SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

Certain statements in this Annual Report on Form 10-K may constitute forward-looking statements (as such term is defined in the Private Securities Litigation Reform Act of 1995) that involve risks and uncertainties and are subject to change based on various important factors, many of which may be beyond our control. Words such as “estimate,” “project,” “plan,” “believe,” “expect,” “anticipate,” “intend,” “should,” “are confident,” “will,” “could,” “outlook,” or the negative versions of those words or other comparable words and similar expressions may identify forward-looking statements. Future economic and industry trends that could potentially impact revenue and profitability are difficult to predict. Therefore, there can be no assurance that the forward-looking statements included in this Annual Report on Form 10-K will prove to be accurate. Factors that could cause results to differ from those expressed in the forward-looking statements include, but are not limited to, the risks described or referenced in *“ITEM 1A. RISK FACTORS,”* of this Annual Report on Form 10-K and otherwise in our reports and filings with the SEC, as well as the following:

- risks related to changes in global economic and financial conditions, including inflation, and the resulting impact on consumer spending generally and on our operating results, financial condition, and expense management, and our ability to adequately mitigate the impact;
- risks related to global operations, including changes in the economic or political conditions where we sell or source our products or changes in import tariffs or trade restrictions;
- risks related to the geopolitical landscape and ongoing armed conflicts, and the impact of such conflicts on international trade, supplier delivery or increased freight costs, acts of terrorism, mass casualty events, social unrest, civil disturbance or disobedience;
- risks related to natural disasters and other unforeseen catastrophic events;
- risks related to our failure to engage our customers, anticipate customer demand, expectations, and changing fashion trends, and manage our inventory and product delivery;
- risks related to our ability to successfully invest in and execute on our customer, digital and omnichannel initiatives;
- risks related to the effects of seasonal fluctuations on our sales and our performance during the back-to-school and holiday selling seasons;
- risks related to fluctuations in foreign currency exchange rates;
- risks related to fluctuations in our tax obligations and effective tax rate, including as a result of earnings and losses generated from our international operations;
- risks related to our ability to execute on, and maintain the success of, our strategic and growth initiatives;
- risks and uncertainty related to adverse public health developments;
- risks related to cybersecurity threats and privacy or data security breaches;
- risks related to the potential loss or disruption of our information systems;
- risks related to the continued validity of our trademarks and our ability to protect our intellectual property;
- risks associated with climate change and other corporate responsibility issues;
- risks related to reputational harm to the Company, its officers, and directors;
- risks related to actual or threatened litigation; and
- uncertainties related to future legislation, regulatory reform, policy changes, or interpretive guidance on existing laws and regulations.

In light of the significant uncertainties in the forward-looking statements included herein, the inclusion of such information should not be regarded as a representation by the Company, or any other person, that the objectives of the Company will be achieved. The forward-looking statements included herein are based on information presently available to the management of the Company. Except as may be required by applicable law, the Company assumes no obligation to publicly update or revise its forward-looking statements, including any financial targets and estimates, whether as a result of new information, future events, or otherwise. As used herein, “Abercrombie & Fitch Co.,” “A&F,” the “Company,” “we,” “us,” “our,” and similar terms include Abercrombie & Fitch Co. and its subsidiaries, unless the context indicates otherwise.

PART I

Item 1. Business

GENERAL

Abercrombie & Fitch Co. (“A&F”), a company incorporated in Delaware in 1996, through its subsidiaries (collectively, A&F and its subsidiaries are referred to as the “Company”), is a global, digitally-led, omnichannel retailer. The Company offers a broad assortment of apparel, personal care products and accessories for men, women and kids, which are sold primarily through its Company-owned stores and digital channels, as well as through various third-party arrangements.

The Company manages its business on a geographic basis, consisting of three reportable segments: Americas; Europe, the Middle East and Africa (“EMEA”); and Asia-Pacific (“APAC”). Corporate functions and other income and expenses are evaluated on a consolidated basis and are not allocated to the Company’s segments, and therefore are included as a reconciling item between segment and total operating income (loss).

The Company’s brand families include Abercrombie brands and Hollister brands. These brands share a commitment to offering unique products of enduring quality and exceptional comfort that allow customers around the world to express their own individuality and style.

The Company’s fiscal year ends on the Saturday closest to January 31. This typically results in a fifty-two-week year, but occasionally gives rise to an additional week, resulting in a fifty-three-week year, as was the case in Fiscal 2023. Fiscal years are designated in the Consolidated Financial Statements and Notes thereto, as well as the remainder of this Annual Report on Form 10-K, by the calendar year in which the fiscal year commenced. All references herein to the Company’s fiscal years are as follows:

Fiscal year	Year ended / ending	Number of weeks
Fiscal 2022	January 28, 2023	52
Fiscal 2023	February 3, 2024	53
Fiscal 2024	February 1, 2025	52
Fiscal 2025	January 31, 2026	52

For additional information about the Company’s business, see [“ITEM 7. MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.”](#) as well as [“ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA.”](#) of this Annual Report on Form 10-K.

SEGMENT AND BRAND INFORMATION

The Company determines its segments after taking into consideration a variety of factors, including its organizational structure and the basis that it uses to allocate resources and assess performance. The Company manages its business on a geographic basis, consisting of three reportable segments: Americas; Europe, the Middle East and Africa (EMEA); and Asia-Pacific (APAC).

The Company’s segments are as follows:

Region	Description
Americas	The Americas segment includes operations in North America and South America
EMEA	The EMEA segment includes operations in Europe, the Middle East and Africa
APAC	The APAC segment includes operations in the Asia-Pacific region, including Asia and Oceania.

The Company’s brand families includes Abercrombie brands and Hollister brands, each sharing a commitment to offer products of enduring quality and exceptional comfort that support global customers on their journey to being and becoming who they are.

Brand family	Description
Abercrombie	Abercrombie strives to make every day more exceptional, creating a sense of getaway through its quality apparel, accessories and fragrance crafted for every occasion. The Abercrombie brand family connects with customers through various supporting brands and assortment collections, including, but not limited to, Abercrombie & Fitch, abercrombie kids, and Your Personal Best (YPB).
Hollister	Hollister creates quality apparel, accessories and fragrance made for capturing moments, creating memories and being unapologetically you. The Hollister brand family connects with customers through various supporting brands and assortment collections including but not limited to, Hollister and Gilly Hicks.

Additional information concerning the Company’s segment and geographic information is contained in Note 17, [“SEGMENT REPORTING”](#) of the Notes to Consolidated Financial Statements included in [“ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA”](#) of this Annual Report on Form 10-K.

STRATEGY AND KEY BUSINESS PRIORITIES

The Company remains committed to, and confident in, its vision of being a global, digitally-led, omnichannel apparel retailer and continues to evaluate corporate growth opportunities and initiatives that support this vision.

Foundation for Growth

The Company introduced the Always Forward Plan in June of Fiscal 2022. The Always Forward Plan is anchored on our strategic growth principles, which are to:

- Execute focused growth plans;
- Accelerate an enterprise-wide digital revolution; and
- Operate with financial discipline

While the Company has significantly outperformed certain financial targets set forth in the Always Forward Plan, the growth principles continue to serve as a framework for the Company achieving sustainable and profitable growth and profitability.

The Company's strategic priorities continue to evolve based on changing consumer demands and new strategic opportunities, and management reviews and prioritizes investments and strategic focus areas to address such demands and opportunities.

Execute focused growth plans by:

- driving sales growth across regions and brand families primarily through marketing and store investments in our owned and operating channels, while pursuing new geographies and markets via franchise, wholesale and licensing partnerships;
- using our regionally relevant brand playbooks globally to align the brands' products, voices, and experiences with customers, both digitally and in-store; and
- using testing and chase strategies to deliver compelling assortments and product collections across genders.

Accelerate an enterprise-wide digital revolution to improve the customer and associate experience by:

- continuing to progress on our multi-year enterprise resource planning ("ERP") transformation and cloud migration journey; and
- investing in digital and technology to improve experiences across key parts of the customer journey while delivering a consistent omnichannel experience.

Operate with financial discipline by:

- using our agile inventory model and pricing strategies to position the Company to support customer demand throughout the year; and
- maintaining our durable balance sheet and consistent free cash flow profile, underpinned by our disciplined investment philosophy while balancing against macro environment impacts and efficiency efforts.

OVERVIEW OF OPERATIONS

Omnichannel Initiatives

As customer shopping preferences continue to evolve and customers increasingly shop across multiple channels, the Company aims to create best-in-class customer experiences and grow total company profitability by delivering improvements through a continuous test-and-learn approach. Over the past several years, the Company experienced an acceleration in sales fulfilled through digital channels, and continues to see a majority of sales through digital channels for the Abercrombie & Fitch brand. Despite, this acceleration in the shift towards digital channels, stores continue to comprise a majority of sales for the Hollister brand's customer. Additionally, stores continue to be an important part of our customers' omnichannel experience. The Company believes that the customers' shopping experience is improved by its offering of omnichannel capabilities, which include purchase-online-pickup-in-store, ship-from-store, and cross-channel returns. These features allow our customers ease of access to shop the brands' in-store and online offerings and create a seamless transition between omnichannel capabilities.

Digital Operations

In order to continuously improve the customer experience, including providing a more seamless and consistent shopping experience across channels, the Company continues to invest in its digital infrastructure. Such investments include upgrading our merchandising enterprise resource planning ("ERP") system. The Company has the capability to ship merchandise to customers in more than 108 countries and process transactions in 21 currencies and through 20 forms of payment globally. The Company operates desktop and mobile websites for its brands globally, which are available in various local languages. The Company also operates two mobile applications that provide an enhanced mobile shopping experience to the customer and provide us with customer insights. The Company continues to develop and invest its mobile capabilities as mobile engagement continues to grow, with over 87% of the Company's digital traffic generated from mobile devices in Fiscal 2024. In addition, in its efforts to expand its global brand reach, the Company also partners with certain third-party e-commerce platforms.

[Store Operations](#)

The Company has a goal of finding the right size, right location and right economics for omni-enabled stores that cater to local customers. During Fiscal 2024, the Company opened 65 new store locations, remodeled 48 store locations, right-sized an additional 12 store locations and closed 41 stores. The Company's stores continue to play an essential role in creating brand awareness and serving as physical gateways to the brands. Stores also serve as local hubs for online engagement as the Company continues to evolve its omnichannel capabilities to create seamless shopping experiences.

As of February 1, 2025, all of the retail stores operated by the Company are located in leased facilities, primarily in shopping centers. These leases generally have initial terms of between one and ten years. Certain leases also include early termination options, which can be exercised under specific conditions. The leases expire at various dates between Fiscal 2025 and Fiscal 2035.

As of February 1, 2025, the Company operated 789 retail stores as detailed in the table below:

	Abercrombie	Hollister	Total ⁽¹⁾
Americas	215	385	600
EMEA	33	100	133
APAC	30	26	56
Total	278	511	789

⁽¹⁾ Store count excludes temporary and franchise stores.

For store count and gross square footage by geographic region and brand as of February 1, 2025, and February 3, 2024, refer to "[ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS](#)" of this Annual Report on Form 10-K.

[Franchise, License, and Wholesale Operations](#)

The Company seeks to expand its global brand reach, create brand awareness and develop local presence through various franchise, licensing, and wholesale arrangements. The Company has franchise agreements under which it provides third-party partners the right to sell its product and operate stores in various geographic regions, including the Middle East, Central America, South America, and Asia. As of February 1, 2025, the Company's franchisees operated 49 franchise stores across the Company's brands. The Company also has license agreements under which it acts as a licensee, with various third parties providing the Company with the rights to sell apparel and accessories with licensed trademarks, such as collegiate and professional sports teams. The Company also acts as licensor under licensing agreements under which the Company provides licenses to third-party partners to manufacture and sell designated products, such as certain apparel, eyewear, and fragrances. As of February 1, 2025, the Company had 9 wholesale partnerships, primarily in EMEA.

SOURCING OF MERCHANDISE INVENTORY

The Company uses an agile inventory model to help manage inventory costs and production volumes to reflect customer demand trends. Specifically the Company's inventory model is intended to help enable optimization of inventory levels, increase speed and response time to react to customer demand and preferences, and promote operational agility. The Company works with its network of third-party vendors to supply compelling, high-quality product assortments to its customers. These vendors are expected to operate in compliance with the laws of their respective countries and all other applicable laws, rules, and regulations and have committed to follow the standards set forth in the Company's Vendor Code of Conduct, regarding human rights, labor rights, environmental responsibility, and workplace safety.

The Company sourced merchandise through approximately 150 vendors located in 16 countries, including the U.S., during Fiscal 2024. The Company's largest vendor accounted for approximately 6% of merchandise sourced in Fiscal 2024, based on the cost of sourced merchandise. The Company believes its product sourcing is appropriately distributed among vendors.

Refer to Note 6, "[INVENTORIES](#)," of the Notes to Consolidated Financial Statements included in "[ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA](#)" of this Annual Report on Form 10-K for a summary of inventory sourced based on vendor location and dollar cost of merchandise receipts during Fiscal 2024.

DISTRIBUTION OF MERCHANDISE INVENTORY

The Company's distribution network is built to deliver inventory to Company-operated and global franchise stores and fulfill digital and wholesale orders with speed and efficiency. Generally, merchandise is shipped directly from vendors to the Company's distribution centers, where it is received and inspected before being shipped to the Company's stores or its digital or wholesale customers.

The Company relies on both Company-owned and third-party distribution centers to manage the receipt, storage, sorting, packing and distribution of its merchandise. Additional information pertaining to certain of the Company's distribution centers as of February 1, 2025 follows:

Location	Company-owned or third-party
New Albany, Ohio (primarily serves store and digital operations)	Company-owned
New Albany, Ohio (serves only digital operations)	Company-owned
Bergen op Zoom, Netherlands (primarily serves store and digital operations)	Third-party
Shanghai, China (primarily serves store and digital operations)	Third-party
Goodyear, Arizona (serves only digital operations)	Third-party

The Company primarily used six contract carriers to ship merchandise and related materials to its North American customers, and several contract carriers for its global customers outside of North America during Fiscal 2024.

CUSTOMER ENGAGEMENT

The Company engages with its customers through in-store and digital interactions, loyalty programs, social media platforms, mobile applications, online surveys and customer reviews, and continues to evolve in response to the feedback it receives through these channels. The Company's customer relationship management strategies support the Company's development of direct relationships with its customers and allow the Company to harness insights. Our brands have strong global followings on key social media platforms, and the Company also partners with brand representatives, influencers, celebrities, and athletes to market its products and communicate its brands' identities. The Company aims to be at the forefront of customer engagement and continues to explore new methods to connect with its customers.

The Company also offers its loyalty programs, Abercrombie's myAbercrombie® and Hollister's Hollister House Rewards®. The Company believes that these programs are important enablers of its customer engagement strategy as the Company aims to seamlessly interact and connect with customers across all touchpoints through members-only offers, items, and experiences. Under these loyalty programs, customers accumulate points primarily based on purchase activity and earn rewards as points are converted at certain thresholds. These rewards can be redeemed for merchandise discounts either in-store or online. In addition to earning and redeeming awards, loyalty members may receive other benefits at specified spending threshold tiers, such as free shipping and extended return windows. The loyalty programs continue to provide timely customer insights and personalization opportunities, and the Company believes these programs generate repeat business and contribute to higher average transaction value.

COMPETITION

The Company operates in a rapidly evolving and highly competitive retail business environment. Competitors include individual and chain specialty apparel retailers; local, regional, national and global department stores; discount stores; and digitally-native brands and online-exclusive businesses. Additionally, the Company competes for consumers' discretionary spending with businesses in other product and experiential categories such as technology, restaurants, travel and media content.

The Company competes primarily on the basis of differentiating its brands from those of its competition through product, providing high quality and newness; brand voice, amplifying and consolidating brand messaging; and experience, investing in immersive, participatory omnichannel shopping environments.

Operating in a highly competitive industry environment can cause the Company to engage in greater than expected promotional activity, which would result in pressure on average unit retail and profitability. Refer to "[ITEM 1A. RISK FACTORS - Our failure to operate effectively in a highly competitive and constantly evolving industry could have a material adverse impact on our business](#)" of this Annual Report on Form 10-K for further discussion of the potential impacts competition may have on the Company.

SEASONAL BUSINESS

Historically, the Company's operations have been seasonal in nature and consist of two principal selling seasons: the spring season, which includes the first and second fiscal quarters ("Spring") and the fall season, which includes the third and fourth fiscal quarters ("Fall"). Due to the seasonal nature of the retail apparel industry, the results of operations for any current period are not necessarily indicative of the results expected for the full fiscal year and the Company could have significant fluctuations in certain asset and liability accounts. The Company historically experiences its greatest sales activity during the Fall season due to back-to-school and holiday sales periods. Refer to "[ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS](#)" of this Annual Report on Form 10-K for further discussion.

TRADEMARKS

The trademarks Abercrombie & Fitch®, abercrombie®, Hollister®, Gilly Hicks®, and the "Moose" and "Seagull" logos are registered with the U.S. Patent and Trademark Office and registered, or the Company has applications for registration pending, with the registries of countries in key markets within the Company's sales and distribution channels. In addition, these trademarks are either registered, or the Company has applications for registration pending, with the registries of many of the foreign countries in which the manufacturers of the Company's products are located. The Company has also registered, or has applied to register, certain other trademarks in the U.S. and around the world. The Company believes its products are identified by its trademarks and, therefore, its trademarks are of significant value. Each registered trademark has a duration of 10 to 20 years, depending on the date it was registered, and the country in which it is registered, and is subject to an indefinite number of renewals for a like period upon continued use and appropriate application. The Company intends to continue using its core trademarks and to timely renew each of its registered trademarks that remain in use.

INFORMATION TECHNOLOGY SYSTEMS

The Company's owned and third-party-operated management information technology systems consist of a full range of retail, merchandising, human resource and financial systems. These systems include applications related to point-of-sale, digital operations, inventory management, supply chain, planning, sourcing, merchandising, payroll, scheduling and financial reporting. The Company continues to invest in technology to upgrade its core systems, including its merchandising ERP system and modernizing its key data platforms, to enhance reporting and analytics, create efficiencies and to support its digital operations, omnichannel capabilities, customer relationship management tools and loyalty programs.

WORKING CAPITAL

Refer to "[ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS](#)" of this Annual Report on Form 10-K for a discussion of the Company's cash requirements and sources of cash available for working capital needs and investment opportunities.

HUMAN CAPITAL MANAGEMENT

The Company strives to create a culture that drives strategic and key business priorities forward, while being welcoming and inclusive, encouraging associates to impact their global communities positively. The Company believes that the strength of its unique culture is a competitive advantage, and intends to continue building upon that culture to improve performance across its business.

Therefore, the Company believes that the attraction, retention, and management of qualified talent are integral to its success. The Company has policies and practices in place that are focused on creating a culture and work environment free from abuse, harassment or discrimination of any kind. Highlights of our key human capital management programs and efforts include the following:

- **Living a corporate purpose** of “Being here for you on the journey to being and becoming who you are.” The Company’s corporate purpose was developed after conducting listening sessions with its associates and its customers, and by weaving in key themes from each of the brand purposes.
- **Offering competitive compensation and benefits** to help the Company attract, motivate, and retain the key talent necessary to achieve outstanding business and financial results. The Company’s compensation offerings include cash-based and equity-based incentive awards in order to align the interests of associates and stockholders. In addition, the Company continues to provide hybrid and remote work arrangements for corporate home office associates where feasible, including “work from anywhere” days and weeks. We also support our associates and their families beyond our competitive compensation with comprehensive benefits offerings, providing eligible associates with paid parental leave in the United States and internationally based on local law, as well as adoption and fertility support benefits to all eligible associates globally.
- **Improving associate engagement** through open communication channels with a focus on associate experience. The Company regularly holds all-company meetings to communicate with its associates. The Company also collects feedback through various engagement surveys throughout the year to better understand the associate experience and drive improvements, with the most recent organization-wide survey conducted in October 2024.
- **Fostering associate development** by providing a wide variety of growth and development opportunities throughout associates’ careers. This includes structured development programs, access to online skill development platforms, stretch assignments, internal career pathing, self-awareness exercises, and active coaching. The Company also uses leadership standards to help associates identify the core behaviors essential for their career growth, as well as personal growth, on their journey at the Company. Resources in support of these efforts include the Company’s internal job board, which empowers associates to apply for open roles and/or to seek advancement opportunities within the Company, as well as formalized talent reviews to discuss associate development opportunities.
- **Creating a culture of belonging** and working to ensure that all our associates feel respected and represented. We believe that when we do this, we are stronger across every aspect of our business. The Company follows core principles to embed a sense of community into our organization, including having a workforce that reflects the communities we serve, building a leadership team that is representative of our workforce, offering voluntary training and inviting all associates to participate in any of our various associate resource groups to promote inclusion and belonging, and driving fairness through our compensation and benefits offerings.
- **Encouraging community involvement of its associates** by promoting various charitable, philanthropic, and social awareness programs, which the Company believes fosters a collaborative and rewarding work environment. The Company provides support to global organizations in the form of cash donations, volunteerism and in-kind support. In partnership with its vendor partners, customers and associates, the Company is proud to support community partners serving youth, teens, and young adults with a focus on mental health and wellness, empowerment, and inclusion. The Company offers its associates a paid volunteer day each year for eligible volunteer work.
- **Focusing on the health and safety of its associates** by investing in various wellness programs that are designed to enhance the physical, financial, and mental well-being of its associates globally. The Company provides benefits-eligible associates and their families with access to free and confidential counseling through our Employee Assistance Program, as well as free access to a mediation and mindfulness app. The Company also provides regular programming on financial planning and mental health.

Associates

The Company employed approximately 39,200 associates globally as of February 1, 2025, of whom approximately 32,600 were part-time associates. As of February 1, 2025, the Company employed approximately 31,400 associates in the U.S., and employed approximately 7,800 associates outside of the U.S. The Company employs temporary, seasonal associates at times, particularly during Fall, when it experiences its greatest sales activity due to back-to-school and holiday sales periods.

The proportion of associates represented by works councils and unions is not significant and is generally limited to associates in the Company’s European stores.

Board Oversight

A&F’s Board of Directors (the “Board of Directors”) and its committees oversee human capital matters. The Compensation and Human Capital Committee of the Board of Directors oversees the Company’s overall compensation structure, policies and programs, as well as administration of the Company’s cash-based and equity-based performance award programs. Members of the Board of Directors also review succession plans for the Company’s executive officers and discuss with senior leadership the Company’s human capital management strategies, programs, policies and practices, including those relating to organizational structure and key reporting relationships, along with development of strategies and practices relating to recruitment, retention and development of the Company’s associates as needed. Additionally, the Environmental, Social and Governance Committee of the Board of Directors is responsible for the oversight of risks associated with our environmental and social strategies.

