regulatory change.

Net income attributable to Abercrombie & Fitch Co. for the fourth quarter was \$48.8 million, compared to \$57.7 million last year. Excluding certain items, adjusted non-GAAP net income attributable to Abercrombie & Fitch Co. for the fourth quarter last year was \$73.7 million.

Full Year 2016 Sales Results

Net sales for the full year of \$3.327 billion were down 5% from last year, with comparable sales for the full year down 5%.

Fiscal 2016 Comparable Sales Summary ⁽¹⁾

⁽¹⁾ Comparable sales are calculated on a constant currency basis.

⁽²⁾ Abercrombie includes the Abercrombie & Fitch and abercrombie kids brands.

By brand, net sales for the full year decreased 9% to \$1.487 billion for Abercrombie and decreased 2% to \$1.840 billion for Hollister from last year.

By geography, net sales for the full year decreased 7% to \$2.124 billion in the U.S. and decreased 3% to \$1.203 billion in international markets from last year.

Direct-to-consumer and omnichannel sales grew to approximately 26% of total company net sales for the full year, compared to approximately 24% of total company net sales last year.

Additional Full Year Results Commentary

The gross profit rate for the full year was 61.0%. Excluding certain items last year, the gross profit rate decreased 30 basis points on a constant currency basis, primarily due to lower average unit retail.

Stores and distribution expense for the full year was \$1.578 billion, down from \$1.604 billion last year. Excluding certain items last year, stores and distribution expense decreased \$19.1 million, primarily due to benefits from foreign currency exchange rates, the realization of savings on lower sales and expense reduction efforts, partially offset by higher direct-to-consumer expense and a lease termination charge of \$15.6 million related to the A&F flagship store in Hong Kong.

Marketing, general and administrative expense for the full year was \$453.2 million, down from \$470.3 million last year. Excluding certain items, adjusted non-GAAP marketing, general and administrative expense increased \$6.4 million, primarily due to higher marketing expense, partially offset by lower compensation expense and expense reduction efforts.

Asset impairment charges for the full year were \$7.9 million, compared to \$18.2 million last year and restructuring benefits for the full year last year were \$1.6 million, all of which were excluded from adjusted results with the exception of \$1.6 million in asset impairment charges for the fourth quarter this year.

Net other operating income for the full year was \$26.2 million, compared to \$6.4 million last year. Excluding certain items, adjusted non-GAAP net other operating income for the full year increased \$5.3 million, primarily due to the initial recognition of international gift card breakage of \$4.8 million.

Operating income for the full year was \$15.2 million, compared to operating income of \$72.8 million last year. Excluding certain items, adjusted non-GAAP operating income for the full year was \$3.3 million, compared to adjusted non-GAAP operating income of \$136.5 million last year.

Given the sensitivity of the tax rate at lower levels of absolute earnings, the effective tax rate for the full year was 322%. Excluding certain items, the adjusted non-GAAP effective tax rate for the full year was 98%. The effective tax rate and the adjusted non-GAAP effective tax rate for the full year reflect a benefit of approximately \$4.5 million related to the realization of foreign currency losses and a discrete benefit of \$2.4 million related to a tax regulatory change.

Net income attributable to Abercrombie & Fitch Co. for the full year was \$4.0 million, compared to \$35.6 million last year. Excluding certain items, adjusted non-GAAP net loss attributable to Abercrombie & Fitch Co. for the full year was \$4.1 million, compared to adjusted non-GAAP net income attributable to Abercrombie & Fitch Co. of \$78.0 million last year.

The company ended the fiscal year with \$547.2 million of cash and cash equivalents, and gross borrowings under the company's term loan agreement of \$268.3 million, compared to \$588.6 million of cash and cash equivalents and \$293.3 million of gross borrowings last year.

The company ended the fiscal year with \$399.8 million in inventory, a decrease of 8% versus last year.

Total capital expenditures for the full year were \$140.8 million, which consisted of \$73.0 million related to new stores and store updates and \$67.7 million related to information technology, direct-to-consumer and omnichannel, and other projects.

During the year, the company opened 20 new stores, including 10 international and four U.S. full-price stores and six outlet stores, primarily in the U.S. The company also closed 54 stores, primarily in the U.S.

Other Developments

As previously announced, on February 15, 2017, the Board of Directors declared a quarterly cash dividend of \$0.20 per share on the Class A Common Stock of Abercrombie & Fitch Co., payable on March 13, 2017 to stockholders of record at the close of business on March 3, 2017.

<u>Outlook</u>

For fiscal 2017, the company expects:

- Comparable sales to improve for the full year, but to remain challenging for the first half, with Hollister, its largest brand, expected to maintain or improve its comparable sales trend and Abercrombie to improve throughout the year
- Adverse effects from foreign currency on sales and operating income of approximately \$55 million and \$25 million, respectively, or approximately \$0.25 per diluted share
- A gross margin rate flat to the fiscal 2016 adjusted non-GAAP rate of 61.0%, but up on a constant currency basis, driven by lower average unit cost, with continuing promotional pressure in the first quarter
- Actions already taken to reduce expense by approximately \$100 million, enabling investments in revenue driving
 activities and resulting in net operating expense down approximately 3% from fiscal 2016 adjusted non-GAAP
 operating expense of \$2.025 billion, with a commitment to pursue further expense reductions throughout the year
- Net income attributable to noncontrolling interests of approximately \$4 million
- A weighted average diluted share count of approximately 68 million shares, excluding the effect of potential share buybacks

The company expects to incur a discrete non-cash income tax charge of approximately \$9 million in the first quarter of fiscal 2017 as a result of a change in share-based compensation accounting standards. Excluding discrete items, the core tax rate for full year is expected to be in the mid 30s and remains highly sensitive to jurisdictional mix and at lower levels of pre-tax earnings.

The company is targeting capital expenditures to be approximately \$100 million for fiscal 2017. Capital expenditures are expected to include approximately \$70 million for store updates and new stores and approximately \$20 million for direct-to-consumer and omnichannel and information technology investments to support growth.

The company plans to open six full-price stores in fiscal 2017, including four in the U.S. and two in international markets. The company also plans to open two new outlet stores. In addition, the company anticipates closing approximately 60 stores in the U.S. during the fiscal year through natural lease expirations.

An investor presentation of fourth quarter results will be available in the "Investors" section of the company's website at www.abercrombie.com at approximately 8:00 AM, Eastern Standard Time, today.

REPORTING AND USE OF GAAP AND NON-GAAP MEASURES

The company believes that each of the non-GAAP financial measures presented in this news release are useful to investors as they supplement investors' understanding of comparability across periods and provide the ability to measure the company's operating performance excluding the effect of certain items that the company believes do not reflect its future operating outlook. Management used these non-GAAP financial measures during the periods presented to assess the company's performance, to make decisions about how to allocate resources and to develop expectations for future operating performance. In addition, the company provides certain financial information on a constant currency basis to enhance investors' understanding of underlying business trends and operating performance. The effect from foreign currency, calculated on a constant currency basis, is determined by applying current period exchange rates to prior year results and is net of the year-over-year impact from hedging. The per diluted share effect from foreign currency is calculated using a 35% tax rate. Non-GAAP financial measures should be used supplemental to, not as an alternative to, the company's GAAP financial results, and may not be the same as similar measures presented by other companies.