GOVERNMENT REGULATIONS

As a global organization, the Company is subject to the laws and regulations of the U.S. and multiple foreign jurisdictions in which it operates. These laws and regulations include, but are not limited to: trade, transportation and logistic laws, including tariffs and import and export regulations; tax laws and regulations; product and consumer safety laws; anti-bribery and corruption laws; employment and labor laws; antitrust or competition laws; data privacy laws; and environmental regulations.

Laws and regulations have had, and may continue to have, a material impact on the Company's operations as described further within "[ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS](#)" of this Annual Report on Form 10-K.

Refer to "[ITEM 1A. RISK FACTORS](#)" of this Annual Report on Form 10-K for a discussion of the potential impacts regulatory matters may have on the Company in the future, including those related to environmental matters. Compliance with government laws and regulations has not had a material effect on the Company's capital expenditures, earnings or competitive position.

Item 1A. Risk Factors

Investing in our securities involves risk. The following risk factors should be read carefully in connection with evaluating our business and the forward-looking statements contained in this Annual Report on Form 10-K. Any of these risk factors could lead to material adverse effects on our business, operating results and financial condition. Additional risks and uncertainties not currently known to us or that we currently do not view as material may also become materially adverse to our business in future periods or if circumstances change.

MACROECONOMIC AND INDUSTRY RISKS.

Failure to engage our customers, anticipate customer demand and changing fashion trends, and manage our inventory commensurately could have a material adverse impact on our business.

Our success largely depends on our ability to anticipate and gauge the fashion preferences of our customers and provide merchandise that satisfies constantly shifting demands in a timely manner. Because we may enter into agreements for the manufacture and purchase of merchandise well in advance of the applicable selling season, we are vulnerable to changes in consumer preferences and demand, pricing shifts, and the sub-optimal selection and timing of merchandise purchases. We expect continuously changing fashion-related trends and consumer tastes to influence future demand for our products. Changes in consumer tastes, fashion trends and brand reputation can have an impact on our financial performance.

Moreover, there can be no assurance that we will continue to anticipate consumer demands and macroeconomic events or to be successful in accurately planning inventory in the future. Changing consumer preferences, spending patterns, and fashion trends, and our ability to anticipate, identify and swiftly respond to them, could adversely impact our sales. Inventory levels for certain merchandise styles no longer considered to be "on trend" may increase, leading to higher markdowns to sell through excess inventory and, therefore, lower than planned margins. Conversely, if we underestimate consumer demand for our merchandise, or if our manufacturers fail to supply quality products in a timely manner, we may experience inventory shortages that we cannot adequately mitigate through expedited inventory production and delivery, which may negatively impact customer relationships, diminish brand loyalty and result in lost sales.

We could also be at a competitive disadvantage if we are unable to effectively leverage data analytics to retrieve timely, customer insights to appropriately respond to customer demands and improve customer engagement through efforts such as marketing activities. Any of these events could significantly harm our operating results and financial condition.

We are also vulnerable to factors affecting inventory flow and availability of inventory. Impacts may be caused by natural disasters, unanticipated climate patterns and events, or inventory shrinkage due to theft (including by our employees, customers, or through organized retail crime). Such events may significantly impact anticipated customer demand or may impact availability of our inventory. If we are not able to adjust appropriately to such factors, our inventory management may be negatively affected, which could adversely impact our performance and our reputation.

Our failure to operate effectively in a highly competitive and constantly evolving industry could have a material adverse impact on our business.

The sale of apparel, personal care products and accessories for men, women and kids is a highly competitive business with numerous participants, including individual and chain specialty apparel retailers, local, regional, national and global department stores, discount stores, digitally-native brands, and online-exclusive businesses. Proliferation of the digital channel has encouraged the entry of many new competitors and an increase in competition from established companies. These increases in competition could reduce our ability to retain and grow sales, resulting in an adverse impact to our operating results and business.

We face a variety of challenges in the highly competitive and constantly evolving retail industry, including:

- Anticipating and responding to changing consumer shopping preferences more quickly than our competitors;
- Maintaining favorable brand recognition;
- Effectively marketing our products to consumers across varying demographic markets, including through social media platforms which have become increasingly important in order to stay connected to our customers, as our digital sales penetration has increased. Individual country laws and regulations governing the use and availability of these social media platforms continue to evolve, and if we are unable to effectively use social media platforms as marketing tools our ability to retain or acquire customers and our financial condition may suffer;
- Effectively establishing and maintaining relationships with key brand representatives, influencers, athletes, and other celebrities as part of our marketing strategy to promote our brands and products;
- Retaining customers, including our loyalty club members, and the resulting increased marketing costs to acquire new customers;
- Developing innovative, high-quality merchandise in styles that appeal to consumers and in ways that favorably distinguish us from our competitors;
- Operating in a highly promotional retail environment;

- Engaging in promotional activity and appropriately pricing our products without diminishing the aspirational nature of our brands and brand equity; and
- Identifying and assessing disruptive innovation, by existing or new competitors, that could alter the competitive landscape by: improving the customer experience and heightening customer expectations; transforming supply chain and corporate operations through changes to digital technologies and innovations, including the use of artificial intelligence (“AI”) and machine learning; and enhancing management decision-making through use of data analytics to develop new, consumer insights.

In light of the competitive challenges we face, we may not be able to compete successfully in the future.

Changes in global economic and financial conditions, including the impact on consumer confidence and spending, could have a material adverse impact on our business.

Uncertainty as to, and the state of, the global economy and global financial condition could have an adverse effect on our operating results and business. Our business is subject to factors that are impacted by worldwide economic conditions, including heightened inflation levels (which has occurred), unemployment levels, consumer credit availability, consumer debt levels, reductions in consumer net worth based on declines in the financial, residential real estate and mortgage markets, bank failures, sales and personal income tax rates, fuel and energy prices, global food supplies, rising or uncertain interest rates, new increased tariffs, trade disputes, consumer confidence in future economic and political conditions, consumer perceptions of personal well-being and security, the value of the U.S. dollar versus foreign currencies, geopolitical conflicts, and other macroeconomic factors. Changes in global economic and financial conditions could impact our ability to fund growth and our ability to access external financing in the credit and capital markets.

In addition, our business depends on consumer demand for our merchandise. Consumer confidence and discretionary spending habits, including purchases of our merchandise, can be adversely impacted by recessionary periods, inflation and other macroeconomic conditions adversely impacting levels of disposable income. We may not be able to accurately anticipate or predict consumer demand and behavior, such as taste and purchasing trends, in response to adverse economic conditions, which could result in lower sales, excess inventories and increased mark-downs, all of which could negatively impact our ability to achieve or maintain profitability. In the event that the U.S. and global economy worsens, or if there is a decline in consumer spending levels or other unfavorable conditions, we could experience lower than expected revenues, which could force us to delay or slow the implementation of our growth strategies and adversely impact our results of operations.

The economic conditions and factors described above could adversely impact our results of operations, liquidity and capital resources, and may exacerbate other risks within this section of “ITEM 1A. RISK FACTORS”.

The impact of war, acts of terrorism, mass casualty events, social unrest, civil disturbance or disobedience could have a material adverse impact on our business.

In the past, the impact of war, acts of terrorism, mass casualty events, social unrest, civil disturbance or disobedience and the associated heightened security measures taken in response to these events have disrupted commerce. Further events of this nature, domestic or abroad, including international and domestic unrest, may disrupt commerce and undermine consumer confidence and consumer spending by causing a decline in traffic, store closures and a decrease in digital demand adversely affecting our operating results.

Furthermore, the existence or threat of any other unforeseen interruption of commerce, including as a result of geopolitical or armed conflict and the possible interference with international trade, supplier deliveries, freight costs, or tariffs, could negatively impact our business by interfering with the availability of raw materials or our ability to obtain merchandise from foreign manufacturers. With a substantial portion of our merchandise being imported from foreign countries, failure to obtain merchandise from our foreign manufacturers or substitute other manufacturers, at similar costs and in a timely manner, could adversely affect our operating results and financial condition.

Fluctuations in foreign currency exchange rates and our ability to mitigate the effects of such volatility could have a material adverse impact on our business.

Due to our global operations, we are exposed to foreign currency exchange rate risk with respect to our sales, profits, assets and liabilities denominated in currencies other than the U.S. dollar. In addition, certain of our subsidiaries transact in currencies other than their functional currency, including intercompany transactions, which results in foreign currency transaction gains or losses. Furthermore, we purchase substantially all of our inventory in U.S. dollars. As a result, our sales, gross profit and gross profit rate from global operations will be negatively impacted during periods of a strengthened U.S. dollar relative to the functional currencies of our foreign subsidiaries. Additionally, changes in the effectiveness of our hedging instruments may negatively impact our ability to mitigate the risks associated with fluctuations in foreign currency exchange rates. For example, changes in inventory purchase assumptions have resulted in changes in the effectiveness to certain of our hedging instruments, and we could see similar impacts in future periods.

Fluctuations in foreign currency exchange rates could adversely impact consumer spending, delay or prevent successful penetration into new markets or adversely affect the profitability of our global operations. Certain events could cause uncertainty with respect to trade policies, tariffs and government regulations and actions affecting trade between the U.S. and other countries, have increased global economic and political uncertainty in recent years and could result in volatility of foreign currency exchange rates as these events develop.

Our ability to attract customers to our stores depends, in part, on the success of the shopping malls or area attractions that our stores are located in or around.

Our stores are primarily located in shopping malls and other shopping centers. Our sales at these stores are partially dependent upon the volume of traffic in those shopping centers and the surrounding area which, for some centers, has been in decline. Our stores may benefit from the ability of a shopping center's other tenants and area attractions to generate consumer traffic in the vicinity of our stores and the continuing popularity of the shopping center. We cannot control the loss of a significant tenant in a shopping mall or area attraction, the development of new shopping malls in the U.S. or around the world, the availability or cost of appropriate locations, the success of individual shopping malls, or the increasing impact of digital channels on shopping mall traffic and there is competition with other retailers for prominent locations.

All of these factors may impact our ability to meet our productivity or our growth objectives for our stores and could have a material adverse impact on our financial condition or results of operations. Part of our future growth is dependent on our ability to operate stores in desirable locations, with capital investment and lease costs providing the opportunity to earn a reasonable return. We cannot be sure when or whether such desirable locations will become available at reasonable costs.

The impact of natural disasters, negative climate patterns, public health crises, political crises and other unexpected and catastrophic events could result in interruptions to our operations, as well as to the operations of our third-party partners, and have a material adverse impact on our business.

Our retail stores, corporate offices, distribution centers, infrastructure projects and digital operations, as well as the operations of our vendors and manufacturers, are vulnerable to disruption from natural disasters, such as hurricanes, tornadoes, floods, earthquakes, extreme cold events, unseasonably warm weather, and other adverse weather events; negative climate patterns, such as those in domestic and global water-stressed regions; public health crises, such as pandemics and epidemics; political crises, such as terrorists attacks, war, geopolitical uncertainty, labor, unrest, and other political instability (including, without limitation, the ongoing conflict between Russia and Ukraine and the conflict in the Middle East); significant power interruptions or outages; and other unexpected, catastrophic events. These events could disrupt the operations of our corporate offices, global stores and supply chain and those of our third-party partners, including our vendors and manufacturers. In addition to immediate impacts on global operations, these events could result in a reduction in the availability and quality, and as a result pricing volatility of, raw materials used to manufacture our merchandise, delays in merchandise fulfillment and deliveries, loss of customers and revenues due to store closures and inability to respond to customer demand, increased costs to meet consumer demand (which we may not be able to pass on to customers), reduced consumer confidence or changes in consumers' discretionary spending habits.

Other factors that would negatively impact our ability to successfully operate due to the impact of natural disasters, negative climate patterns, public health crises, political crises, significant power interruptions or outages, and other unexpected, catastrophic events and other unexpected and other catastrophic events include, but are not limited to:

- Supply chain delays due to closed or reduced capacity for trade routes and factories, reduced workforces, or scarcity of raw materials;
- Physical losses to our stores, distribution centers or offices that may incur costs that exceed our applicable insurance coverage for any necessary repairs to damages or business disruptions caused by natural disasters or other unexpected and catastrophic events;
- Our ability to keep our stores open if there are severe weather or climate conditions, stay-at-home orders, social distancing requirement, travel restrictions, or other concerns related to physical safety;
- Our ability to attract customers to our stores, given the risks, or perceived risks, of gathering in public places;
- Delays in, or our ability to complete, planned store openings on the expected terms or timing, or at all based on shortages in labor and materials and delays in the production and delivery of materials;
- Our ability to preserve liquidity to be able to take advantage of market conditions during periods of uncertainty and instability in the global financial markets; and
- Difficulty accessing debt and equity capital on attractive terms, or at all, during periods of uncertainty and instability in the global financial markets, or a deterioration in credit and financing conditions may affect our access to capital necessary to fund business operations or address maturing liabilities.

Historically, our operations have been seasonal, and natural disasters or unseasonable weather conditions, may diminish demand for our seasonal merchandise and could also influence consumer preferences and fashion trends, consumer traffic and shopping habits. In addition, to the extent natural disasters cause physical losses to our stores, distribution centers or offices, we may incur costs that exceed our applicable insurance coverage for any necessary repairs to damages or business disruption.

STRATEGIC RISKS.

Changes to our long-term business strategy or a failure to successfully execute on our long-term strategic plans could adversely impact our financial condition and reputation.

While we have successfully executed certain goals in our Always Forward Plan, our continued ability to effectively execute on and maintain the results of our Always Forward Plan is subject to various risks and uncertainties as described herein. In addition, we may modify or adjust future long-term strategies to meet changes in our business environment.

While we believe that our successful execution and ability to attain certain established goals and targets of our Always Forward Plan led to long-term revenue growth and profitability, there is no assurance regarding the extent to which we will realize the anticipated objectives or sustain the financial objectives, if at all, or regarding the timing of such anticipated benefits. Our failure to realize the anticipated objectives or sustain the financial objectives established in our long-term strategic plans, which may be due to our inability to execute established long-term target or goals, changes in consumer demand, competition, macroeconomic conditions (including inflation or tariffs), retention of key talent, and other risks described herein, could have a material adverse effect on our business.

If the continued execution and maintenance of our long-term business strategy is not successful, or we do not realize the full objectives to the extent or in the timeline that we anticipate, our financial condition and reputation could be adversely affected.

Our failure to attract, retain, and effectively manage strategic partnerships with third parties could have a material adverse impact on our business.

In order to compete in this highly competitive and constantly evolving industry, at times, we may enter into new strategic partnerships with third parties to expand our global brand reach, or we may launch new concepts or brands to expand our portfolio. Such strategic partnerships may include wholesale, franchise, or licensing arrangements in which we license our brands and intellectual property for use on products produced, marketed and/or sold by third parties, and licensing arrangements in which we license intellectual property from third parties. Such arrangements are subject to additional risks, including our ability to comply with obligations under license agreements that we have with third-party licensors, the abrupt termination of such arrangements, or actions taken by third-party wholesale, franchise, or licensee partners that may materially diminish the value of our intellectual property or our brands' reputations.

These initiatives, and others that we may engage in to respond to the highly competitive and evolving industry in which we operate, could result in significant financial and operational investments that do not provide the anticipated benefits or desired rates of return and there can be no guarantee that pursuing these investments or strategic partnerships will result in improved operating results.

Our failure to evaluate and manage our global store network could have a material adverse impact on our business.

With the evolution of digital and omnichannel capabilities, customer expectations have shifted and there has been greater pressure for a seamless omnichannel experience across all channels. Through our multi-year global store network optimization initiative, we have taken actions to optimize our store productivity by remodeling, right-sizing or relocating stores to smaller square footage locations, and closing legacy stores. Modernizing and growing our store fleet is an important part of our business strategy and failure to evaluate and manage our global store network could have an adverse impact on our results of operations.

The ability to modify existing leases, to remodel or repurpose existing locations, and to open new stores experiences requires partnership with our landlords. If our partnerships with our landlords were to deteriorate, this could adversely affect the pace of opening new store experiences and/or lead to an increase in store closures. In addition, if there is an increase in events such as landlord bankruptcies, or mall foreclosures, competition between retailers could increase for remaining suitable store locations. Pursuing the wrong opportunities and any delays, cost increases, disruptions or other uncertainties related to those opportunities could adversely affect our results of operations. If our investments in new stores or remodeling and right-sizing existing stores do not achieve appropriate returns, our financial condition and results of operations could be adversely affected.

Although we attempt to open new stores in prominent locations, it is possible that locations which were prominent when we opened our stores may lose favor over time.

Our failure to realize the anticipated benefits of our recent transition to a regional-based organizational model could have a negative impact on our business.

During the second quarter of Fiscal 2023, to drive ongoing brand growth and leverage the knowledge and experience of its regional teams, the Company reorganized its structure and now primarily manages its business on a geographic basis, consisting of three reportable segments: Americas; Europe; the Middle East and Africa (EMEA) and Asia-Pacific (APAC). As a result of our regional-based organizational model, we have decentralized execution of our commercial strategy in each international region from our global home office to our regional headquarters located in Shanghai, China and London, United Kingdom. Failure to realize the anticipated benefits of our recent transition to a regional-based organizational model could have a negative impact on our business. In addition, realization of the anticipated benefits of this new regional-based organizational model is dependent on the effectiveness of this new operating structure.

Our inability to effectively conduct business in global markets, including as a result of legal, tax, regulatory, political and economic risks could have a material adverse impact on our business.

We operate on a global basis and are subject to risks associated with operating in different global markets that could have a material adverse effect on our reputation, business and results of operations if we fail to address them.

Such risks include, but are not limited to, the following:

- addressing the different operational requirements present in each country in which we operate, including those related to employment and labor, transportation, logistics, real estate, lease provisions and local reporting or legal requirements;
- supporting global growth by successfully implementing local customer and product-facing teams and certain corporate support functions at our regional headquarters located in Shanghai, China and London, United Kingdom;
- supporting global growth by decentralizing execution of our commercial strategy authority from our global home office to our regional headquarters located in Shanghai, China and London, United Kingdom;
- hiring, training and retaining qualified personnel;
- maintaining good labor relations with individual associates and groups of associates;
- avoiding work stoppages or other labor-related issues in our European stores, where some associates are represented by workers' councils and unions;
- retaining acceptance from local customers;
- managing inventory effectively to meet the needs of existing stores on a timely basis;
- political, civil and social unrest, such as the conflict between Russia and Ukraine or conflict in the Middle East;
- government regulations affecting trade between the U.S. and other countries, including tariffs and customs laws;
- tax rate volatility and our ability to realize tax benefits resulting from non-U.S. operations;
- managing foreign currency exchange rate risks effectively;
- substantial investments of time and resources in our global operations may not result in achievement of acceptable levels of returns; for example, we have experienced year-over-year declines in revenues from our global operations; and
- continued and sustained declines in our global revenues could lead to store closures, restructuring costs, and impairment losses, all of which could adversely impact our business, profitability, and results of operations.

We are subject to domestic laws related to global operations, including the Foreign Corrupt Practices Act, in addition to the laws of the foreign countries in which we operate. If any of our overseas operations, or our associates or agents, violate such laws, we could become subject to sanctions or other penalties that could negatively affect our reputation, business and operating results.

Our failure to appropriately address environmental, social, and governance (ESG) topics could have a material adverse impact on our reputation and, as a result, our business.

There is increased focus from certain government regulators, investors, customers, associates, business partners and other stakeholders concerning ESG matters.

The expectations related to ESG matters continue to rapidly evolve and diverge. The focus by investors and other stakeholders on the ESG practices of publicly traded companies, like us, has included or may in the future include expanding mandatory and voluntary reporting, diligence, and disclosure on topics such as climate change, human capital, labor and risk oversight, and could expand the nature, scope, and complexity of matters that we are required to control, assess and report. Furthermore, if we announce certain initiatives and goals related to ESG matters we could fail, or be perceived to fail, to accurately set, meet or report our progress on such initiatives and goals and/or we could fail, or be perceived to fail, to act responsibly in our ESG efforts. In addition, we could be criticized for the speed of adoption of such initiatives and goals, or the scope of such initiatives or goals. As a result, we could suffer negative publicity and our reputation could be adversely impacted, which in turn could have a negative impact on investor perception and our products' acceptance by consumers. In addition, in recent years there has been a rise in the prevalence of the anti-ESG movement, and we could be criticized for the scope or nature of our ESG initiatives and goals or for any revisions to our goals. We may not be able to meet the diverging expectations and perspectives on these topics, and we could be subjected to negative responses by consumers (such as boycotts or negative publicity campaigns) that could adversely affect our reputation, results of operations, financial condition and cash flows. This may also impact our ability to attract and retain talent to compete in the marketplace

There is also uncertainty regarding the implementation of laws, regulations, and policies related to ESG and global environmental sustainability matters, including disclosure obligations and reporting on such matters, and appropriately responding to potentially competing and/or contradictory regulatory requirements and expectations in the jurisdictions in which we operate. Changes in the legal or regulatory environment affecting ESG disclosure, responsible sourcing, supply chain transparency, or environmental protection, among others, including regulations to limit carbon dioxide and other greenhouse gas emissions, to discourage the use of plastic or to limit or to impose additional costs on commercial water use may result in increased costs for us and our business partners, all of which may negatively impact our results of operations, financial condition and cash flows.

OPERATIONAL RISKS.

Failure to protect our reputation could have a material adverse impact on our business.

Our ability to maintain our reputation is critical and public perception about our products or operations, whether justified or not, could impair our reputation, involve us in litigation, damage our brands and have a material adverse impact on our business.

Events that could jeopardize our reputation, include, but are not limited to, the following:

- We fail to maintain high standards for merchandise quality and integrity;
- We fall victim to a cyber-attack, resulting in customer data being compromised;
- We fail to comply with ethical, social, product, labor, health and safety, legal, accounting or environmental standards, or related political considerations;
- Third parties with which we have a business relationship, including our brand representatives and influencer network, and our wholesale, franchise licensing, or marketplace partners, fail to represent our brands in a manner consistent with our brand image or act in a way that harms their reputation;
- Misconduct or illegal activities by our current and former associates, directors, advisors, third-party business partners, or others affiliated, or perceived to be affiliated, with the Company;
- Third-party vendors fail to comply with our Vendor Code of Conduct or any third parties with which we have a business relationship fail to represent our brands in a manner consistent with our brand image;
- Unfavorable media publicity, influencer reviews on social media, or negative consumer perception of our products, operations, brand or experience; and
- Our position or perceived lack of position on ESG topics, public policy or other similar issues and any perceived lack of transparency about those matters.

In addition, in recent years there has been an increase in media platforms, particularly, social media and our use of social media platforms is an important element of our omnichannel marketing efforts. For example, we maintain various social media accounts for our brands, including Instagram, TikTok, Facebook, X (f/k/a Twitter), SnapChat, and Pinterest accounts. Negative publicity or actions taken by individuals that we partner with, such as brand representatives, influencers or our associates, that fail to represent our brands in a manner consistent with our brand image or act in a way that harms their reputation, whether through our social media accounts or their own, could harm our brand reputation and materially impact our business. Social media also allows for anyone to provide public feedback, which could influence perceptions of our brands and reduce demand for our merchandise.

Damage to our reputation and loss of consumer confidence for these or any other reasons could lead to adverse consumer actions, including boycotts, have negative impacts on investor perception and could impact our ability to attract and retain the talent necessary to compete in the marketplace or to attract or retain business partners for third-party relationships such as licensing or franchise arrangements, all of which could have a material adverse impact on our business, as well as require additional resources to rebuild our reputation.

Failure to continue to successfully manage the complexities of our omnichannel operations and of our customers' omnichannel shopping experience, or failure to continue to successfully invest in customer, digital and omnichannel initiatives could have a material adverse impact on our business.

As omnichannel retailing continues to evolve, our customers increasingly interact with our brands through a variety of digital and physical spaces, and expect seamless integration across all touchpoints. As our success depends on our ability to effectively manage the complexities of our omnichannel operations and of our customers' omnichannel shopping experience, including our ability to respond to shifting consumer traffic patterns, receive and fulfill orders, and engage our customers, we have made significant investments and operational changes to develop our digital and omnichannel capabilities globally. Such investments and operational changes include the development of localized fulfillment, shipping and customer service operations, investments in digital media to attract new customers, and the rollout of omnichannel capabilities listed in "[ITEM 1. BUSINESS](#)" of this Annual Report on Form 10-K.

While we must keep up to date with technology trends in the retail environment in order to manage our successful omnichannel shopping experience, it is possible these initiatives may not provide the anticipated benefits or desired rates of return. For example, we could be at a competitive disadvantage if we are unable to effectively collect data and leverage data analytics to retrieve timely, customer insights to appropriately respond to customer demands and improve customer engagement across channels or if innovative digital products and features we develop are not utilized or received by customers as anticipated.

In addition, digital operations are subject to numerous risks, including reliance on third-party computer hardware/software and service providers, data breaches, the variability of the rate of merchandise returns, violations of evolving government interpretations of laws and regulations, including those relating to online privacy, credit card fraud, telecommunication failures, electronic break-ins and similar compromises, and disruption of services. Changes in foreign governmental regulations and interpretations may also negatively impact our omnichannel operations, including our ability to accept orders and deliver product to our customers. Failure to successfully respond to these risks may adversely affect sales as well as damage the reputation of our brands.

If our information technology systems are disrupted or cease to operate effectively, it could have a material adverse impact on our business.

We rely heavily on our own information technology systems and on third-party information technology systems in both our customer-facing and corporate operations to: operate our websites and mobile apps; record and process transactions; respond to customer inquiries; manage inventory; purchase, sell and ship merchandise on a timely basis; maintain cost-efficient operations; create a customer relationship management database through our loyalty programs; and complete other customer-facing and business objectives. Given the significant number of transactions that are completed annually, it is vital to maintain constant operation of our computer hardware, telecommunication systems and software systems, and maintain data security. Despite efforts to prevent such an occurrence, our information technology systems may be vulnerable, from time to time, to damage or interruption from computer viruses, power interruptions or outages or other system failures, third-party intrusions, inadvertent or intentional breaches by our associates, third-party service providers or business partners, or threat actors, and other technical malfunctions. Further, the sophistication, availability and use of AI by threat actors present an increased level of risk. If our systems are damaged, fail to function properly, or are outdated in comparison to those of our competition, we may have to make monetary investments to repairs or replace the systems and we could endure delays in our operations. We have made and expect to continue to make significant monetary investments and devote significant attention to modernizing our core systems, and the effectiveness of these investments can be less predictable than others and may fail to provide the expected benefits. Additionally, we rely on services provided by third-party vendors and platforms for certain information technology processes, including point-of-sale, digital operations, inventory management, supply chain, planning, sourcing, merchandising, payroll, scheduling, financial reporting, and managing third-party relationships, including our brand representatives and influencer network, and our wholesale, franchise licensing, or marketplace partners. This reliance on third parties makes our operations vulnerable to a failure by any one of these parties to perform adequately or maintain effective internal controls.

We regularly evaluate our information technology systems and requirements to ensure appropriate functionality and use in response to business demands. For example, in 2022, we began the multi-year process of upgrading our ERP system. We are continuing to execute this plan in Fiscal 2025 and currently anticipate implementation in Fiscal 2026. We are aware of the inherent risks associated with replacing and modifying these systems, including system disruptions, inaccurate system information, and user acceptance and understanding. Any material disruption or slowdown of our systems, including a disruption or slowdown caused by our failure to successfully upgrade or replace our systems could impact our ability to effectively manage and maintain our inventory, to ship products to customers on a timely basis, and may cause information to be lost or delayed, including data related to customer orders. Such a loss or delay, especially if the disruption or slowdown occurred during our peak selling seasons, could have a material adverse effect on our results of operations. In addition, the upgrading of our ERP system requires significant financial and operational investments, and such investments may not provide the anticipated benefits or desired rates of returns.

We may be exposed to risks and costs associated with cyber-attacks, data protection, credit card fraud and identity theft that could have a material adverse impact on our business.

In the standard course of business, we receive and maintain confidential information about customers, associates and other third parties. In addition, third parties also receive and maintain certain confidential information. The protection of this information is critical to our business and subjects us to numerous laws, rules and regulations domestically and in foreign jurisdictions. The retail industry in particular has been the target of many cyber-attacks and it is possible that an individual or group could defeat our security measures, or those of a third-party service provider or business partner, and access confidential information about our business, customers and associates. Further, like other companies in the retail industry, during the ordinary course of business, we and our vendors have in the past experienced, and we expect to continue to experience, cyber-attacks of varying degrees and types, including phishing, and other attempts to breach, or gain unauthorized access to, our systems. To date, cyber-attacks have not had a material impact on our operations, but we cannot provide assurance that cyber-attacks will not have a material impact in the future.

We have experienced, and expect to continue to experience, increased costs associated with protecting confidential information through the implementation of security technologies, processes and procedures, including training programs for associates to raise awareness about phishing, malware and other cyber risks, especially as we implement new technologies, such as new payment capabilities or updates to our mobile apps and websites. Additionally, the techniques and sophistication used to conduct cyber-attacks and breaches of information technology systems change frequently and increase in complexity and are often not recognized until such attacks are launched or have been in place for a period of time. We (or the third parties on which we rely) may not have the resources or technical sophistication to sufficiently anticipate, prevent, or immediately identify and remediate cyber-attacks.

Furthermore, the global regulatory environment is increasingly complex and demanding with frequent new and changing requirements surrounding information security and privacy, including new regulations applicable to public companies in the United States, China's Cybersecurity Law, the California Consumer Privacy Act, and the European Union's General Data Protection Regulation. We may incur significant costs related to compliance with these laws and failure to comply with these regulatory standards, and others, could have a material adverse impact on our business.

We have also implemented a flexible work policy allowing most of our corporate associates to work remotely, from time to time, as have certain of our third-party vendors. Offsite working by associates, which requires increased use of public internet connection, and use of office equipment off premises may make our business more vulnerable to cybersecurity breach attempts, phishing and other scams, fraud, money laundering, theft and other criminal activity.

If we, or a third-party who has access to our info, were to fall victim to a successful cyber-attack or suffer intentional or unintentional data and security breaches by associates or third-parties, it could have a material adverse impact on our business, especially an event that compromises customer data or results in the unauthorized release of confidential business or customer information. In addition, if we are unable to avert a denial of service attack that renders our website inoperable, it could result in negative consequences, such as lost sales and customer dissatisfaction. Additional negative consequences that could result from these and similar events may include, but are not limited to:

- remediation costs, such as liability for stolen assets or information, potential legal settlements to affected parties, repairs of system damage, and incentives to customers or business partners in an effort to maintain relationships after an attack;
- increased cybersecurity protection costs, which may include the costs of making organizational changes, deploying additional personnel and protection technologies, training associates, and engaging third party experts and consultants;
- lost revenues resulting from the unauthorized use of proprietary information or the failure to retain or attract customers following an attack;
- litigation and legal risks, including costs of litigation and regulatory, fines, penalties or actions by domestic or international governmental authorities;
- increased insurance premiums, or the ability to obtain insurance on commercially reasonable terms;
- reputational damage that adversely affects customer or investor confidence; and
- damage to the Company's competitiveness, stock price, and long-term shareholder value.

Although we maintain cybersecurity insurance, there can be no assurance that it will be sufficient for a specific cyber incident, or that insurance proceeds will be paid to us in a timely fashion.

Changes in the cost, availability and quality of raw materials, transportation and labor, including changes due to trade relations could have a material adverse impact on our business.

Changes in the cost, availability and quality of the fabrics or other raw materials used to manufacture our merchandise could have a material adverse effect on our cost of sales, or our ability to meet customer demand. The prices for such fabrics depend largely on the market prices for the raw materials used to produce them, particularly cotton. The price and availability of such raw materials may fluctuate significantly, depending on many factors, including crop yields, weather patterns and other unforeseen events. For example, significant inflationary pressures have and may continue to impact the cost of labor, cotton and other raw materials. Increased global uncertainty has also impacted and may in the future impact the cost, availability and quality of the fabrics or other raw materials used to manufacture our merchandise, and compliance with sanctions, customs trade orders and sourcing laws could impact the price of cotton in the marketplace and the global supply chain.

Fluctuations in the cost of transportation could also have a material adverse effect on our cost of sales and ability to meet customer demand. We primarily use six contract carriers to ship merchandise and related materials to our North American customers, and several contract carriers for our global customers. If the shipping operations of these third parties were disrupted, and we are unable to respond in a quick and efficient manner, our ability to replace inventory in our stores and process digital and third-party orders could be interrupted, potentially resulting in adverse impacts to sales or increased costs. Furthermore, we are susceptible to increases in fuel costs which may increase the cost of distribution. If we are not able to pass this cost on to our customers, our financial condition and results of operations could be adversely affected.

In addition, we have experienced increasing wage pressures in recent years related to the cost of labor at our third-party manufacturers, at our distribution centers and at our stores. For example, recent government initiatives in the U.S. or changes to existing laws, such as the adoption and implementation of national, state, or local government proposals relating to increases in minimum wage rates, may increase our costs of doing business and adversely affect our results of operations. We may not be able to pass all or a portion of higher labor costs on to our customers, which could adversely affect our gross margin and results of operations.

Changes in tax or tariff policy regarding merchandise produced in, and raw materials sourced from, certain countries could adversely affect our business.

A predominant portion of the merchandise we sell is originally manufactured in countries other than the United States. Refer to Note 6, "[INVENTORIES](#)," of the Notes to Consolidated Financial Statements included in "[ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA](#)" of this Annual Report on Form 10-K for a summary of inventory sourced based on vendor location during Fiscal 2024. Additionally, many of the raw materials used to manufacture our apparel is sourced internationally. International trade disputes that result in tariffs and other protectionist measures could adversely affect our business, including disruption and cost increases in our established patterns for sourcing raw materials and our merchandise and increased uncertainties in planning our sourcing strategies and forecasting our margins. For example, the United States has imposed significant new tariffs on China related to the importation of certain product categories. It is also possible that additional tariffs may be imposed on imports from other countries, including the foreign countries where our apparel is predominantly manufactured. The imposition of any such tariffs would likely increase the cost of our merchandise and negatively impact our operating results. Although such changes would have implications across the entire industry, we may fail to effectively adapt to and manage the adjustments in strategy that would be necessary in response to those changes. We are working with our current suppliers to mitigate our exposure to current or potential tariffs and seeking opportunities to engage other suppliers, but there can be no assurance that we will be able to offset any increased costs or secure other suppliers.

In addition, other countries may change their business and trade policies in anticipation of or in response to the U.S.'s increased import tariffs and other changes in U.S. trade policy and regulations already enacted or that may be enacted in the future.

In addition to the general uncertainty and overall risk from potential changes in trade laws and policies, as we make business decisions in the face of such uncertainty, we may incorrectly anticipate the outcomes, miss out on business opportunities, or fail to effectively adapt our business strategies and manage the adjustments that are necessary in response to those changes. These risks could adversely affect our revenues, reduce our profitability, and negatively impact our business.

We depend upon independent third parties for the manufacture and delivery of our merchandise, and a disruption of the manufacture or delivery of our merchandise could have a material adverse impact on our business.

We depend on third parties for the manufacture and delivery of our merchandise. As a result, the continued success of our operations is tied to our timely receipt of quality merchandise from third-party manufacturers. We source the majority of our merchandise outside of the U.S. through arrangements with approximately 150 vendors, primarily located in southeast Asia. Political, social or economic instability in the regions in which our manufacturers are located could cause disruptions in trade, including exports to the U.S. and EMEA. In addition, the inability of vendors to access liquidity, or the insolvency of vendors, could lead to their failure to deliver merchandise to us. A manufacturer's inability to ship orders in a timely manner or meet our quality standards could cause delays in responding to consumer demand and negatively affect consumer confidence or negatively impact our competitive position, any of which could have a material adverse effect on our financial condition and results of operations.

For example, the attacks on cargo vessels in the Red Sea have resulted in delayed deliveries and increased freight costs, and a prolonged or escalating armed conflict may result in additional costs, including any impact from using air freight instead of ocean freight to mitigate inventory delays. It is possible that the adverse impact of these and future attacks, including additional costs associated with mitigation efforts, could materially adversely affect our business and results of operation.

All factories that we partner with are contractually required to adhere to the Company's Vendor Code of Conduct, go through social audits which include on-site walk-throughs to appraise the physical working conditions and health and safety practices, and review payroll and age documentation. If these factories are unwilling or not able to meet the standards set forth within the Company's Vendor Code of Conduct, it could limit the options available to us and could result in an increase of costs of manufacturing, which we may not be able to pass on to our customers.

Other events that could disrupt the timely delivery of our merchandise include new trade law provisions or regulations, reliance on a limited number of shipping carriers and associated alliances, weather events, significant labor disputes, port congestion and other unexpected events.

Our reliance on our distribution centers makes us susceptible to disruptions or adverse conditions affecting our supply chain.

Our distribution center operations are susceptible to local and regional factors, such as system failures, accidents, labor disputes, economic and weather conditions, natural disasters, significant power interruptions or outages, demographic and population changes, and other unforeseen events and circumstances. We rely on both company-operated and third-party distribution centers to manage the receipt, storage, sorting, packing and distribution of our merchandise. If our distribution centers are not adequate to support our operations, including as a result of capacity constraints in response to an increase in digital sales or performance issues related to third-party management, the increased rate of merchandise returns, we could experience adverse impacts such as shipping delays and or customer dissatisfaction. In addition, if our distribution operations were disrupted due to, for example, labor shortages, natural disasters or power interruptions or outages, and we were unable to relocate operations or find other property adequate for conducting business, our ability to replace inventory in our stores and process digital and third-party orders could be interrupted, potentially resulting in adverse impacts to sales or increased costs. Refer to "[ITEM 1. BUSINESS](#)" of this Annual Report on Form 10-K, for a listing of certain distribution centers on which we rely.

We rely on the experience and skills of our executive officers and associates, and the failure to attract or retain this talent, effectively manage succession, and establish a workforce that can best serve the communities in which we operate could have a material adverse impact on our business.

Our ability to succeed may be adversely impacted if we are not able to attract, retain and develop talent and future leaders, including our executive officers. We believe that the attraction, retention and management of qualified talent is integral to our success in advancing our strategies and key business priorities and avoiding disruptions in our business. We rely on our associates across the organization, including those at our corporate offices, stores and distribution centers, as well as their experience and expertise in the retail business.

Our executive officers closely supervise all aspects of our operations, have substantial experience and expertise in the retail business and have an integral role in the growth and success of our brands. If we were to lose the benefit of the involvement of our executive officers or other personnel, without adequate succession plans, our business could be adversely affected.

In addition, if we are unable to attract and retain talent at the associate level, our business could be adversely impacted. Competition for such qualified talent is intense, and we cannot be sure that we will be able to attract, retain and develop a sufficient number of qualified individuals in future periods. In addition, we cannot guarantee that we will be able to find adequate temporary or seasonal personnel to staff our operations when needed. For example, as automation, AI and similar technological advancements continue to evolve, we may need to compete for talent that is familiar with these advancements in technologies in order to compete effectively with our industry peers. If we are not successful in these efforts, our business may be adversely affected.

If we are not successful in these efforts or fail to successfully execute against the key human capital management initiatives discussed in "[ITEM 1. BUSINESS](#)" of this Annual Report on Form 10-K, our business could be adversely impacted.

If we identify a material weakness in our internal control over financial reporting, fail to remediate a material weakness, or fail to establish and maintain effective internal control over financial reporting, our ability to accurately and timely report our financial results could be adversely affected.

The effectiveness of any controls or procedures is subject to certain inherent limitations, and as a result, there can be no assurance that our controls and procedures will prevent or detect misstatements. Even an effective system of internal control over financial reporting will provide only reasonable, not absolute, assurance with respect to financial statement preparation. Also, projections of any evaluations of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

If we fail to remediate a material weakness, or are otherwise unable to maintain effective internal control over financial reporting, management could be required to expend significant resources. Additionally, we could fail to meet our public reporting requirements on a timely basis, and be subject to fines, penalties, investigations or judgements, all of which could negatively affect investor confidence and adversely impact our stock price.

LEGAL, TAX, REGULATORY AND COMPLIANCE RISKS.

Misconduct or illegal activities by our current and former associates, directors, advisers, third-party service providers or business partners, or others affiliated, or perceived to be affiliated, with the Company could subject us to reputational harm, regulatory scrutiny or inquiries, or legal liability.

There is a risk that current or former associates, executives, directors, advisers, third party-service providers or business partners of the Company, or others who are actually or perceived to be affiliated with us, could engage, deliberately or recklessly, in misconduct or fraud that creates legal exposure for us and adversely affects our business. If such individuals were to engage, or be accused of engaging in, illegal or suspicious activities, sexual misconduct or harassment, racial or gender discrimination, improper use or disclosure of confidential information, fraud, payment or solicitation of bribes, or any other type of similar misconduct or violation of other laws and regulations, during their employment or service with us, we could suffer serious harm to our brand, reputation, be subject to penalties or sanctions, suffer serious harm to our financial position and current and future business relationships, and face potentially significant litigation or investigations.

In particular, Michael Jeffries, who served as chief executive officer of the Company from 1992 to 2014, has been accused of sexual abuse and exploitation, which accusations include claims relating to behavior that is alleged to have occurred during his prior tenure with us. Criminal charges have been filed against Mr. Jeffries, and there are multiple pending civil actions against Mr. Jeffries and the Company that relate to this alleged behavior. Although we believe the claims against us are without merit, the allegations against this former executive, as well as the claims brought against us, have resulted in negative media attention and may result in additional litigation or may result in other adverse consequences to our reputation, brand, and business. In addition, in March 2024 and March 2025, the Delaware Court of Chancery ruled that Mr. Jeffries was entitled to advancement by the Company of his defense costs for the civil litigation and for his defense costs for the criminal prosecution against him, respectively.

Fluctuations in our tax obligations and effective tax rate may result in volatility in our results of operations could have a material adverse impact on our business.

We are subject to income taxes in many U.S. and foreign jurisdictions. In addition, our products are subject to import and excise duties and/or sales, consumption or value-added taxes ("VAT") in many jurisdictions. We record tax expense based on our estimates of future payments, which include reserves for estimates of probable settlements of foreign and domestic tax audits. At any time, many tax years are subject to audit by various taxing jurisdictions. The results of these audits and negotiations with taxing authorities may affect the ultimate settlement of these issues. As a result, we expect that throughout the year, there could be ongoing variability in our quarterly tax rates as taxable events occur and exposures are evaluated. In addition, our effective tax rate in any given financial reporting period may be materially impacted by changes in the mix and level of earnings or losses by taxing jurisdictions or by changes to existing accounting rules or regulations. Fluctuations in duties could also have a material impact on our financial condition, results of operations or cash flows.

The Organization for Economic Co-operation and Development ("OECD"), along with members of its inclusive framework, have, through the Base Erosion and Profit Shifting project, proposed changes to numerous long-standing tax principles ("Pillar Two Rules"). Although the U.S. effectively withdrew from the OECD global tax agreement in January 2025, other countries where the Company does business, including the U.K. and Germany, have enacted legislation implementing Pillar Two Rules, which are effective from January 1, 2024. The implementation of the Pillar Two Rules in each jurisdiction in which the Company operates did not have a material impact on its effective tax rate for Fiscal 2024, and the Company does not project a material impact on the effective tax rate for Fiscal 2025.

In some global markets, we are required to withhold and remit VAT to the appropriate local tax authorities. Failure to correctly calculate or remit the appropriate amounts could subject us to substantial fines and penalties that could have an adverse effect on our financial condition, results of operations or cash flows.

In the past, tax law has been enacted, domestically and abroad, impacting our current or future tax structure and effective tax rate, such as the Inflation Reduction Act in the U.S. Tax law may be enacted in the future, domestically or abroad, that impacts our current or future tax structure and effective tax rate.

Litigation and any future stockholder activism could have a material adverse impact on our business.

We, along with third parties we do business with, are involved, from time to time, in litigation arising in the ordinary course of business. Litigation matters may include, but are not limited to, contract disputes, employment-related actions, alleged misconduct by current or former associates, labor relations, commercial litigation, intellectual property rights, privacy litigation, product safety, environmental matters and shareholder actions.

Litigation, in general, may be expensive and disruptive. We cannot predict with certainty the outcomes of these legal proceedings and other contingencies, and the costs incurred in litigation can be substantial, regardless of the outcome. Substantial unanticipated verdicts, fines and rulings do sometimes occur. As a result, we could, from time to time, incur judgments, enter into settlements, or revise our expectations regarding the outcome of certain matters, and such developments could have a material adverse effect on our results of operations in the period in which the amounts are accrued and/or our cash flows in the period in which the amounts are paid. The outcome of some of these legal proceedings and other contingencies could require us to take, or refrain from taking, actions which could negatively affect our operations and, depending on the nature of the allegations, could negatively impact our reputation. Additionally, defending against these legal proceedings may involve significant expense and diversion of management's attention and resources.

Stockholder activism, which could take many forms or arise in a variety of situations, remains popular with many public investors. Due to the volatility of our stock price and for a variety of other reasons, we may become the target of securities litigation or stockholder activism. Responding to stockholder activists' campaigns may involve significant expense and diversion of management's attention and resources without yielding any improvement in our results of operations or financial condition.

Failure to adequately protect and enforce our intellectual property, or failure to adequately ensure that we are not infringing the intellectual property rights of others, could have a negative impact on our brand image and limit our ability to penetrate new markets which could have a material adverse impact on our business.

We believe our core trademarks, Abercrombie & Fitch®, abercrombie®, Hollister®, Gilly Hicks®, and the "Moose" and "Seagull" logos, are essential to the effective implementation of our strategy. We have obtained or applied for federal registration of these trademarks with the U.S. Patent and Trademark Office and the registries of countries in key markets within the Company's owned and operated sales and distribution channels, and those in which the Company's franchise, wholesale, and licensing partners have sales and distribution rights. In addition, these trademarks are either registered, or the Company has applications for registration pending, with the registries of many of the foreign countries in which the manufacturers of the Company's products are located. There can be no assurance that we will obtain registrations that have been applied for or that the registrations we obtain will prevent the imitation of our products or infringement of our intellectual property rights by others. Although brand security initiatives are in place, we cannot guarantee that our efforts against the infringement or counterfeiting of our brands will be successful. If a third party copies our products in a manner that projects lesser quality or carries a negative connotation, our brand image could be materially adversely affected.

Because we have not yet registered all of our trademarks in all categories, or in all foreign countries in which we source or offer our merchandise now, or may in the future, our global expansion and our merchandising of products using these marks could be limited. The pending applications for international registration of various trademarks could be challenged or rejected in those countries because third parties of whom we are not currently aware have already registered similar marks in those countries. Accordingly, it may be possible, in those foreign countries where the status of various applications is pending or unclear, for a third-party owner of the national trademark registration for a similar mark to prohibit the manufacture, sale or exportation of branded goods in or from that country. Failure to register our trademarks or purchase or license the right to use our trademarks or logos in these jurisdictions could limit our ability to obtain supplies from, or manufacture in, less costly markets or penetrate new markets should our business plan include selling our merchandise or granting rights to our franchise, wholesale, and licensing partners in those non-U.S. jurisdictions.

In addition, if third parties successfully claim we infringe their intellectual property rights, we may be subject to liability, be prevented from using our trademarks or other intellectual property rights, or be obligated to remove this merchandise from our inventory, which could have an adverse effect on our financial conditions and operations. Defending infringement claims could be expensive and time consuming and might result in our incurring additional costs, entering into costly license agreements, actions to recover unpaid royalty fees, or other settlement agreements. These risks may be magnified if we increase our use of licensing arrangements or partnerships with third parties.

Changes in the regulatory or compliance landscape could have a material adverse impact on our business.

We are subject to numerous domestic and foreign laws and regulations, including those related to customs, truth-in-advertising, securities, environmental and social disclosures, consumer protection, general privacy, health information privacy, identity theft, online privacy, general employment, employee health and safety, minimum wages, unsolicited commercial communication and zoning and occupancy laws, as well as ordinances that regulate retailers generally and/or govern the importation, intellectual property, promotion and sale of merchandise and the operation of retail stores, digital operations and distribution centers. If these laws and regulations were to change, or were violated by our management, associates, suppliers, vendors or other parties with whom we do business, the costs of certain merchandise could increase, or we could experience delays in shipments of our merchandise, be subject to fines or penalties, temporary or permanent store closures, or increased regulatory scrutiny or suffer reputational harm, which could reduce demand for our merchandise and adversely affect our business and results of operations. Any changes in regulations, the imposition of additional regulations, or the enactment of any new or more stringent legislation including the areas referenced above, could adversely affect our business and results of operations.

Laws and regulations at the local, state, federal and various global levels frequently change, and the ultimate cost of compliance cannot be precisely estimated. Changes in the legal or regulatory environment affecting responsible sourcing, supply chain transparency, or environmental protection, among others, may result in increased compliance costs for us and our business partners. Additionally, we may face regulatory challenges in complying with applicable global sanctions and trade regulations and reputational challenges with our consumers and other stakeholders if we are unable to sufficiently verify the origins of material sourced for the manufacture of our products.

In addition, we are subject to a variety of regulatory and reporting requirements, including, but not limited to, those related to corporate governance and public disclosure. Stockholder activism, the current political environment, financial reform legislation, government intervention and regulatory reform may lead to substantial new regulations and disclosure obligations. New requirements or changes in current regulatory reporting requirements may introduce additional complexities, lead to additional compliance costs, divert management's time and attention from strategic business activities, and could have a significant effect on our reported results for the affected periods. Failure to comply with such regulations could result in fines, penalties, or lawsuits and could have a material adverse impact on our business.

The agreements related to A&F Management's senior secured asset-based revolving credit facility includes restrictive covenants that limit our flexibility in operating our business and our inability to obtain additional credit on reasonable terms in the future could have an adverse impact on our business.

The Amended and Restated Credit Agreement (as amended, the "ABL Credit Agreement") of Abercrombie & Fitch Management Co. ("A&F Management"), a wholly-owned indirect subsidiary of A&F, provides for a senior secured asset-based revolving credit facility of up to \$500 million (the "ABL Facility"), which matures on August 2, 2029. The agreements related to the ABL Facility contain restrictive covenants that, subject to specified exemptions, restrict, among other things, the ability of the Company and its subsidiaries to: incur, assume or guarantee additional indebtedness; grant or incur liens; sell or otherwise dispose of assets, including capital stock of subsidiaries; make investments in certain subsidiaries; pay dividends or make distributions on our capital stock; redeem or repurchase capital stock; change the nature of our business; and consolidate or merge with or into, or sell substantially all of the assets of the Company or A&F Management to another entity.

If an event of default under either related agreement occurs, any outstanding obligations under the ABL Facility could be declared immediately due and payable or the lenders or noteholders could foreclose on or exercise other remedies with respect to the assets securing the indebtedness under the ABL Facility. In addition, there is no assurance that we would have the cash resources available to repay such accelerated obligations. Moreover, the ABL Facility is secured by certain of our real property, inventory, intellectual property, general intangibles and receivables, among other things, and lenders may exercise remedies against the collateral in an event of default.

We may, from time to time, incur indebtedness. There can be no assurance that we would be able to obtain sufficient funds to enable us to repay or refinance any future obligations on commercially reasonable terms, or at all. Changes in market conditions could potentially impact the size and terms of a replacement facility or facilities in the future. The inability to obtain credit on commercially reasonable terms in the future could adversely impact our liquidity and results of operations as well as limit our ability to take advantage of business opportunities that may arise.

Our amended and restated bylaws provide that certain courts in the State of Delaware or the federal district courts of the United States will be the sole and exclusive forum for substantially all disputes between us and our stockholders, which could limit our shareholders' ability to obtain a favorable judicial forum for disputes with us or our directors, officers, or employees.

Our amended and restated bylaws provide that, unless we consent in writing to the selection of an alternative forum, the Court of Chancery located within the State of Delaware will be the sole and exclusive forum for any derivative action or proceeding brought on our behalf, any action asserting a claim of breach of a fiduciary duty owed by any current or former director, officer, other employee or shareholder to us or our shareholders, any action asserting a claim arising pursuant to any provision of the General Corporation Law of the State of Delaware, our certificate of incorporation or our bylaws (as either may be amended or restated) or as to which the General Corporation Law of the State of Delaware confers jurisdiction on the Court of Chancery of the State of Delaware, or any action asserting a claim governed by the internal affairs doctrine of the law of the State of Delaware. However, if the Court of Chancery within the State of Delaware lacks jurisdiction over such action, the action may be brought in the United States District Court for the District of Delaware. Additionally, unless we consent in writing to the selection of an alternative forum, the federal district courts of the United States of America shall be the exclusive forum for the resolution of any complaint asserting a cause of action arising under the Securities Act of 1933, as amended (the "Securities Act"). The exclusive forum provisions will be applicable to the fullest extent permitted by applicable law, subject to certain exceptions. Section 27 of the Exchange Act creates exclusive federal jurisdiction over all suits brought to enforce any duty or liability created by the Exchange Act or the rules and regulations thereunder. As a result, the exclusive forum provisions will not apply to suits brought to enforce any duty or liability created by the Exchange Act or any other claim for which the federal courts have exclusive jurisdiction. There is, however, uncertainty as to whether a court would enforce the exclusive forum provisions, and investors cannot waive compliance with the federal securities laws and the rules and regulations thereunder. Furthermore, Section 22 of the Securities Act creates concurrent jurisdiction for state and federal courts over all suits brought to enforce any duty or liability created by the Securities Act or the rules and regulations thereunder.

Item 1C. Cybersecurity

Risk Management and Strategy

The Company has established an information security program and related processes for assessing, identifying, and managing material risks from cybersecurity threats to the Company, including governance at the executive and Board level of the Company's cyber risk management strategy and the controls designed to protect its operations. The Company's information security program is managed at the executive level, with regular reporting to, and oversight by, the Board as described below. The Company's program includes multi-layered governance by management, the Audit and Finance Committee of the Board and the Board, as described in greater detail below.

The Company's policies and procedures identify how cybersecurity measures and controls are developed, implemented, and regularly reviewed and updated. The Company implements and maintains a set of controls to manage information risk, establishes guidelines for the use of information technology, and defines standards for identifying and mitigating information risks. The controls are developed based on risk assessments and a review of controls from multiple security frameworks, such as the Center for Internet Security's Critical Security Control and the Payment Card Industry Data Security Standard. The Company, internally and through third parties, conducts multiple information risk assessments each year. Risks identified in such assessments are considered and evaluated for inclusion in the Company's information risk portfolio and are then prioritized and addressed where appropriate to update the Company's information security programs. Assessments, along with risk-based analysis and judgment, are used by the Company to determine how it should manage these risks.

In addition, the Company's Incident Response Plan ("IRP") provides an outline for the Company on how to identify and address a significant cybersecurity incident. The IRP includes certain steps to be taken by the Information Security team to, among other things, assess the severity of an incident, determine the appropriate escalation, and mitigate or remediate the incident. The IRP is intended to serve as a framework to aid the Information Security team and other corporate functions in coordinating the Company's response to an incident in order to minimize the impact on the Company's business and operations, as well as the affected parties.

The Company also conducts cybersecurity exercises and training. For example, certain corporate associates and management-level associates in our stores and distribution centers must complete cybersecurity training on an at least annual basis, which educates the associates on the Company's policies and procedures for the handling of customer and employee personal data, incident reporting, and avoiding common cybersecurity threats such as phishing attacks. In addition, targeted training for corporate associates occurs throughout the year, and regular audiences include associates on the Company's marketing, data analytics, and user experience teams. The Company's management holds annual executive data incident tabletop exercises and the information security team holds more frequent technical tabletop exercises.

The Company leverages third-party security firms in different capacities to implement or operate various aspects of the Company's information assets and information security program, including to conduct risk assessments and penetration testing. The Company uses a variety of processes to address cybersecurity threats associated with third parties, including our use of third-party technology and services, such as conducting risk assessments and reviewing contractual requirements where the Company has determined it to be appropriate.

The Company (or the third parties on which it relies) may not be able to fully, continuously, and effectively implement security controls as intended. As described above, we utilize a risk-based approach and judgment to determine the security controls to implement and it is possible we may not implement sufficient controls if we do not recognize or underestimate a particular risk. In addition, security controls, no matter how well designed or implemented, may only partially mitigate and not fully eliminate risks. Events, when detected by security tools or third parties, may not always be immediately understood or acted upon.

Board Governance and Management

Cybersecurity risk is managed as an enterprise risk in the Company's enterprise risk management process. Responsibility for risk oversight and management generally lies with the Company's Board. To manage oversight of our cybersecurity risk management practices, since 2019 the Board has delegated such responsibility to the Company's Audit and Finance Committee. The Company's Chief Information Security Officer ("CISO") and the Information Security team provide reports to either the Audit and Finance Committee or the Board on a quarterly basis on various matters, such as current and emerging cybersecurity risks to the Company, risks and incidents that were escalated to management during the prior quarter (including those that did not require immediate escalation to the Audit and Finance Committee and/or full Board), internal and external assessments of the Company's information security program, and a roadmap of projects and major initiatives to manage its information security posture.

At the executive and management level, the CISO has primary responsibility for the architecture, implementation, and management of the Company's information security program. The CISO has approximately two decades of experience in technology risk management, including over a decade with the Company, and has passed examinations and received certifications as a SANS Global Information Security Leader and a Certified Information Systems Auditor. The CISO reports directly to the Company's Chief Digital and Technology Officer. The Company's Information Security team, under the direction of the CISO, implements and provides governance and functional oversight for cybersecurity controls and services. Information Security processes include escalation of certain risks and incidents, including those that originate or occur at third parties, to the CISO and the executive team as appropriate based on the severity or potential severity. In addition, regular updates from the Information Security team, in conjunction with real-time escalation on an as-needed basis, are also used to assess the risk landscape and adjust the Company's strategy and roadmap to address such risk.

Although the risks from cybersecurity threats have not materially affected our business strategy, results of operations, or financial condition to date, they may in the future and we continue to closely monitor cyber risk. See "[ITEM 1A. RISK FACTORS](#)" for additional information regarding the Company's cybersecurity risks and which should be read in conjunction with this Item 1C.

Item 2. Properties

The Company's global headquarters are located on a campus-like setting in New Albany, Ohio, which is owned by the Company. The Company's global headquarters also include Company-owned distribution centers that support distribution to all domestic stores and the majority of domestic digital orders. The Company also leases property for its regional headquarters located in London, United Kingdom and Shanghai, China. In addition, the Company owns or leases facilities both domestically and internationally to support the Company's operations, such as its distribution centers and various support centers.

The Company does not believe any individual regional headquarters, third-party distribution center or support center lease is material as, if necessary or desirable to relocate an operation, other suitable property could be found. These properties are utilized by both of the Company's operating segments and are currently suitable and adequate for conducting the Company's business.

As of February 1, 2025, the Company operated 789 retail stores across its brands. The Company does not believe that any individual store lease is material; however, certain geographic areas may have a higher concentration of store locations.

Item 3. Legal Proceedings

The Company and its affiliates are parties to lawsuits and other adversary proceedings that may range from individual actions involving a single plaintiff to class action lawsuits. The Company's legal costs incurred in connection with the resolution of claims and lawsuits are generally expensed as incurred, and the Company establishes estimated liabilities for the outcome of litigation where losses are deemed probable and the amount of loss, or range of loss, is reasonably estimable. The Company also determines estimates of reasonably possible losses or ranges of reasonably possible losses in excess of related accrued liabilities, if any, when it has determined that a loss is reasonably possible, and it is able to determine such estimates. For information regarding legal proceedings, see Note 18 "[CONTINGENCIES](#)" to the Consolidated Financial Statements included in this Annual report on Form 10-K. The Company's accrued charges for certain legal contingencies are classified within accrued expenses on the Consolidated Balance Sheets included in "[ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA](#)," of this Annual Report on Form 10-K. Based on currently available information, the Company cannot estimate a range of reasonably possible losses in excess of the accrued charges for legal contingencies. In addition, the Company has not established accruals for certain claims and legal proceedings pending against the Company where it is not possible to reasonably estimate the outcome or potential liability, and the Company cannot estimate a range of reasonably possible losses for these legal matters. Actual liabilities may differ from the amounts recorded, due to uncertainties regarding final settlement agreement negotiations and the terms of any approval by the courts, and there can be no assurance that the final resolution of legal matters will not have a material adverse effect on the Company's financial condition, results of operations, or cash flows. The Company's assessment of the current exposure could change in the event of the discovery of additional facts.

In addition, pursuant to Item 103(c)(3)(iii) of Regulation S-K under the Exchange Act, the Company is required to disclose certain information about environmental proceedings to which a governmental authority is a party if the Company reasonably believes such proceedings may result in monetary sanctions, exclusive of interest and costs, above a stated threshold. The Company has elected to apply a threshold of \$1 million for purposes of determining whether disclosure of any such proceedings is required.

Market Information and Holders

A&F’s Class A Common Stock, \$0.01 par value (“Common Stock”) is traded on the New York Stock Exchange under the symbol “ANF.” As of March 31, 2025, there were approximately 2,200 stockholders of record. However, when including investors holding shares of Common Stock in broker accounts under street name, A&F estimates that there were approximately 215,300 stockholders.

Performance Graph

The following graph shows the changes, over the five-year period ended February 1, 2025 (the last day of A&F’s Fiscal 2024) in the value of \$100 invested in (i) shares of Common Stock; (ii) Standard & Poor’s 500 Stock Index (the “S&P 500”); and (iii) Standard & Poor’s Apparel Retail Composite Index (the “S&P Apparel Retail”), including reinvestment of dividends. The plotted points represent the closing price on the last trading day of the fiscal year indicated.

Total	696,237	\$ 144.49	692,147	2,378,213

⁽¹⁾ An aggregate of 4,090 shares of A&F’s Common Stock purchased during the thirteen weeks ended February 1, 2025 were withheld for tax payments due upon the vesting of employee restricted stock units.

⁽²⁾ On November 23, 2021, we announced that the Board of Directors approved a \$500 million share repurchase authorization (the “2021 Authorization”).

⁽³⁾ The number shown represents, as of the end of each period, the approximate dollar value of Common Stock that may yet be purchased under A&F’s publicly announced stock repurchase authorization described in footnote 2 above. As described below, on March 5, 2025, the Company announced that the Board of Directors authorized the 2025 Authorization (defined below). The 2025 Authorization replaced the 2021 Authorization and shares may no longer be repurchased pursuant to the 2021 Authorization.

On March 5, 2025, the Company announced that the Board of Directors authorized a new \$1.3 billion share repurchase program (the “2025 Authorization”), which replaced the 2021 Authorization. The 2025 Authorization does not have an expiration date. Under the 2025 Authorization, the Company may repurchase shares from time to time in open market or private transactions in such manner as may be deemed advisable from time to time (including, without limitation, pursuant to accelerated share repurchase programs, one or more 10b5-1 trading plans, or any other method deemed advisable) and may be discontinued at any time. The timing and amount of any such repurchases will be determined based on an evaluation of market conditions, the Company’s share price, legal requirements, and other factors.

Item 6. [Reserved]

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following Management's Discussion and Analysis of Financial Condition and Results of Operations ("MD&A") generally discusses our results of operations for Fiscal 2024 and Fiscal 2023 and provides comparisons between such fiscal years. For discussion and comparison of Fiscal 2023 and Fiscal 2022, see "Management's Discussion and Analysis of Financial Condition and Results of Operations" in Part II, Item 7 of our Annual Report on Form 10-K for Fiscal 2023, filed with the SEC on April 1, 2024. This MD&A should be read together with the Company's audited Consolidated Financial Statements and notes thereto included in this Annual Report on Form 10-K in "[ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA](#)," to which all references to Notes in MD&A are made.

In prior periods, the Company included stores and distribution expense and marketing, general and administrative expense as individual expense categories on the Consolidated Statements of Operations and Comprehensive Income (Loss). Stores & distribution expense was recaptioned as selling expense, while marketing, general and administrative expense was recaptioned as general and administrative expense. In conjunction with these changes, all marketing expenses, including amounts previously presented in marketing, general and administrative expense, were moved into selling expense, while certain management and IT costs were moved out of stores and distribution expense and into general and administrative expense. The net changes associated with these reclassifications results in selling expense that is \$38.3 million and \$35.0 million lower than the stores and distribution expense that was previously presented for Fiscal 2023 and Fiscal 2022, respectively, and in general and administrative expense that is \$38.3 million and \$35.0 million higher than the marketing, general, and administrative expense that was previously presented for Fiscal 2023 and Fiscal 2022, respectively. Prior period amounts have been reclassified to conform to the current fiscal year's presentation.

INTRODUCTION

MD&A is provided as a supplement to the accompanying Consolidated Financial Statements and notes thereto to help provide an understanding of the Company's results of operations, financial condition, and liquidity. MD&A is organized as follows:

- [Overview](#). A general description of the Company's business and certain segment information, and an overview of key performance indicators reviewed by management in assessing the Company's results.
- [Current Trends and Outlook](#). A discussion of the Company's long-term plans for growth and a summary of the Company's performance over recent years, primarily Fiscal 2024 and Fiscal 2023.
- [Results of Operations](#). An analysis of certain components of the Company's Consolidated Statements of Operations and Comprehensive Income (Loss) for Fiscal 2024 as compared to Fiscal 2023.
- [Liquidity and Capital Resources](#). A discussion of the Company's financial condition, changes in financial condition and liquidity as of February 1, 2025, which includes (i) an analysis of changes in cash flows for Fiscal 2024 as compared to Fiscal 2023, (ii) an analysis of liquidity, including availability under the Company's credit facility, and outstanding debt and covenant compliance and (iii) a summary of contractual and other obligations as of February 1, 2025.
- [Recent Accounting Pronouncements](#). The recent accounting pronouncements the Company has adopted or is currently evaluating, including the dates of adoption or expected dates of adoption, as applicable, and anticipated effects on the Company's audited Consolidated Financial Statements, are included in Note 2 "[SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES](#)."
- [Critical Accounting Estimates](#). A discussion of the accounting estimates considered to be important to the Company's results of operations and financial condition, which typically require significant judgment and estimation on the part of the Company's management in their application.
- [Non-GAAP Financial Measures](#). MD&A provides a discussion of certain financial measures that have been determined to not be presented in accordance with accounting principles generally accepted in the U.S. ("GAAP"). This section includes certain reconciliations between GAAP and non-GAAP financial measures and additional details on non-GAAP financial measures, including information as to why the Company believes the non-GAAP financial measures provided within MD&A are useful to investors.

OVERVIEW

Business Summary

Abercrombie & Fitch Co. (“A&F”), a company incorporated in Delaware in 1996, through its subsidiaries (collectively, A&F and its subsidiaries are referred to as the “Company”), is a global, digitally-led, omnichannel retailer. The Company offers a broad assortment of apparel, personal care products and accessories for men, women and kids, which are sold primarily through its Company-owned stores and digital channels, as well as through various third-party arrangements.

The Company manages its business on a geographic basis, consisting of three reportable segments: Americas; Europe, the Middle East and Africa (“EMEA”); and Asia-Pacific (“APAC”). Corporate functions and other income and expenses are evaluated on a consolidated basis and are not allocated to the Company’s segments, and therefore are included as a reconciling item between segment and total operating income (loss).

The Company’s brand families includes Abercrombie brands and Hollister brands. These brands share a commitment to offering unique products of enduring quality and exceptional comfort that allow customers around the world to express their own individuality and style.

The Company’s fiscal year ends on the Saturday closest to January 31. This typically results in a fifty-two-week year, but occasionally gives rise to an additional week, resulting in a fifty-three-week year, as was the case in Fiscal 2023. All references herein to the Company’s fiscal years are as follows:

Fiscal year	Year ended/ ending	Number of weeks
Fiscal 2022	January 28, 2023	52
Fiscal 2023	February 3, 2024	53
Fiscal 2024	February 1, 2025	52
Fiscal 2025	January 31, 2026	52

Seasonality

Historically, the Company’s operations have been seasonal in nature and consist of two principal selling seasons: the spring season, which includes the first and second fiscal quarters (“Spring”) and the fall season, which includes the third and fourth fiscal quarters (“Fall”). Due to the seasonal nature of the retail apparel industry, the results of operations for any current period are not necessarily indicative of the results expected for the full fiscal year and the Company could have significant fluctuations in certain asset and liability accounts. The Company historically experiences its greatest sales activity during the Fall season due to back-to-school and holiday sales periods, respectively.

Key Performance Indicators

The following measurements are among the key performance indicators reviewed by the Company’s management in assessing the Company’s results:

- Net sales and comparable sales by region and brand;
- Cost of sales, exclusive of depreciation and amortization, as a percentage of net sales;
- Gross profit and gross profit rate;
- Selling expense as a percentage of net sales;
- General and administrative expense as a percentage of net sales;
- Operating income, including by region, and operating income as a percentage of net sales (“operating margin”);
- Earnings before interest, taxes, depreciation and amortization (“EBITDA”)
- Net income and net income attributable to A&F;
- Net income per diluted share attributable to A&F;
- Cash flow and liquidity measures, such as the Company’s working capital, operating cash flow, and free cash flow;
- Inventory metrics, such as inventory turnover;
- Return on invested capital and return on equity;
- Store metrics, such as net sales per gross square foot, and store four-wall operating margins;
- Digital and omnichannel metrics;
- Transactional metrics, such as traffic and conversion, performance across key product categories, average unit retail (“AUR”), average unit cost (“AUC”), average units per transaction and average transaction values, return rates, shrink; and
- Customer-centric metrics such as customer retention and acquisition, and certain metrics related to the loyalty programs.

While not all of these metrics are disclosed publicly by the Company due to the proprietary nature of the information, the Company discusses many of these metrics within this MD&A.

CURRENT TRENDS AND OUTLOOK

Focus Areas for Fiscal 2025

The Company introduced the Always Forward Plan in June of Fiscal 2022. The Always Forward Plan is anchored on our strategic growth principles, which are to:

- Execute focused growth plans;
- Accelerate an enterprise-wide digital revolution; and
- Operate with financial discipline

While the Company has significantly outperformed certain financial targets set forth in the Always Forward Plan, the growth principles continue to serve as a framework for the Company achieving sustainable and profitable growth and profitability.

The Company's strategic priorities continue to evolve based on changing consumer demands and new strategic opportunities, and management reviews and prioritizes investments and strategic focus areas to address such demands and opportunities.

Execute focused growth plans by:

- driving sales growth across regions and brand families primarily through marketing and store investments in our owned and operating channels, while pursuing new geographies and markets via franchise, wholesale and licensing partnerships;
- using our regionally relevant brand playbooks globally to align the brands' products, voices, and experiences with customers, both digitally and in-store; and
- using testing and chase strategies to deliver compelling assortments and product collections across genders.

Accelerate an enterprise-wide digital revolution to improve the customer and associate experience by:

- continuing to progress on our multi-year enterprise resource planning ("ERP") transformation and cloud migration journey; and
- investing in digital and technology to improve experiences across key parts of the customer journey while delivering a consistent omnichannel experience.

Operate with financial discipline by:

- using our agile inventory model and pricing strategies to position the Company to support customer demand throughout the year; and
- maintaining our durable balance sheet and consistent free cash flow profile, underpinned by our disciplined investment philosophy while balancing against macro environment impacts and efficiency efforts.

Current Macroeconomic Conditions

Macroeconomic conditions, such as a volatile interest rate environment, ongoing inflation, the geopolitical landscape, and foreign exchange rate fluctuations, continue to impact the global economy. In addition, recent changes in legislation and regulations, including enacted and proposed tariffs and other trade policies, have introduced additional uncertainty in the global economy. In periods of perceived or actual unfavorable economic conditions, consumers may reallocate available discretionary spending or determine that they have fewer funds available for discretionary spending, which may adversely impact demand for our products. In addition, freight costs have remained heightened since the start of the second quarter of Fiscal 2024, which we expect to continue through the first half of Fiscal 2025. Continued inflationary pressures could further impact expenses and have a long-term impact on the Company, as increasing costs may impact its ability to maintain satisfactory margins.

Global Events and Supply Chain Disruptions

As a global multi-brand omnichannel specialty retailer, with operations in North America, Europe, the Middle East, and Asia, among other regions, management is mindful of macroeconomic risks, global challenges and the changing global geopolitical environment. The global supply chain also continues to be negatively impacted by various factors, including disruptions in major maritime routes, port congestion, higher operational costs, and increased competition for supply chain availability due to uncertainty regarding tariffs and trade policy. The Company has taken certain mitigating actions in response to these disruptions, including increasing air freight usage where appropriate and prioritizing critical orders earlier to allow for longer lead times. Further mitigating actions may be needed, particularly if there is prolonged port congestion or transportation delays, and could result in higher freight costs in the near-term and beyond.

Management continues to monitor global events and assess the potential impacts that these and similar events may have on the business in future periods. Although management also develops and updates contingency plans to assist in mitigating potential impacts, it is possible that the Company's preparations for such events are not adequate to mitigate their impact, and that these events could further adversely affect its business and results of operations.

Global Store Network Modernization and Growth

The Company has a goal of finding the right size, right location and right economics for omni-enabled stores that cater to local customers. The Company continues to use data to inform its focus on aligning store square footage with digital penetration and the Company delivered new store experiences across brands during Fiscal 2024 and Fiscal 2023. Details related to these new store experiences follow:

Type of new store experience	Fiscal 2024	Fiscal 2023
New stores	65	35
Remodels	48	13
Right-sizes	12	9
Total	125	57

During Fiscal 2024, the Company opened 65 new stores, while closing 41 stores. This compares with 35 new stores and 32 closures during Fiscal 2023. Future closures could be completed through natural lease expirations, while certain other leases include early termination options that can be exercised under specific conditions. The Company may also elect to exit or modify other leases, and could incur charges related to these actions.

Additional details related to store count and gross square footage follow:

Pillar Two Model Rules

In 2021, the Organization for Economic Cooperation and Development ("OECD") released Pillar Two Global Anti-Base Erosion model rules ("Pillar Two Rules"), designed to ensure large corporations are taxed at a minimum rate of 15% in all countries of operation. Although the U.S. withdrew the U.S. from the OECD's global tax agreement in January 2025, other countries where the Company does business, including the U.K. and Germany, have enacted legislation implementing Pillar Two Rules, which are effective from January 1, 2024. The implementation of Pillar Two Rules in each jurisdiction in which the Company operates did not have a material impact on the Company's effective tax rate for Fiscal 2024, and the Company does not project a material impact on the effective tax rate for Fiscal 2025. The Company will continue to evaluate the impact as additional jurisdictions enact legislation and provide further guidance.

⁽¹⁾ Comparable sales are calculated on a constant currency basis. Refer to [“NON-GAAP FINANCIAL MEASURES”](#) for further details on the comparable sales calculation.

For Fiscal 2024, net sales increased 16%, as compared to Fiscal 2023. The increase was primarily attributable to a high-single-digit increase in AUR from lower promotional activity and category mix into higher ticket items. High-single-digit growth in unit volume also contributed to the increase in net sales, following increases in traffic and transactions in Company-owned and operated channels. Additionally, there was a headwind of approximately \$50 million due to the timing of sales volume based on the impact of the calendar shift in Fiscal 2024 as a result of the 53rd selling week in Fiscal 2023. The year-over-year increase in net sales reflects positive comparable sales of 17%, as compared to Fiscal 2023.

- Net sales growth in the Americas region of 17% on both a reported and comparable sales basis. The increase was attributable to a higher AUR from lower promotional activity and category mix into higher ticket items and direct channel unit volume growth from increased traffic and transactions in company owned and operated stores and digital channels.
- Net sales growth in the EMEA region of 12% and 16% on a reported and comparable sales basis, respectively. The increase was attributable to a higher AUR from lower promotional activity and category mix into higher ticket items and unit volume growth from increased traffic and transactions in company owned and operated stores and digital channels. Comparable sales growth percentage is higher than net sales growth percentage, as comparable sales exclude the net impact of store closures during the period and the effects of foreign currency, both of which had negative impacts on net sales growth.
- Net sales growth in the APAC region of 9% and 19% on a reported and comparable sales basis, respectively. Comparable sales growth percentage is higher than net sales growth percentage, as comparable sales exclude the net impact of store closures during the period and the effects of foreign currency, both of which had negative impacts on net sales growth.

The Company’s net sales by brand for Fiscal 2024 and Fiscal 2023 were as follows:

<i>(in thousands)</i>	Fiscal 2024	Fiscal 2023	\$ Change	% Change	Comparable Sales ⁽¹⁾
Abercrombie	\$ 2,556,434	\$ 2,201,686	\$ 354,748	16 %	15 %

Cost of Sales, Exclusive of Depreciation and Amortization

<i>(in thousands)</i>	Fiscal 2024		Fiscal 2023		BPS Change
	\$	% of Net Sales	\$	% of Net Sales	
Cost of sales, exclusive of depreciation and amortization	\$ 1,773,926	35.8 %	\$ 1,587,265	37.1 %	(130)

For Fiscal 2024, cost of sales, exclusive of depreciation and amortization, as a percentage of net sales decreased approximately 130 basis points as compared to Fiscal 2023. The percentage decrease was primarily attributable to cost of sales leverage from a higher AUR on reduced promotions, as well as a benefit in product costs, as certain raw material prices have declined. These benefits were partially offset by higher freight costs compared to Fiscal 2023.

Selling Expense

(in thousands)	Fiscal 2024		Fiscal 2023		BPS Change
		% of Net Sales		% of Net Sales	
Selling expense	\$ 1,689,988	34.2 %	\$ 1,533,438	35.8 %	(160)

For Fiscal 2024, selling expense increased by \$157 million compared to Fiscal 2023. Selling expense as a percentage of net sales, decreased 160 basis points as compared to Fiscal 2023. The decrease as a percent of net sales was primarily driven by expense leverage from higher net sales, including 190 basis points in stores expense, primarily relating to store occupancy and store employee compensation costs, and 10 basis points in distribution center and order fulfillment costs. The decrease as a percent of net sales was partially offset by an increase of 40 basis points in marketing expense, primarily due to media campaigns and content, as compared to Fiscal 2023.

General and Administrative Expense

		% of Net Sales		% of Net Sales	
General and administrative expense	\$ 750,485	15.2 %	\$ 681,176	15.9 %	(70)

For Fiscal 2024, general and administrative expense increased by \$69 million compared to Fiscal 2023. General and administrative expense, as a percentage of net sales decreased 70 basis points as compared to Fiscal 2023. The decrease in expense rate was primarily driven by expense leverage from higher net sales, including 100 basis points in employee compensation costs, partially offset by 40 basis points in information technology expense.

⁽¹⁾ Segment operating income as a percentage of net sales is calculated by attributing the segment's operating income with the respective net sales in the segment.

⁽²⁾ Refer to "[NON-GAAP FINANCIAL MEASURES](#)," for further details.

For Fiscal 2024, operating income increased by \$256 million or 370 basis points, as a percentage of net sales, as compared to Fiscal 2023.

- Operating income for the Americas increased \$270 million or 250 basis points as a percentage of region net sales as compared to Fiscal 2023. The increase as a percent of sales primarily relates to positive comparable sales of 17%, relating to higher unit volume, increased AUR on reduced promotions, and expense leverage relating to employee compensation costs and store occupancy expenses.
- Operating income for EMEA increased \$29 million or 30 basis points as a percentage of region net sales as compared to Fiscal 2023. The increase as a percent of sales primarily relates to positive comparable sales of 16%, relating to higher unit volume, increased AUR on reduced promotions, and expense leverage relating to employee compensation costs and store occupancy expenses.
- Operating (loss) for APAC increased \$(1) million or 0 basis points as a percentage of region net sales as compared to Fiscal 2023. The loss was impacted by marketing, occupancy, and general and administrative investments, which more than offset the expense leverage from comparable sales growth of 19%.

Interest (income) expense, net	\$ (27,857)	(0.6)	\$ 372	—	(60)

For Fiscal 2024, interest (income) expense, net, increased 60 basis points as compared to Fiscal 2023. The net increase was a result of lower interest expense in Fiscal 2024 compared to Fiscal 2023 as result of the repurchases of Senior Secured Notes in late Fiscal 2023 and Fiscal 2024 and redemption of the remaining outstanding balance on July 15, 2024. Additionally, interest income increased due to the increase in balance and rates received on time deposits and money market accounts as compared to Fiscal 2023.

The increase in income tax expense compared to Fiscal 2023 can be attributed to higher domestic income resulting from higher sales volume and higher AURs. The decrease in effective tax rate compared to Fiscal 2023 can be attributed to higher domestic income, a higher tax benefit recognized on vesting of share based compensation awards, and continued business improvement in the EMEA and APAC segments.

During Fiscal 2024, the Company did not recognize income tax benefits on \$53.8 million of pre-tax losses, primarily in Switzerland, resulting in adverse tax impacts of \$8.2 million. The primary driver relates to expense deleverage within the APAC and EMEA regions.

During Fiscal 2023, the Company did not recognize income tax benefits on \$103.0 million of pre-tax losses, primarily in Switzerland, resulting in adverse tax impacts of \$15.6 million. The primary driver relates to expense deleverage within the APAC and EMEA regions, although to a lesser extent than in Fiscal 2022.

Refer to Note 11, "[INCOME TAXES](#)," for further discussion on factors that impacted the effective tax rate in Fiscal 2024 and Fiscal 2023.

LIQUIDITY AND CAPITAL RESOURCES

Overview

The Company's capital allocation strategy and priorities are reviewed by A&F's Board of Directors quarterly considering both liquidity and valuation factors. The Company believes that it will have adequate liquidity to fund operating activities for the next twelve months. The Company monitors financing market conditions and may in the future determine whether and when to repurchase shares of its Common Stock. For a discussion of the Company's share repurchase activity, please see below under "[Share Repurchases](#)."

Primary Sources and Uses of Cash

The Company's business has two principal selling seasons: Spring and Fall. The Company generally experiences its greatest sales activity during the Fall season, due to the back-to-school and holiday sales periods. The Company relies on excess operating cash flows, which are largely generated in Fall, to fund operations throughout the fiscal year and to reinvest in the business to support future growth. The Company also has the ABL Facility available as a source of additional funding, which is described further below under "[Credit Facility](#)."

Over the next twelve months, the Company expects its primary cash requirements to be directed towards prioritizing investments in the business and continuing to fund operating activities, including the acquisition of inventory, and obligations related to compensation, marketing, data and technology, leases and any lease buyouts or modifications it may exercise, taxes and other operating activities. In addition, management continuously evaluates potential opportunities to strategically deploy excess cash and/or deleverage the balance sheet, in consideration on various factors, such as market and business conditions, and the Company's ability to accelerate investments in the business. Such opportunities may include, but are not limited to, share repurchases.

When evaluating opportunities for investments in the business, management considers alignment with initiatives that position the business for sustainable long-term growth that align with its strategic pillars as described within "[ITEM 1. BUSINESS - STRATEGY AND KEY BUSINESS PRIORITIES](#)." Examples of potential investment opportunities include, but are not limited to, new store experiences, and investments in the Company's digital and omnichannel initiatives. Historically, the Company has utilized free cash flow generated from operations to fund any discretionary capital expenditures, which have been prioritized towards new store experiences, as well as marketing, digital and omnichannel investments, information technology, and other projects. For Fiscal 2024, the Company used \$182.9 million towards capital expenditures, up from \$157.8 million of capital expenditures in Fiscal 2023. Total capital expenditures for Fiscal 2025 are expected to be approximately \$200 million.

Share Repurchases

In November 2021, A&F's Board of Directors approved a \$500 million share repurchase authorization (the "2021 Authorization"). During Fiscal 2024, the Company repurchased \$230 million, or 1.6 million shares, of its Common Stock pursuant to the 2021 Authorization. On March 5, 2025, the Company announced that A&F's Board of Directors approved a new \$1.3 billion share repurchase authorization program (the "2025 Authorization"). The 2025 Authorization has no expiration date. In addition, the 2025 Authorization replaced the 2021 Authorization, and shares may no longer be repurchased pursuant to the 2021 Authorization.

Historically, the Company has repurchased shares of its Common Stock from time to time, which repurchases are dependent on excess liquidity, market conditions, and business conditions, with the objectives of returning excess cash to shareholders and offsetting dilution from issuances of Common Stock associated with the vesting of restricted stock units. Shares may be repurchased in the open market or in private transactions in such manner as be deemed advisable from time to time (including, without limitation, pursuant to accelerated share repurchase programs, one or more trading plans established in accordance with Rule 10b5-1 of the Exchange Act, or any other method deemed advisable) and may be discontinued at any time. Refer to "[ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES](#)" of this Annual Report on Form 10-K for additional information regarding the Company's publicly announced share repurchase authorization programs.

[Senior Secured Notes](#)

On July 15, 2024 (the “Redemption Date”), Abercrombie & Fitch Management Co (“A&F Management”) redeemed all of its outstanding 8.75% Senior Secured Notes due in 2025 (the “Senior Secured Notes”), which had an aggregate principal amount of \$214 million, pursuant to the terms of the indenture governing the Senior Secured Notes, at a redemption price equal to 100% of the principal amount, plus accrued and unpaid interest to, but excluding, the Redemption Date. As of the Redemption Date, the Senior Secured Notes were no longer deemed outstanding and interest on the Senior Secured Notes ceased to accrue.

[Credit Facility](#)

On August 2, 2024, A&F, as parent and a guarantor, A&F Management, as lead borrower, and certain of A&F’s direct and indirect wholly-owned subsidiaries, as additional borrowers and guarantors, entered into the Second Amendment to the Amended and Restated Credit Agreement (the “Second Amendment”), together with the lenders party thereto and Wells Fargo Bank, National Association, as administrative agent for the lenders. The Second Amendment amended the Amended and Restated Credit Agreement, dated as of April 29, 2021 (the “ABL Credit Agreement”), to, among other things (as described in greater detail below), provide for a \$500 million senior secured asset-based revolving credit facility (the “ABL Facility”). The Company incurred customary fees and expenses in connection with the entry into the Second Amendment.

The Second Amendment amended the ABL Credit Agreement to, among other things:

- increase the aggregate commitments thereunder from \$400 million to \$500 million;
- establish a \$100 million sub-facility for the benefit of Abfico Netherlands Distribution B.V. (“Abfico”) and AFH Stores UK Limited (“AFH UK”) that is (i) secured by a first priority security interest in all assets (subject to specified exclusions) of each of Abfico and AFH UK, (ii) guaranteed by A&F and certain of its domestic direct and indirect wholly-owned subsidiaries, and (iii) subject to a borrowing base as described therein;
- extend the maturity date from April 29, 2026 to August 2, 2029;
- increase the letter of credit sub-limit from \$50 million to \$62.5 million;
- decrease the swing line availability from \$50 million to \$30 million;
- decrease the unused line fee from a variable rate of 25 basis points to 37.5 basis points to a flat rate of 25 basis points; and
- increase pricing of the interest rate margin applicable to borrowings as follows:
 - from 1.25% to 1.50% when average availability is greater than or equal to 50% of the Loan Cap (as defined in the Second Amendment); and
 - from 1.50% to 1.75% when average availability is less than 50% of the Loan Cap.

The Company did not have any borrowings outstanding under the ABL Facility as of February 1, 2025 or as of February 3, 2024.

Details regarding the remaining borrowing capacity under the ABL Facility as of February 1, 2025 follow:

<i>(in thousands)</i>	February 1, 2025

Less: Outstanding stand-by letters of credit	(423)
Borrowing capacity	499,577
Less: Minimum excess availability ⁽¹⁾	(50,000)
Borrowing capacity available	\$ 449,577

⁽¹⁾ Under the ABL Facility, the Company must maintain excess availability equal to the greater of 10% of the Loan Cap or \$36 million.

Refer to Note 12, “[BORROWINGS](#),” for additional information.

[Income Taxes](#)

The Company’s earnings and profits from its foreign subsidiaries could be repatriated to the U.S., without incurring additional federal income tax. The Company determined that the balance of the Company’s undistributed earnings and profits from its foreign subsidiaries as of February 2, 2019, are considered indefinitely reinvested outside of the U.S., and if these funds were to be repatriated to the U.S., the Company would expect to incur an insignificant amount of state income taxes and foreign withholding taxes. The Company accrues for both state income taxes and foreign withholding taxes with respect to earnings and profits earned after February 2, 2019, in such a manner that these funds may be repatriated without incurring additional tax expense. As of February 1, 2025, \$257.5 million of the Company’s \$772.7 million of cash and equivalents were held by foreign affiliates.

Refer to Note 11, “[INCOME TAXES](#),” for additional details regarding the impact certain events related to the Company’s income taxes had on the Company’s Consolidated Financial Statements.

Analysis of Cash Flows

The table below provides certain components of the Company's Consolidated Statements of Cash Flows for Fiscal 2024 and Fiscal 2023:

<i>(in thousands)</i>	Fiscal 2024	Fiscal 2023
Cash and equivalents, and restricted cash and equivalents, beginning of period	\$ 909,685	\$ 527,569
Net cash provided by operating activities	710,376	653,422
Net cash used for investing activities	(297,703)	(157,182)
Net cash used for financing activities	(534,877)	(111,201)
Effects of foreign currency exchange rate changes on cash	(7,086)	(2,923)
Net (decrease) increase in cash and equivalents, and restricted cash and equivalents	\$ (129,290)	\$ 382,116
Cash and equivalents, and restricted cash and equivalents, end of period	\$ 780,395	\$ 909,685

Operating activities - For Fiscal 2024, net cash provided by operating activities included increased cash receipts as a result of the 16% year-over-year increase in net sales as compared to net cash provided by operating activities in Fiscal 2023.

Investing activities - For Fiscal 2024, net cash used for investing activities was primarily attributable to capital expenditures of \$182.9 million, as well as the purchase of \$140 million in marketable securities and maturity of \$25 million in marketable securities as compared to net cash used for investing activities of \$157.8 million in Fiscal 2023, primarily attributable to capital expenditures.

Financing activities - For Fiscal 2024, net cash used for financing activities primarily consisted of the repurchase of approximately 1.6 million shares of Common Stock in the open market with a market value of approximately \$229.8 million, the repurchase of \$9.3 million in the open market and the complete redemption of \$214 million of outstanding Senior Secured Notes, and \$70.2 million related to shares of Common Stock withheld (repurchased) to cover tax withholdings upon vesting of share-based compensation awards. For Fiscal 2023, net cash used for financing activities primarily consisted of the purchase of \$76.5 million of outstanding Senior Secured Notes for \$78.0 million, as well as \$29.5 million related to shares of Common Stock withheld (repurchased) to cover tax withholdings upon vesting of share-based compensation awards.

Contractual Obligations

As of February 1, 2025, the Company's contractual obligations were as follows:

<i>(in thousands)</i>	Payments due by period				
	Total	Less than 1 year	1-3 years	3-5 years	More than 5 years
Operating lease obligations ⁽¹⁾	\$ 1,129,978	\$ 267,902	\$ 447,469	\$ 270,912	\$ 143,695

Other obligations ⁽³⁾	187,039	17,954	36,288	47,641	85,156
Total	\$ 1,673,897	\$ 560,681	\$ 557,190	\$ 326,014	\$ 230,012

⁽¹⁾ Operating lease obligations consist of the Company's future undiscounted operating lease payments. Operating lease obligations do not include variable payments related to both lease and nonlease components, such as contingent rent payments made by the Company based on performance, and payments related to taxes, insurance, and maintenance costs. Total variable lease cost was \$186.8 million in Fiscal 2024. Refer to Note 2, "[SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Leases](#)," and Note 8, "[LEASES](#)," for further discussion.

⁽²⁾ Purchase obligations primarily consist of non-cancelable purchase orders for merchandise to be delivered during Fiscal 2025 and commitments for fabric expected to be used during upcoming seasons. In addition, purchase obligations include agreements to purchase goods or services, including, but not limited to, information technology, digital and marketing contracts, as well as estimated obligations related to the Company's 13-year, 100% renewable energy supply agreement for its global home office and Company-owned distribution centers.

⁽³⁾ Other obligations consist of: estimated asset retirement obligations; known and scheduled payments related to the Company's deferred compensation and supplemental retirement plans; and minimum contractual obligations related to leases signed but not yet commenced, primarily related to the Company's stores. Refer to Note 8, "[LEASES](#)," and Note 16, "[SAVINGS AND RETIREMENT PLANS](#)," for further discussion.

Due to uncertainty as to the amounts and timing of future payments, tax related to uncertain tax positions, including accrued interest and penalties, of \$4.9 million as of February 1, 2025, is excluded from the contractual obligations table. Deferred taxes are also excluded in the contractual obligations table. For further discussion, refer to Note 11, "[INCOME TAXES](#)."

As of February 1, 2025, the Company had recorded \$4.4 million and \$42.0 million of obligations related to its deferred compensation and supplemental retirement plans in accrued expenses and other liabilities on the Consolidated Balance Sheet, respectively. Amounts payable with known payment dates of \$15.7 million have been classified in the contractual obligations table based on those scheduled payment dates. However, it is not reasonably practicable to estimate the timing and amounts for the remainder of these obligations; therefore, those amounts have been excluded in the contractual obligations table.

RECENT ACCOUNTING PRONOUNCEMENTS

The Company describes its significant accounting policies in Note 2, "[SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Recent accounting pronouncements](#)." The Company reviews recent accounting pronouncements on a quarterly basis and has excluded discussion of those not applicable to the Company and those that did not have, or are not expected to have, a material impact on the Company's consolidated financial statements.

CRITICAL ACCOUNTING ESTIMATES

The Company's discussion and analysis of its financial condition and results of operations are based upon the Company's consolidated financial statements, which have been prepared in accordance with GAAP. The preparation of these consolidated financial statements requires the Company to make estimates and assumptions that affect the reported amounts. Since actual results may differ from those estimates, the Company revises its estimates and assumptions as new information becomes available. Note 2, "[SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES](#)," describes the significant accounting policies and methods used in the preparation of the Company's consolidated financial statements. The estimates and assumptions discussed below include those that the Company believes are the most critical to the portrayal of the Company's financial condition and results of operations.

Policy	Effect if Actual Results Differ from Assumptions
<p>Inventory Valuation</p> <p>The Company reviews inventories on a quarterly basis. The Company reduces the inventory valuation when the carrying cost of specific inventory items on hand exceeds the amount expected to be realized from the ultimate sale or disposal of the goods, through a lower of cost and net realizable value ("LCNRV") adjustment.</p> <p>The LCNRV adjustment reduces inventory to its net realizable value based on the Company's consideration of multiple factors and assumptions, expected sell-off activity, composition and aging of inventory, historical recoverability experience and risk of obsolescence from changes in economic conditions or customer preferences.</p>	<p>The Company does not expect material changes to the underlying assumptions used to measure the LCNRV estimate as of February 1, 2025. However, actual results could vary from estimates and could significantly impact the ending inventory valuation at cost, as well as gross profit.</p> <p>An increase or decrease in the LCNRV adjustment of 10% would have affected pre-tax income by approximately \$2.9 million for Fiscal 2024.</p>
<p>Income Taxes</p> <p>The provision for income taxes is determined using the asset and liability approach. Tax laws often require items to be included in tax filings at different times than the items are being reflected in the financial statements. A current liability is recognized for the estimated taxes payable for the current year. Deferred taxes represent the future tax consequences expected to occur when the reported amounts of assets and liabilities are recovered or paid. Deferred taxes are adjusted for enacted changes in tax rates and tax laws. Valuation allowances are recorded to reduce deferred tax assets when it is more likely than not that a tax benefit will not be realized.</p>	<p>The Company does not expect material changes in the judgments, assumptions or interpretations used to calculate the tax provision for Fiscal 2025. However, changes in these judgments, assumptions or interpretations may occur, and should those changes be significant, they could have a material impact on the Company's income tax provision. As of the end of Fiscal 2024, the Company had recorded valuation allowances of \$151.8 million, of which \$147.9 million relates to Switzerland.</p>
<p>Long-lived Assets</p> <p>Long-lived assets, primarily operating lease right-of-use assets, leasehold improvements, furniture, fixtures and equipment, are tested for recoverability whenever events or changes in circumstances indicate that the carrying amount of the long-lived asset group might not be recoverable. These include, but are not limited to, material declines in operational performance, a history of losses, an expectation of future losses, adverse market conditions and store closure or relocation decisions. On at least a quarterly basis, the Company reviews for indicators of impairment at the individual store level, the lowest level for which cash flows are identifiable.</p> <p>Stores that display an indicator of impairment are subjected to an impairment assessment. The Company's impairment assessment requires management to make assumptions and judgments related, but not limited, to management's expectations for future operations and projected cash flows. The key assumption used in the Company's undiscounted future store cash flow models is estimated sales growth rate.</p> <p>An impairment loss may be recognized when these undiscounted future cash flows are less than the carrying amount of the asset group. In the circumstance of impairment, any loss would be measured as the excess of the carrying amount of the asset group over its fair value. Fair value of the Company's store-related assets is determined at the individual store level based on the highest and best use of the asset group. The key assumptions used in the Company's fair value analysis is comparable market rents.</p>	<p>Store assets that were tested for impairment as of February 1, 2025 and not impaired, had long-lived assets with a net book value of \$8.8 million, which included \$8.1 million of operating lease right-of-use assets as of February 1, 2025.</p> <p>Store assets that were previously impaired as of February 1, 2025, had a remaining net book value of \$77.6 million, which included \$68.8 million of operating lease right-of-use assets, as of February 1, 2025.</p> <p>If actual results are not consistent with the estimates and assumptions used in assessing impairment or measuring impairment losses, there may be a material impact on the Company's financial condition or results of operation.</p>

NON-GAAP FINANCIAL MEASURES

This Annual Report on Form 10-K includes discussion of certain financial measures on both a GAAP and a non-GAAP basis. The Company believes that each of the non-GAAP financial measures presented in this “[ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS](#)” is useful to investors as it provides a meaningful basis to evaluate the Company's operating performance excluding the effect of certain items that the Company believes do not reflect its future operating outlook, such as certain asset impairment charges, therefore supplementing investors' understanding of comparability of operations across periods. Management used these non-GAAP financial measures during the periods presented to assess the Company's performance and to develop expectations for future operating performance. These non-GAAP financial measures should be used as a supplement to, and not as an alternative to, the Company's GAAP financial results, and may not be calculated in the same manner as similar measures presented by other companies.

Comparable sales

At times, the Company provides comparable sales, defined as the year-over-year percentage change in the aggregate of (1) sales for stores that have been open as the same brand at least one year and whose square footage has not been expanded or reduced by more than 20% within the past year, with the prior fiscal year's net sales converted at the current fiscal year's foreign currency exchange rates to remove the impact of foreign currency exchange rate fluctuations, and (2) digital sales with the prior fiscal year's net sales converted at the current fiscal year's foreign currency exchange rates to remove the impact of foreign currency exchange rate fluctuations. Comparable sales exclude revenue other than store and digital sales. Management uses comparable sales to understand the drivers of year-over-year changes in net sales and believes comparable sales can be a useful metric as it can assist investors in distinguishing the portion of the Company's revenue attributable to existing locations from the portion attributable to the opening or closing of stores. The most directly comparable GAAP financial measure is change in net sales.

Excluded Items

The following financial measures are disclosed on a GAAP basis and on an adjusted non-GAAP basis excluding the following items, as applicable:

<u>Financial measures ⁽¹⁾</u>	<u>Excluded items</u>
Asset impairment	Certain asset impairment charges
Operating income	Certain asset impairment charges
Income tax expense ⁽²⁾	Tax effect of pre-tax excluded items
Net income and net income per share attributable to A&F ⁽²⁾	Pre-tax excluded items and the tax effect of pre-tax excluded items

⁽¹⁾ Certain of these financial measures are also expressed as a percentage of net sales.

⁽²⁾ The tax effect of excluded items is the difference between the tax provision calculation on a GAAP basis and on an adjusted non-GAAP basis.

Financial Information on a Constant Currency Basis

The Company provides certain financial information on a constant currency basis to enhance investors' understanding of underlying business trends and operating performance by removing the impact of foreign currency exchange rate fluctuations. Management also uses financial information on a constant currency basis to award employee performance-based compensation. The effect from foreign currency exchange rates, calculated on a constant currency basis, is determined by applying the current period's foreign currency exchange rates to the prior fiscal year's results and is net of the year-over-year impact from hedging. The per diluted share effect from foreign currency exchange rates is calculated using a 26% effective tax rate.

A reconciliation of financial metrics on a constant currency basis to GAAP for Fiscal 2024 and Fiscal 2023 is as follows:

(in thousands, except change in net sales, operating margin and per share data)

	Fiscal 2024	Fiscal 2023	% Change
Net sales			
GAAP	\$ 4,948,587	\$ 4,280,677	16%

Impact from changes in foreign currency exchange rates	—	0.05	(0.05)
Adjusted non-GAAP on a constant currency basis	\$ 10.69	\$ 6.33	\$4.36

⁽¹⁾ The estimated basis point change has been rounded based on the percentage of net sales change.

⁽²⁾ Refer to "[RESULTS OF OPERATIONS](#)," for details on excluded items. The tax effect of excluded items is calculated as the difference between the tax provision on a GAAP basis and an adjusted non-GAAP basis.

EBITDA and Adjusted EBITDA

The Company provides EBITDA and Adjusted EBITDA as supplemental measures used by the Company's executive management to assess the Company's performance. We also believe that these supplemental performance measures are meaningful information for investors and other interested parties to use in computing the Company's core financial performance over multiple periods and with other companies by excluding the impact of differences in tax jurisdictions, debt service levels and capital investment.

Reconciliations of non-GAAP EBITDA and Adjusted EBITDA to financial measures calculated and presented in accordance with GAAP for Fiscal 2024 and Fiscal 2023 were as follows:

	Fiscal 2024		Fiscal 2023	
(in thousands, except ratios)		% of Net Sales		% of Net Sales
Net income	\$ 574,016	11.6 %	\$ 335,413	7.8 %
Income tax expense	194,661	3.9	148,886	3.5
Interest (income) expense, net	(27,857)	(0.6)	372	—
Depreciation and amortization	153,773	3.2	141,104	3.3
EBITDA ⁽¹⁾	\$ 894,593	18.1	\$ 625,775	14.6
Adjustments to EBITDA				
Asset impairment ⁽¹⁾	—	—	4,436	0.1
Adjusted EBITDA ⁽¹⁾	\$ 894,593	18.1	\$ 630,211	14.7

⁽¹⁾ EBITDA and Adjusted EBITDA are supplemental financial measures that are not defined or prepared in accordance with GAAP. EBITDA is defined as net income before interest, income taxes and depreciation and amortization. Adjusted EBITDA is EBITDA adjusted for asset impairment.

Item 7A. Quantitative and Qualitative Disclosures About Market Risk

INVESTMENT SECURITIES

The Company maintains its cash equivalents in financial instruments, primarily time deposits and money market funds, with original maturities of three months or less. Recently, the Company invested in short-term marketable securities with maturities less than twelve months. Due to the short-term nature of these instruments, changes in interest rates are not expected to materially affect the fair value of these financial instruments.

Refer to Note 5, "[INVESTMENTS](#)," of the Notes to Consolidated Financial Statements included in "[ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA](#)" of this Annual Report on Form 10-K for a discussion of the Company's Rabbi Trust assets.

INTEREST RATE RISK

Prior to July 2, 2020, the Company's exposure to market risk due to changes in interest rates related primarily to the increase or decrease in the amount of interest expense from fluctuations in the LIBO rate, or an alternate base rate associated with the Company's former term loan facility (the "Term Loan Facility") and the ABL Facility. On July 2, 2020, the Company issued the Senior Secured Notes and repaid all outstanding borrowings under the Term Loan Facility and the ABL Facility, thereby eliminating any then-existing cash flow market risk due to changes in interest rates. On July 15, 2024, the Company redeemed all of its outstanding Senior Secured Notes, thereby eliminating that interest rate risk. This analysis for Fiscal 2025 may differ from actual results due to potential changes in gross borrowings outstanding under the ABL Facility and potential changes in interest rate terms and limitations described within the ABL Credit Agreement.

In July 2017, the Financial Conduct Authority (the authority that regulates LIBO rate) announced it intended to stop compelling banks to submit rates for the calculation of LIBO rate after 2021. Certain publications of the LIBO rate were phased out at the end of 2021 and all LIBO rate publications ceased after June 30, 2023. On March 15, 2023, the Company entered into the First Amendment to the Amended and Restated Credit Agreement to eliminate LIBO rate-based loans and to use the current market definitions with respect to the Secured Overnight Financing Rate, as well as to make other conforming changes.

FOREIGN CURRENCY EXCHANGE RATE RISK

A&F's international subsidiaries generally operate with functional currencies other than the U.S. Dollar. Since the Company's Consolidated Financial Statements are presented in U.S. dollars, the Company must translate all components of these financial statements from functional currencies into U.S. dollars at exchange rates in effect during or at the end of the reporting period. The fluctuation in the value of the U.S. dollar against other currencies affects the reported amounts of revenues, expenses, assets and liabilities. The potential impact of foreign currency exchange rate fluctuations increases as international operations relative to domestic operations increase.

A&F and its subsidiaries have exposure to changes in foreign currency exchange rates associated with foreign currency transactions and forecasted foreign currency transactions, including the purchase of inventory between subsidiaries and foreign-currency-denominated assets and liabilities. The Company has established a program that primarily utilizes foreign currency exchange forward contracts to partially offset the risks associated with the effects of certain foreign currency transactions and forecasted transactions. Under this program, increases or decreases in foreign currency exchange rate exposures are partially offset by gains or losses on foreign currency exchange forward contracts, to mitigate the impact of foreign currency exchange gains or losses. The Company does not use forward contracts to engage in currency speculation. Outstanding foreign currency exchange forward contracts are recorded at fair value at the end of each fiscal period.

Foreign currency exchange forward contracts are sensitive to changes in foreign currency exchange rates. The Company assessed the risk of loss in fair values from the effect of a hypothetical 10% devaluation of the U.S. dollar against the exchange rates for foreign currencies under forward contracts. Such a hypothetical devaluation would decrease derivative instrument fair values by approximately \$17.2 million. As the Company's foreign currency exchange forward contracts are primarily designated as cash flow hedges of forecasted transactions, the hypothetical change in fair values would be expected to be largely offset by the net change in fair values of the underlying hedged items. Refer to Note 14, "[DERIVATIVE INSTRUMENTS](#)," included in "[ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA](#)" of this Annual Report on Form 10-K for the fair value of outstanding foreign currency exchange forward contracts included in other current assets and accrued expenses as of February 1, 2025 and February 3, 2024.

For a detailed discussion of material risk factors that have the potential to cause our actual results to differ materially from our expectations, refer to "[ITEM 1A. RISK FACTORS](#)," included in this Annual Report on Form 10-K.

Abercrombie & Fitch Co.
Notes to Consolidated Financial Statements

1. NATURE OF BUSINESS

Abercrombie & Fitch Co. (“A&F”), a company incorporated in Delaware in 1996, through its subsidiaries (collectively, A&F and its subsidiaries are referred to as the “Company”), is a global, digitally-led, omnichannel retailer. The Company offers a broad assortment of apparel, personal care products and accessories for men, women and kids, which are sold primarily through its Company-owned stores and digital channels, as well as through various third-party arrangements.

The Company manages its business on a geographic basis, consisting of three reportable segments: Americas; Europe, the Middle East and Africa (“EMEA”); and Asia-Pacific (“APAC”). Corporate functions and other income and expenses are evaluated on a consolidated basis and are not allocated to the Company’s segments, and therefore are included as a reconciling item between segment and total operating income (loss).

The Company’s brand families include Abercrombie brands and Hollister brands. These brands share a commitment to offering unique products of enduring quality and exceptional comfort that allow customers around the world to express their own individuality and style.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Principles of Consolidation

The accompanying Consolidated Financial Statements include historical financial statements of, and transactions applicable to, the Company and reflect its financial position, results of operations and cash flows.

The Company has interests in an Emirati business venture and in a Kuwaiti business venture with Majid al Futtaim Lifestyle L.L.C. (“MAF”), each of which meets the definition of a variable interest entity (“VIE”). The purpose of the business ventures with MAF is to operate stores in the United Arab Emirates and Kuwait. The Company is deemed to be the primary beneficiary of these VIEs; therefore, the Company has consolidated the operating results, assets and liabilities of these VIEs, with the noncontrolling interests’ (“NCI”) portions of net income presented as net income attributable to NCI on the Consolidated Statements of Operations and Comprehensive Income (Loss) and the NCI portion of stockholders equity presented as NCI on the Consolidated Balance Sheets.

Fiscal Year

The Company’s fiscal year ends on the Saturday closest to January 31. This typically results in a fifty-two week year, but occasionally gives rise to an additional week, resulting in a fifty-three week year, as was the case in Fiscal 2023. Fiscal years are designated in the Consolidated Financial Statements and notes by the calendar year in which the fiscal year commences. All references herein to the Company’s fiscal years are as follows:

Fiscal year	Year ended/ ending	Number of weeks
Fiscal 2021	January 29, 2022	52
Fiscal 2022	January 28, 2023	52
Fiscal 2023	February 3, 2024	53
Fiscal 2024	February 1, 2025	52
Fiscal 2025	January 31, 2026	52

Use of Estimates

The preparation of financial statements, in conformity with U.S. generally accepted accounting principles (“GAAP”), requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of net sales and expenses during the reporting period. Due to the inherent uncertainty involved with estimates, actual results may differ. Additionally, these estimates and assumptions may change as a result of the impact of global economic conditions such as the uncertainty regarding a slowing economy, volatile interest rates, continued inflation, fluctuation in foreign exchange rates, and geopolitical concerns, all of which could result in material impacts to the Company’s consolidated financial statements in future reporting periods.

Reclassifications

In prior periods, the Company included stores and distribution expense and marketing, general and administrative expense as individual expense categories on the Consolidated Statements of Operations and Comprehensive Income (Loss). Stores & distribution expense was recaptured as selling expense, while marketing, general and administrative expense was recaptured as general and administrative expense. In conjunction with these changes, all marketing expenses, including amounts previously presented in marketing, general and administrative expense, were moved into selling expense, while certain management and IT costs were moved out of stores and distribution expense and into general and administrative expense. The net changes associated with these reclassifications results in selling expense that is \$38.3 million and \$35.0 million lower than the stores and distribution expense that was previously presented for Fiscal 2023 and Fiscal 2022, respectively, and in general and administrative expense that is \$38.3 million and \$35.0 million higher than the marketing, general, and administrative expense that was previously presented for Fiscal 2023 and Fiscal 2022, respectively. Refer to [selling expense](#) and [general and administrative expense](#) below for details regarding the composition of these expenses categories. There were no changes to operating income (loss) or net income (loss). Prior period amounts have been reclassified to conform to the current fiscal year's presentation.

Cash and Equivalents

A summary of cash and equivalents on the Consolidated Balance Sheets follows:

<i>(in thousands)</i>	February 1, 2025	February 3, 2024
Cash ⁽¹⁾	\$ 467,642	\$ 524,735
Cash equivalents: ⁽²⁾		
Time deposits	1,013	26,975
Money market funds	304,072	349,174
Cash and equivalents	<u>\$ 772,727</u>	<u>\$ 900,884</u>

⁽¹⁾ Primarily consists of amounts on deposit with financial institutions.

⁽²⁾ Investments with original maturities of less than three months.

Consolidated Statements of Cash Flows Reconciliation

The following table provides a reconciliation of cash and equivalents and restricted cash and equivalents to the amounts shown on the Consolidated Statements of Cash Flows:

<i>(in thousands)</i>	Location	February 1, 2025	February 3, 2024	January 28, 2023
Cash and equivalents	Cash and equivalents	\$ 772,727	\$ 900,884	\$ 517,602
Restricted cash and equivalents ⁽¹⁾	Other assets	7,668	8,801	9,967
Cash and equivalents and restricted cash and equivalents		<u>\$ 780,395</u>	<u>\$ 909,685</u>	<u>\$ 527,569</u>

⁽¹⁾ Restricted cash and equivalents primarily consist of amounts on deposit with banks that are used as collateral for customary non-debt banking commitments and deposits into trust accounts to conform to standard insurance security requirements.

Marketable securities

Marketable securities that the Company has the positive intent and ability to hold to maturity are classified as held-to-maturity securities and recorded at amortized cost. Marketable securities consist of short-term investments of time deposits with original maturities greater than three months and with maturities within one year as of balance sheet date. Interest income is recognized when earned. Cash inflows and outflows related to the sale and purchase of marketable securities are classified as investing activities on the Consolidated Statements of Cash Flows.

Refer to Note 5, "[INVESTMENTS](#)."

Receivables

Receivables on the Consolidated Balance Sheets primarily include credit card receivables, lessor construction allowance and lease incentive receivables, value added tax ("VAT") receivables and trade receivables or refunds.

As part of the normal course of business, the Company has approximately three to four days of proceeds from sales transactions outstanding with its third-party credit card vendors at any point. The Company classifies these outstanding balances as credit card receivables. Lessor construction allowances are recorded for certain store lease agreements for improvements completed by the Company. VAT receivables are payments the Company has made on purchases of goods that will be recovered as those goods are sold. Trade receivables are amounts billed by the Company to wholesale, franchise and licensing partners in the ordinary course of business. Income tax receivables represent refunds of certain tax payments along with net operating loss and credit carryback claims for which the Company expects to receive refunds within the next 12 months.

Inventories

Inventories on the Consolidated Balance Sheets are valued at the lower of cost and net realizable value on a weighted-average cost basis. The Company reduces the carrying value of inventory through a lower of cost and net realizable value adjustment, the impact of which is reflected in cost of sales, exclusive of depreciation and amortization, on the Consolidated Statements of Operations and Comprehensive Income (Loss). The lower of cost and net realizable value adjustment is based on the Company's consideration of multiple factors and assumptions including demand forecasts, current sales volumes, expected sell-off activity, composition and aging of inventory, historical recoverability experience and risk of obsolescence from changes in economic conditions or customer preferences.

Additionally, as part of inventory valuation, inventory shrinkage estimates based on historical trends from actual physical inventories are made each quarter that reduce the inventory value for lost or stolen items. The Company performs physical inventories on a periodic basis and adjusts the gross inventory balance and shrink estimate accordingly. Refer to Note 6, "[INVENTORIES](#)."

The Company's global sourcing of merchandise is generally negotiated, contracted, and settled in U.S. Dollars.

Other Current Assets

Other current assets on the Consolidated Balance Sheets consist of: prepaid expenses including those related to rent, information technology maintenance and taxes; current store supplies; derivative contracts and other.

Property and Equipment, Net

Depreciation of property and equipment is computed for financial reporting purposes on a straight-line basis using the following service lives:

Category of property and equipment	Service lives
Information technology	3 - 7 years
Furniture, fixtures and equipment	3 - 10 years
Leasehold improvements	1 - 15 years
Other property and equipment	5 years
Buildings	30 years

Leasehold improvements are amortized over either their respective lease terms or their service lives, whichever is shorter. The cost of assets sold or retired and the related accumulated depreciation are removed from the accounts with any resulting gain or loss included in net income on the Consolidated Statements of Operations and Comprehensive Income (Loss). Maintenance and repairs are charged to expense as incurred. Major remodels and improvements that extend the service lives of the related assets are capitalized.

The Company capitalizes certain direct costs associated with the development and purchase of internal-use software within property and equipment and other assets. Capitalized costs are amortized on a straight-line basis over the estimated useful lives of the software, generally not exceeding seven years.

Refer to Note 7, "[PROPERTY AND EQUIPMENT, NET](#)."

Leases

The Company determines if an arrangement is an operating lease at inception. For new operating leases, the Company recognizes an asset for the right to use a leased asset and a liability based on the present value of remaining lease payments over the lease term on the lease commencement date. The commencement date for new leases is when the lessor makes the leased asset available for use by the Company, typically the possession date.

As the rates implicit in the Company's leases are not readily determinable, the Company uses its incremental borrowing rate, based on the local economic environment and the duration of the lease term, for the initial measurement of the operating lease right-of-use asset and liability.

The measurement of operating lease right-of-use assets and liabilities includes amounts related to:

- Lease payments made prior to the lease commencement date;
- Incentives from landlords received by the Company for signing a lease, including construction allowances or deferred lease credits paid to the Company by landlords towards construction and tenant improvement costs, which are presented as a reduction to the right-of-use asset recorded;
- Fixed payments related to operating lease components, such as rent escalation payments scheduled at the lease commencement date;
- Fixed payments related to nonlease components, such as taxes, insurance, and maintenance costs; and
- Unamortized initial direct costs incurred in conjunction with securing a lease, including key money, which are amounts paid directly to a landlord in exchange for securing the lease, and leasehold acquisition costs, which are amounts paid to parties other than the landlord, such as an existing tenant, to secure the desired lease.

The measurement of operating lease right-of-use assets and liabilities excludes amounts related to:

- Costs expected to be incurred to return a leased asset to its original condition, also referred to as asset retirement obligations, which are classified within other liabilities on the Consolidated Balance Sheets;
- Variable payments related to operating lease components, such as contingent rent payments made by the Company based on performance, the expense of which is recognized in the period incurred on the Consolidated Statements of Operations and Comprehensive Income (Loss);
- Variable payments related to nonlease components, such as taxes, insurance, and maintenance costs, the expense of which is recognized in the period incurred in the Consolidated Statements of Operations and Comprehensive Income (Loss); and
- Leases not related to Company-operated retail stores with an initial term of 12 months or less, the expense of which is recognized in the period incurred in the Consolidated Statements of Operations and Comprehensive Income (Loss).

Certain of the Company's operating leases include options to extend the lease or to terminate the lease. The Company assesses these operating leases and, depending on the facts and circumstances, may or may not include these options in the measurement of the Company's operating lease right-of-use assets and liabilities. Generally, the Company's options to extend its operating leases are at the Company's sole discretion and at the time of lease commencement are not reasonably certain of being exercised. There may be instances in which a lease is being renewed on a month-to-month basis and, in these instances, the Company will recognize lease expense in the period incurred in the Consolidated Statements of Operations and Comprehensive Income (Loss) until a new agreement has been executed. Upon the signing of the renewal agreement, the Company recognizes an asset for the right to use the leased asset and a liability based on the present value of remaining lease payments over the lease term.

Amortization and interest expense related to operating lease right-of-use assets and liabilities are generally calculated on a straight-line basis over the lease term. Amortization and interest expense related to previously impaired operating lease right-of-use assets are calculated on a front-loaded pattern. Depending on the nature of the operating lease, amortization and interest expense are primarily recorded within selling expense, or general and administrative expense, on the Consolidated Statements of Operations and Comprehensive Income (Loss).

The Company's operating lease agreements do not contain any material residual value guarantees or material restrictive covenants. In addition, the Company does not have any sublease arrangements with any related party.

Refer to Note 8, "[LEASES](#)."

Long-lived Asset Impairment

For the purposes of asset impairment, the Company's long-lived assets, primarily operating lease right-of-use assets, leasehold improvements, furniture, fixtures and equipment, are grouped with other assets and liabilities at the store level, which is the lowest level for which identifiable cash flows are largely independent of the cash flows of other assets and liabilities. On at least a quarterly basis, management reviews the Company's asset groups for indicators of impairment, which include, but are not limited to, material declines in operational performance, a history of losses, an expectation of future losses, adverse market conditions, store closure or relocation decisions, and any other events or changes in circumstances that would indicate the carrying amount of an asset group might not be recoverable.

If an asset group displays an indicator of impairment, it is tested for recoverability by comparing the sum of the estimated future undiscounted cash flows attributable to the asset group to the carrying amount of the asset group. This recoverability test requires management to make assumptions and judgments related, but not limited, to management's expectations for future cash flows from operating the store. The key assumption used in developing these projected cash flows used in the recoverability test is estimated sales growth rate.

If the sum of the estimated future undiscounted cash flows attributable to an asset group is less than its carrying amount, and it is determined that the carrying amount of the asset group is not recoverable, management determines if there is an impairment loss by comparing the carrying amount of the asset group to its fair value. Fair value of an asset group measured on a non-recurring basis is based on the highest and best use of the asset group, often using a discounted cash flow model that utilizes Level 3 fair value inputs. The key assumptions used in the Company's fair value analyses are estimated sales growth rate and comparable market rents. An impairment loss is recognized based on the excess of the carrying amount of the asset group over its fair value.

Refer to Note 9, "[ASSET IMPAIRMENT](#)."

Other Assets

Other assets on the Consolidated Balance Sheets consist primarily of the Company's trust-owned life insurance policies held in the irrevocable rabbi trust (the "Rabbi Trust"), deferred tax assets, long-term deposits, intellectual property, long-term restricted cash and equivalents, long-term supplies, certain costs incurred to develop internal-use computer software during the application development stage and various other assets.

The Company defers costs incurred with the implementation of a cloud computing arrangement ("CCA") that is a service contract. The deferred implementation costs of cloud computing arrangements are amortized on a straight-line basis over the term of the cloud computing arrangement, generally ranging from 1 to 5 years, in general and administrative expenses on Consolidated Statements of Operations and Comprehensive Income (Loss). The eligible implementation costs incurred of a cloud computing arrangement are included in other assets on the Consolidated Balance Sheets, and in operating cash flows of the Consolidated statements of cash flows. The deferred CCA implementation costs were \$73.3 million and \$49.9 million, net of accumulated amortization of \$25.5 million and \$12.2 million for the years ended February 1, 2025 and February 3, 2024, respectively.

The Rabbi Trust includes amounts, restricted in their use, to meet funding obligations to participants in the Abercrombie & Fitch Co. Nonqualified Savings and Supplemental Retirement Plan I, the Abercrombie & Fitch Co. Nonqualified Savings and Supplemental Retirement Plan II and the Supplemental Executive Retirement Plan. The Rabbi Trust assets primarily consist of trust-owned life insurance policies which are recorded at cash surrender value and are included in other assets on the Consolidated Balance Sheets. The change in cash surrender value of the life insurance policies in the Rabbi Trust is recorded in interest expense, net on the Consolidated Statements of Operations and Comprehensive Income (Loss).

Refer to Note 5, "[INVESTMENTS](#)."

Intellectual Property

Intellectual property primarily includes trademark assets associated with the Company's international operations, consisting of finite-lived and indefinite-lived intangible assets. The Company's finite-lived intangible assets are amortized over a useful life of 10 to 20 years.

Supply Chain Finance Program

Under the supply chain finance ("SCF") program, which is administered by a third party, the Company's vendors, at their sole discretion, are given the opportunity to sell receivables from the Company to a participating financial institution at a discount that leverages the Company's credit profile. The commercial terms negotiated by the Company with its vendors are consistent, irrespective of whether a vendor participates in the SCF program. A participating vendor has the option to be paid by the financial institution earlier than the original invoice due date. The Company's responsibility is limited to making payment on the terms originally negotiated by the Company with each vendor, regardless of whether the vendor sells its receivable to a financial institution. If a vendor chooses to participate in the SCF program, the Company pays the financial institution the stated amount of confirmed merchandise invoices on the stated maturity date, which is typically 75 days from the invoice date. The agreement with the financial institution does not require the Company to provide assets pledged as security or other forms of guarantees for the SCF program.

As of February 1, 2025 and February 3, 2024, \$88.4 million and \$72.4 million of SCF program liabilities were recorded in accounts payable in the Consolidated Balance Sheets, respectively, and reflected as a cash flow from operating activities in the Consolidated Statements of Cash Flows when settled.

The following table provides activity in the SCF program for Fiscal 2024:

<i>(in thousands)</i>	Fiscal 2024
Confirmed obligations outstanding at the beginning of the period	\$ 72,376
Invoices confirmed during the period	440,125
Confirmed invoices paid during the period	(424,112)
Confirmed obligations outstanding at the end of the period	\$ 88,389

Income Taxes

Income taxes are calculated using the asset and liability method. Deferred tax assets and liabilities are recognized based on the difference between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using current enacted tax rates in effect for the years in which those temporary differences are expected to reverse. Inherent in the determination of the Company's income tax liability and related deferred income tax balances are certain judgments and interpretations of enacted tax law and published guidance with respect to applicability to the Company's operations. The Company is subject to audit by taxing authorities, usually several years after tax returns have been filed, and the taxing authorities may have differing interpretations of tax laws. Valuation allowances are established to reduce deferred tax assets to the amount expected to be realized when it is more likely than not that some portion or all of the deferred tax assets will not be realized.

The Company records tax expense or benefit that does not relate to ordinary income in the current fiscal year discretely in the period in which it occurs. Examples of such types of discrete items include, but are not limited to: changes in estimates of the outcome of tax matters related to prior years, assessments of valuation allowances, return-to-provision adjustments, tax-exempt income, the settlement of tax audits and changes in tax legislation and/or regulations.

Tax benefits from uncertain tax positions are recognized when it is more likely than not that the position will be sustained upon examination, including resolutions of any related appeals or litigation processes, based on the technical merits. The amount recognized is measured as the largest amount of tax benefit that is greater than 50 percent likely of being realized upon settlement. The Company's effective tax rate includes the impact of reserve provisions and changes to reserves on uncertain tax positions that are not more likely than not to be sustained upon examination as well as related interest and penalties.

A number of years may elapse before a particular matter, for which the Company has established a reserve, is audited and finally resolved. The number of years with open tax audits varies depending on the tax jurisdiction. While it is often difficult to predict the final outcome or the timing of resolution of any particular tax matter, the Company believes that its reserves reflect the probable outcome of known tax contingencies. Unfavorable settlement of any particular issue may require use of the Company's cash. Favorable resolution would be recognized as a reduction to the Company's effective tax rate in the period of resolution.

The Company recognizes accrued interest and penalties related to uncertain tax positions as a component of income tax expense on the Consolidated Statements of Operations and Comprehensive Income (Loss).

Refer to Note 11, "[INCOME TAXES](#)."

Foreign Currency Translation and Transactions

The functional currencies of the Company's foreign subsidiaries are generally the currencies of the environments in which each subsidiary primarily generates and expends cash, which is often the local currency of the country in which each subsidiary operates. The financial statements of the Company's foreign subsidiaries with functional currencies other than the U.S. Dollar are translated into U.S. Dollars (the Company's reporting currency) as follows: assets and liabilities are translated at the exchange rate prevailing at the balance sheet date, equity accounts are translated at historical exchange rates, and revenues and expenses are translated at the monthly average exchange rate for the period.

Foreign currency transactions, which are transactions denominated in a currency other than the entity's functional currency, are initially measured in the functional currency of the recording entity using the exchange rate in effect at that date. Subsequently, assets and liabilities associated with foreign currency transactions are remeasured into the entity's functional currency using historical exchange rates when remeasuring nonmonetary assets and liabilities and current exchange rates when remeasuring monetary assets and liabilities.

Gains and losses resulting from the remeasurement of monetary assets and liabilities are included in other operating income, net, whereas translation adjustments and gains and losses associated with measuring inter-company loans of a long-term investment nature are reported as an element of other comprehensive income (loss).

Derivative Instruments

The Company is exposed to risks associated with changes in foreign currency exchange rates and uses derivative instruments, primarily forward contracts, to manage the financial impacts of these exposures. The Company does not use forward contracts to engage in currency speculation and does not enter into derivative financial instruments for trading purposes.

In order to qualify for hedge accounting treatment, a derivative instrument must be considered highly effective at offsetting changes in either the hedged item's cash flows or fair value. Additionally, the hedge relationship must be documented to include the risk management objective and strategy, the hedging instrument, the hedged item, the risk exposure, and how hedge effectiveness will be assessed prospectively and retrospectively. The extent to which a hedging instrument has been, and is expected to continue to be, effective at offsetting changes in fair value or cash flows is assessed and documented at least quarterly. If the underlying hedged item is no longer probable of occurring, hedge accounting is discontinued.

For derivative instruments that either do not qualify for hedge accounting or are not designated as hedges, all changes in the fair value of the derivative instrument are recognized in earnings. For qualifying cash flow hedges, the change in the fair value of the derivative instrument is recorded as a component of other comprehensive income (loss) ("OCI") and recognized in earnings when the hedged cash flows affect earnings. If the cash flow hedge relationship is terminated, the derivative instrument gains or losses that are deferred in OCI will be recognized in earnings when the hedged cash flows occur. However, for cash flow hedges that are terminated because the forecasted transaction is not expected to occur in the original specified time period, or a two-month period thereafter, the derivative instrument gains or losses are immediately recognized in earnings.

The Company uses derivative instruments, primarily forward contracts designated as cash flow hedges, to hedge the foreign currency exchange rate exposure associated with forecasted foreign-currency-denominated intercompany inventory transactions with foreign subsidiaries before inventory is sold to third parties. Fluctuations in exchange rates will either increase or decrease the Company's intercompany equivalent cash flows and affect the Company's U.S. Dollar earnings. Gains or losses on the foreign currency exchange forward contracts that are used to hedge these exposures are expected to partially offset this variability. Foreign currency exchange forward contracts represent agreements to exchange the currency of one country for the currency of another country at an agreed upon settlement date. These forward contracts typically have a maximum term of twelve months. The conversion of the inventory to cost of sales, exclusive of depreciation and amortization, will result in the reclassification of related derivative gains and losses that are reported in AOCL on the Consolidated Balance Sheets into earnings.

The Company also uses foreign currency exchange forward contracts to hedge certain foreign-currency-denominated net monetary assets and liabilities, such as cash balances, receivables and payables. Fluctuations in foreign currency exchange rates result in transaction gains and losses being recorded in earnings as monetary assets and liabilities are remeasured at the spot exchange rate at the Company's fiscal month-end or upon settlement. The Company has chosen not to apply hedge accounting to these foreign currency exchange forward contracts because there are no differences in the timing of gain or loss recognition on the hedging instruments and the hedged items.

The Company presents its derivative assets and derivative liabilities at their gross fair values within other current assets and accrued liabilities, respectively, on the Consolidated Balance Sheets. However, the Company's derivative instruments allow net settlements under certain conditions.

Refer to Note 14, "[DERIVATIVE INSTRUMENTS](#)."

Stockholders' Equity

A summary of the Company's Class A Common Stock, \$0.01 par value, and Class B Common Stock, \$0.01 par value, follows:

<i>(in thousands)</i>	February 1, 2025	February 3, 2024
Class A Common Stock		
Shares authorized	150,000	150,000
Shares issued	103,300	103,300
Shares outstanding	49,735	50,500
Class B Common Stock ⁽¹⁾		
Shares authorized	106,400	106,400

⁽¹⁾ No shares were issued or outstanding as of each of February 1, 2025 and February 3, 2024.

Holders of Class A Common Stock generally have identical rights to holders of Class B Common Stock, except holders of Class A Common Stock are entitled to one vote per share while holders of Class B Common Stock are entitled to three votes per share on all matters submitted to a vote of stockholders.

Revenue Recognition

The Company recognizes revenue from product sales when control of the good is transferred to the customer, generally upon pick up at, or shipment from, a Company location.

Revenue is recorded net of estimated returns, associate discounts, promotions and other similar customer incentives. The Company estimates reserves for sales returns based on historical experience among other factors. The sales return reserve is classified in accrued expenses with a corresponding asset related to the projected returned merchandise recorded in inventory on the Consolidated Balance Sheets.

The Company accounts for gift cards sold to customers by recognizing an unearned revenue liability at the time of sale, which is recognized as net sales when redeemed by the customer or when the Company has determined the likelihood of redemption to be remote, referred to as gift card breakage. Gift card breakage is recognized proportionally with gift card redemptions in net sales. Gift cards sold to customers do not expire or lose value over periods of inactivity and the Company is not required by law to escheat the value of unredeemed gift cards to the jurisdictions in which it operates.

The Company also maintains loyalty programs, which primarily provide customers with the opportunity to earn points toward future merchandise discount rewards with qualifying purchases. The Company accounts for expected future reward redemptions by recognizing an unearned revenue liability as customers accumulate points, which remains until revenue is recognized at the earlier of redemption or expiration.

Unearned revenue liabilities related to the Company's gift card program and loyalty programs are classified in accrued expenses on the Consolidated Balance Sheets and are typically recognized as revenue within a 12-month period.

For additional details on the Company's unearned revenue liabilities related to the Company's gift card and loyalty programs, refer to Note 3, "[REVENUE RECOGNITION](#)."

The Company also recognizes revenue under wholesale arrangements when control passes to the wholesale partner, which is generally upon shipment. Revenue from the Company's franchise and license arrangements, primarily royalties earned upon the sale of merchandise, is generally recognized at the time merchandise is sold to the franchisees' retail customers or to the licensees' wholesale customers.

The Company does not include tax amounts collected from customers on behalf of third parties, including sales and indirect taxes, in net sales.

All revenues are recognized in net sales in the Consolidated Statements of Operations and Comprehensive Income (Loss). For a discussion of the disaggregation of revenue, refer to Note 17, "[SEGMENT REPORTING](#)."

Cost of Sales, Exclusive of Depreciation and Amortization

Cost of sales, exclusive of depreciation and amortization on the Consolidated Statements of Operations and Comprehensive Income (Loss), primarily consists of cost incurred to ready inventory for sale, including product costs, freight, and import costs, as well as provisions for reserves for shrink and lower of cost and net realizable value. Gains and losses associated with the effective portion of designated foreign currency exchange forward contracts related to the hedging of intercompany inventory transactions are also recognized in cost of sales, exclusive of depreciation and amortization, on the Consolidated Statements of Operations and Comprehensive Income (Loss).

The Company's cost of sales, exclusive of depreciation and amortization, and consequently gross profit, may not be comparable to those of other retailers, as inclusion of certain costs vary across the industry. Some retailers include all costs related to buying, design and distribution operations in cost of sales, while others may include either all or a portion of these costs in selling, general and administrative expenses.

Selling Expense

Selling expense on the Consolidated Statements of Operations and Comprehensive Income (Loss) is comprised of stores, fulfillment and marketing expenses. Stores expenses include non-management employee compensation; costs associated with operating stores including occupancy costs; including lease costs; utilities and other landlord expenses; depreciation and amortization; repairs and maintenance. Fulfillment costs primarily consists of costs related to the Company's digital operations; shipping and handling costs; non-management employee compensation; and distribution center ("DC") expenses. Marketing expenses include costs associated with the Company's marketing and advertising activities.

A summary of shipping and handling costs, which includes costs incurred to store, move and prepare product for shipment and costs incurred to physically move product to our customers across channels, follows:

<i>(in thousands)</i>	Fiscal 2024	Fiscal 2023	Fiscal 2022
Shipping and handling costs	\$ 410,004	\$ 362,545	\$ 356,280

Marketing costs consist primarily of paid media advertising, direct digital advertising, including e-mail distribution, digital content and in-store photography and signage.

Marketing costs related specifically to digital operations are expensed as incurred and the production of in-store photography and signage is expensed when the marketing campaign commences. All other marketing costs are expensed as incurred.

A summary of marketing costs follows:

<i>(in thousands)</i>	Fiscal 2024	Fiscal 2023	Fiscal 2022
Marketing costs	\$ 270,598	\$ 217,276	\$ 189,347

General and Administrative Expense

General and administrative expense on the Consolidated Statements of Operations and Comprehensive Income (Loss) primarily consists of: home office and support functions including; store management and DC management compensation; information technology; outside services, such as legal and consulting; depreciation, primarily related to IT and other home office assets; amortization related to trademark assets; costs to design and develop the Company's merchandise; relocation; recruiting; and travel expenses.

Other Operating Income, Net

Other operating income, net on the Consolidated Statements of Operations and Comprehensive Income (Loss) primarily consists of gains and losses resulting from foreign-currency-denominated transactions. A summary of foreign-currency-denominated transaction gains (losses), including those related to derivative instruments, follows:

<i>(in thousands)</i>	Fiscal 2024	Fiscal 2023	Fiscal 2022
Foreign-currency-denominated transaction gains (losses)	\$ 2,665	\$ 1,936	\$ (1,626)

Interest Expense and Interest Income

Interest expense primarily consists of interest expense on the Company's long-term borrowings outstanding. Interest income primarily consists of interest income earned on the Company's investments and cash holdings and realized gains from the Rabbi Trust assets.

Share-based Compensation

The Company issues shares of Class A Common Stock, \$0.01 par value (the "Common Stock") from treasury stock upon exercise of stock appreciation rights and vesting of restricted stock units, including those converted from performance share awards. As of February 1, 2025, the Company had sufficient treasury stock available to settle restricted stock units and stock appreciation rights outstanding. Settlement of stock awards in Common Stock also requires that the Company have sufficient shares available in stockholder-approved plans at the applicable time.

In the event there are not sufficient shares of Common Stock available to be issued under the Abercrombie & Fitch Co. 2016 Long-Term Incentive Plan for Directors (as amended effective May 20, 2020, the "2016 Directors LTIP") and the Abercrombie & Fitch Co. 2016 Long-Term Incentive Plan for Associates (as amended effective June 8, 2023, the "2016 Associates LTIP"), or under a successor or replacement plan at each reporting date as of which share-based compensation awards remain outstanding, the Company may be required to designate some portion of the outstanding awards to be settled in cash, which would result in liability classification of such awards. The fair value of liability-classified awards would be re-measured each reporting date until such awards no longer remain outstanding or until sufficient shares of Common Stock become available to be issued under the existing plans or under a successor or replacement plan. As long as the awards are required to be classified as a liability, the change in fair value would be recognized in current period expense based on the requisite service period rendered.

Fair value of both service-based and performance-based restricted stock units is calculated using the market price of the underlying Common Stock on the date of grant reduced for anticipated dividend payments on unvested shares. In determining fair value, the Company does not take into account performance-based vesting requirements. Performance-based vesting requirements are taken into account in determining the number of awards expected to vest. For market-based restricted stock units, fair value is calculated using a Monte Carlo simulation with the number of shares that ultimately vest dependent on the Company's total stockholder return measured against the total stockholder return of a select group of peer companies over a three-year period. For awards with performance-based or market-based vesting requirements, the number of shares that ultimately vest can vary from 0% to 200% of target depending on the level of achievement of performance criteria.

The Company estimates the fair value of stock appreciation rights using the Black-Scholes option-pricing model, which requires the Company to estimate the expected term of the stock appreciation rights and expected future stock price volatility over the expected term. Estimates of expected terms, which represent the expected periods of time the Company believes stock appreciation rights will be outstanding, are based on historical experience. Estimates of expected future stock price volatility are based on the volatility of the Common Stock price for the most recent historical period equal to the expected term of the stock appreciation rights, as appropriate. The Company calculates the volatility as the annualized standard deviation of the differences in the natural logarithms of the weekly closing price of the Common Stock, adjusted for stock splits and dividends.

Service-based restricted stock units are expensed on a straight-line basis over the award's requisite service period. Performance-based restricted stock units subject to graded vesting are expensed on an accelerated attribution basis. Performance share award expense is primarily recognized in the performance period of the award's requisite service period. Market-based restricted stock units without graded vesting features are expensed on a straight-line basis over the award's requisite service period. Compensation expense for stock appreciation rights is recognized on a straight-line basis over the award's requisite service period. The Company adjusts share-based compensation expense on a quarterly basis for actual forfeitures.

For awards that are expected to result in a tax deduction, a deferred tax asset is recorded in the period in which share-based compensation expense is recognized. A current tax deduction arises upon the issuance of restricted stock units and performance share awards or the exercise of stock options and stock appreciation rights and is principally measured at the award's intrinsic value. If the tax deduction differs from the recorded deferred tax asset, the excess tax benefit or deficit associated with the tax deduction is recognized within income tax expense.

Refer to Note 13, "[SHARE-BASED COMPENSATION](#)."

Net Income per Share Attributable to A&F

Net income per basic and diluted share attributable to A&F is computed based on the weighted-average number of outstanding shares of Common Stock. Additional information pertaining to net income per share attributable to A&F follows:

<i>(in thousands)</i>	Fiscal 2024	Fiscal 2023	Fiscal 2022
Shares of Common Stock issued	103,300	103,300	103,300
Weighted-average treasury shares	(52,461)	(53,050)	(52,993)
Weighted-average — basic shares	50,839	50,250	50,307
Dilutive effect of share-based compensation awards	2,132	2,476	2,020
Weighted-average — diluted shares	52,971	52,726	52,327
Anti-dilutive shares ⁽¹⁾	220	541	2,233

⁽¹⁾ Reflects the total number of shares related to outstanding share-based compensation awards that have been excluded from the computation of net income (loss) per diluted share because the impact would have been anti-dilutive. Unvested contingently issuable shares related to restricted stock units with performance-based and market-based vesting conditions can achieve up to 200% of their target vesting amount and are reflected at the maximum vesting amount less any dilutive portion.

Recent Accounting Pronouncements

The Company reviews recent accounting pronouncements on a quarterly basis and has excluded discussion of those not applicable to the Company and those not expected to have a material impact on the Company's consolidated financial statements. The following table provides a brief description of certain recent accounting pronouncements that the Company has adopted or that could affect the Company's financial statements.

Accounting Standards Update (ASU)	Description	Date of adoption	Effect on the financial statements or other significant matters
<u>Standards adopted</u>			
ASU 2022-04, <i>Liabilities — Supplier Finance Programs (Subtopic 405-50): Disclosure of Supplier Finance Program Obligations</i>	The update relates to disclosure requirements for buyers in supplier finance programs. The amendments in the update require that a buyer disclose qualitative and quantitative information about their supplier finance programs. Interim and annual requirements include disclosure of outstanding amounts under the obligations as of the end of the reporting period, and annual requirements include a roll-forward of those obligations for the annual reporting period, as well as a description of payment and other key terms of the programs. This update is effective for annual periods beginning after December 15, 2022, and interim periods within those fiscal years, except for the requirement to disclose roll-forward information, which is effective for fiscal years beginning after December 15, 2023.	January 29, 2023	The Company adopted this guidance by enhancing supply chain financing disclosures to include roll-forward activity. Refer to Note 2, " SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES ."
ASU 2023-07, Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures	The update modifies the disclosure/presentation requirements of reportable segments. The amendments in the update require the disclosure of significant segment expenses that are regularly provided to the chief operating decision maker (CODM) and included within each reported measure of segment profit and loss. The amendments also require disclosure of all other segment items by reportable segment and a description of its composition. Additionally, the amendments require disclosure of the title and position of the CODM and an explanation of how the CODM uses the reported measure(s) of segment profit or loss in assessing segment performance and deciding how to allocate resources. This update is effective for annual periods beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024. Early adoption is permitted.	February 1, 2025	The Company adopted this guidance by enhancing segment reporting footnote disclosures to include significant segment expenses. Refer to Note 17, " SEGMENT REPORTING ."
<u>Standards not yet adopted</u>			
ASU 2023-09, <i>Income Taxes (Topic 740): Improvements to Income Tax Disclosures</i>	The standard requires disaggregated information about a reporting entity's effective tax rate reconciliation as well as information on income taxes paid. For public business entities (PBEs), the requirement will be effective for annual periods beginning after December 15, 2024. The guidance will be applied on a prospective basis with the option to apply the standard retrospectively. Early adoption is permitted.		Other than the new disclosure requirements, the adoption of this guidance will not have a significant impact on the Company's consolidated financial statements.
ASU 2024-03 - <i>Income Statement—Reporting Comprehensive Income—Expense Disaggregation Disclosures (Subtopic 220-40): Disaggregation of Income Statement Expenses</i>	The update requires a disaggregated disclosure of income statement expenses. The amendments in this update require disclosure, in the notes to financial statements, of specified information about certain costs and expenses. The update is effective for fiscal years beginning after December 15, 2026 and interim period periods within annual reporting periods beginning after December 15, 2027. Early adoption is permitted.		Other than the new disclosure requirements, the adoption of this guidance will not have a significant impact on the Company's consolidated financial statements.

3. REVENUE RECOGNITION

Disaggregation of revenue

All revenues are recognized in net sales in the Consolidated Statements of Operations and Comprehensive Income (Loss). For information regarding the disaggregation of revenue, refer to Note 17, "[SEGMENT REPORTING](#)."

Contract liabilities

The following table details certain contract liabilities representing unearned revenue as of February 1, 2025, February 3, 2024 and January 28, 2023:

<i>(in thousands)</i>	February 1, 2025	February 3, 2024	January 28, 2023
Gift card liability ⁽¹⁾	\$ 45,364	\$ 41,144	\$ 39,235
Loyalty programs liability	32,199	27,937	25,640

⁽¹⁾ Includes \$19.8 million and \$20.0 million of revenue recognized during Fiscal 2024 and Fiscal 2023, respectively, that was included in the gift card liability at the beginning of February 3, 2024 and January 28, 2023, respectively.

The following table details recognized revenue associated with the Company's gift card program and loyalty programs for Fiscal 2024, Fiscal 2023, and Fiscal 2022:

<i>(in thousands)</i>	Fiscal 2024	Fiscal 2023	Fiscal 2022
Revenue associated with gift card redemptions and gift card breakage	\$ 141,380	\$ 112,749	\$ 98,488
Revenue associated with reward redemptions and breakage related to the Company's loyalty programs	65,776	56,406	48,624

Refer to Note 2, "[SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Revenue recognition](#)," for discussion regarding significant accounting policies related to the Company's revenue recognition.

4. FAIR VALUE

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The inputs used to measure fair value are prioritized based on a three-level hierarchy. The three levels of inputs to measure fair value are as follows:

- Level 1—inputs are unadjusted quoted prices for identical assets or liabilities that are available in active markets that the Company can access at the measurement date.
- Level 2—inputs are other than quoted market prices included within Level 1 that are observable for assets or liabilities, directly or indirectly.
- Level 3—inputs to the valuation methodology are unobservable.

The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The three levels of the hierarchy and the distribution of the Company's assets and liabilities that are measured at fair value on a recurring basis, were as follows:

(in thousands)	Assets and Liabilities at Fair Value as of February 1, 2025			
	Level 1	Level 2	Level 3	Total
Assets:				
Cash equivalents ⁽¹⁾	\$ 304,072	\$ 1,013	\$ —	\$ 305,085
Derivative instruments ⁽²⁾	—	4,315	—	4,315
Rabbi Trust assets ⁽³⁾	1,164	53,921	—	55,085
Restricted cash equivalents ⁽¹⁾	3,070	1,496	—	4,566
Total assets	\$ 308,306	\$ 60,745	\$ —	\$ 369,051
Assets and Liabilities at Fair Value as of February 3, 2024				
(in thousands)	Level 1	Level 2	Level 3	Total
Assets:				
Cash equivalents ⁽¹⁾	\$ 349,174	\$ 26,975	\$ —	\$ 376,149

Restricted cash equivalents ⁽¹⁾	4,282	1,420	—	5,702
Total assets	\$ 354,620	\$ 82,008	\$ —	\$ 436,628
Liabilities:				
Derivative instruments ⁽²⁾	\$ —	\$ 539	\$ —	\$ 539
Total liabilities	\$ —	\$ 539	\$ —	\$ 539

⁽¹⁾ Level 1 assets consisted of investments in money market funds and U.S. treasury bills. Level 2 assets consisted of time deposits with original maturities of less than three months.

⁽²⁾ Level 2 assets and liabilities consisted primarily of foreign currency exchange forward contracts.

⁽³⁾ Level 1 assets consisted of investments in money market funds. Level 2 assets consisted of trust-owned life insurance policies.

The Company's Level 2 assets and liabilities consisted of:

- Trust-owned life insurance policies, which were valued using the cash surrender value of the life insurance policies;
- Time deposits with original maturities of three months or less, which were valued at cost, approximating fair value, due to the short-term nature of these investments and;
- Derivative instruments, primarily foreign currency exchange forward contracts, which were valued using quoted market prices of the same or similar instruments, adjusted for counterparty risk.

The Company also holds certain investments that are not measured at fair value on a recurring basis on the Consolidated Balance Sheets, including held-to-maturity securities. Held-to-maturity securities consist primarily of time deposits with maturities less than one year, which are valued at amortized cost, approximating fair value.

Fair Value of Long-term Borrowings

The Company's borrowings were carried at historical cost in the accompanying Condensed Consolidated Balance Sheet as of February 3, 2024. On July 15, 2024 (the "Redemption Date"), Abercrombie & Fitch Management Co. ("A&F Management") redeemed all of its outstanding senior secured notes at par value, which had a fixed 8.75% interest rate and were scheduled to mature on July 15, 2025 (the "Senior Secured Notes"). As of the Redemption Date, the Senior Secured Notes were no longer deemed outstanding.

5. INVESTMENTS

Investments consisted of:

<i>(in thousands)</i>	February 1, 2025	February 3, 2024
Investments		
Marketable securities		
Time deposits	\$ 116,221	\$ —
Total Marketable securities	\$ 116,221	\$ —

Money market funds	1,164	1,164
Total Rabbi Trust assets	\$ 55,085	\$ 53,685

⁽¹⁾ Rabbi Trust assets are included in Other assets on the Consolidated Balance Sheets and are restricted as to their use.

Realized gains resulting from the change in cash surrender value and benefits paid pursuant to the trust-owned life insurance policies of the Rabbi Trust assets for Fiscal 2024, Fiscal 2023 and Fiscal 2022 were as follows:

<i>(in thousands)</i>	Fiscal 2024	Fiscal 2023	Fiscal 2022
Realized gains related to Rabbi Trust assets	\$ 1,400	\$ 1,978	\$ 1,409

Refer to Note 2, [“SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES,”](#) for further discussion related to the Company’s Marketable securities and Rabbi Trust assets.

6. INVENTORIES

Inventories consisted of:

<i>(in thousands)</i>	February 1, 2025	February 3, 2024
Inventories at original cost	\$ 603,602	\$ 500,020
Less: Lower of cost and net realizable value adjustment	(28,597)	(30,554)
Inventories ⁽¹⁾	\$ 575,005	\$ 469,466

⁽¹⁾ Included \$115.0 million and \$103.5 million of inventory in transit, merchandise owned by the Company that has not yet been received at a Company DC, as of February 1, 2025 and February 3, 2024, respectively.

A summary of the Company’s vendors based on location and the percentage of cost of merchandise receipts during Fiscal 2024, Fiscal 2023 and Fiscal 2022 follows:

Location	% of Total Company Merchandise Receipts ⁽¹⁾		
	Fiscal 2024	Fiscal 2023	Fiscal 2022
Vietnam	35 %	34 %	33 %
Cambodia	22	19	17
India	12	12	9
China ⁽²⁾	7	9	13
Other ⁽³⁾	24	26	28
Total	100 %	100 %	100 %

⁽¹⁾ Calculated as the cost of merchandise receipts from all vendors within a country during the respective fiscal year divided by cost of total merchandise receipts during the respective fiscal year.

⁽²⁾ Only a portion of the Company’s total merchandise sourced from China is subject to the additional U.S. tariffs on imported consumer goods that were effective beginning in Fiscal 2019. The Company estimates approximately 5%, 7%, and 9% of total merchandise receipts were directly imported to the United States from China in Fiscal 2024, Fiscal 2023 and Fiscal 2022, respectively.

⁽³⁾ No country included within this category sourced more than 10% of total merchandise receipts during any fiscal year presented above.

Refer to Note 2, [“SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Inventories,”](#) for discussion regarding significant accounting policies related to the Company’s inventories.

7. PROPERTY AND EQUIPMENT, NET

Property and equipment, net consisted of:

<i>(in thousands)</i>	February 1, 2025	February 3, 2024
Land	\$ 28,599	\$ 28,599
Buildings	238,131	238,185

Less: Accumulated depreciation	(2,030,098)	(1,971,151)
Property and equipment, net	<u>\$ 575,773</u>	<u>\$ 538,033</u>

Depreciation expense for Fiscal 2024, Fiscal 2023 and Fiscal 2022 was \$150.8 million, \$138.5 million and \$129.7 million, respectively.

Refer to Note 9, "[ASSET IMPAIRMENT](#)," for details related to property and equipment impairment charges incurred during Fiscal 2024, Fiscal 2023 and Fiscal 2022.

Refer to Note 2, "[SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Property and equipment, net](#)," for discussion regarding significant accounting policies related to the Company's property and equipment, net.

8. LEASES

The Company is a party to leases related to its Company-operated retail stores, as well as for certain of its DCs, office space, information technology and equipment.

The following table provides a summary of the Company's operating lease costs for Fiscal 2024, Fiscal 2023 and Fiscal 2022:

<i>(in thousands)</i>	Fiscal 2024	Fiscal 2023	Fiscal 2022
Single lease cost ⁽¹⁾	\$ 264,794	\$ 248,567	\$ 246,824
Variable lease cost ⁽²⁾	186,795	168,881	150,909
Operating lease right-of-use asset impairment ⁽³⁾	5,470	1,440	6,248
Sublease income	(3,928)	(3,949)	(3,826)
Total operating lease cost	<u>\$ 453,131</u>	<u>\$ 414,939</u>	<u>\$ 400,155</u>

⁽¹⁾ Includes amortization and interest expense associated with operating lease right-of-use assets and the impact from remeasurement of operating lease liabilities.

⁽²⁾ Includes variable payments related to both lease and nonlease components, such as contingent rent payments made by the Company based on performance, and payments related to taxes, insurance, and maintenance costs.

⁽³⁾ Refer to Note 8, "[ASSET IMPAIRMENT](#)," for details related to operating lease right-of-use asset impairment charges.

The following table provides the weighted-average remaining lease term of the Company's operating leases and the weighted-average discount rate used to calculate the Company's operating lease liabilities as of February 1, 2025 and February 3, 2024:

	February 1, 2025	February 3, 2024
Weighted-average remaining lease term (years)	4.9	4.7
Weighted-average discount rate	6.8 %	6.7 %

The following table provides a maturity analysis of the Company's operating lease liabilities, based on undiscounted cash flows, as of February 1, 2025:

<i>(in thousands)</i>	February 1, 2025
Fiscal 2025	\$ 267,902
Fiscal 2026	251,475
Fiscal 2027	195,994
Fiscal 2028	158,969
Fiscal 2029	111,943
Fiscal 2030 and thereafter	143,695
Total undiscounted operating lease payments	1,129,978
Less: Imputed interest	(178,365)
Present value of operating lease liabilities	\$ 951,613

During Fiscal 2020, the Company entered into a sublease agreement with a third party for the remaining lease term of one of its European Abercrombie & Fitch flagship store locations upon its closure. As of February 1, 2025, future minimum tenant operating lease payments remaining under this sublease were \$11.1 million with a remaining sublease term of 2.8 years.

The Company had minimum commitments related to operating lease contracts that have not yet commenced, primarily for its Company-operated retail stores, of approximately \$135.0 million as of February 1, 2025.

9. ASSET IMPAIRMENT

The following table provides additional details related to long-lived asset impairment charges:

<i>(in thousands)</i>	Fiscal 2024	Fiscal 2023	Fiscal 2022
Operating lease right-of-use asset impairment	\$ 5,470	\$ 1,441	\$ 6,248
Property and equipment asset impairment ⁽¹⁾	6,126	6,848	7,783
Total asset impairment ⁽²⁾	\$ 11,596	\$ 8,289	\$ 14,031

⁽¹⁾ Amounts for Fiscal 2024 and Fiscal 2023 only include store asset impairment. Amounts for Fiscal 2022 include store asset impairment of \$4.8 million and other asset impairment of \$3.0 million.

⁽²⁾ Included in Selling expense on the Consolidated Statements of Operations and Comprehensive Income (Loss).

Asset impairment charges for Fiscal 2024 were related to certain of the Company's store assets, primarily in the APAC segment. The impairment charges for Fiscal 2024 reduced the then carrying amount of the impaired stores' assets to their fair value of approximately \$8.2 million, including \$7.3 million related to operating lease right-of-use assets.

Asset impairment charges for Fiscal 2023 were related to certain of the Company's store assets, primarily in the Americas and EMEA segments. The impairment charges for Fiscal 2023 reduced the then carrying amount of the impaired stores' assets to their fair value of approximately \$28.1 million, including \$23.7 million related to operating lease right-of-use assets.

Asset impairment charges for Fiscal 2022 were related to certain of the Company's assets including stores across segments, brands and store formats and other assets. The impairment charges for Fiscal 2022 reduced the then carrying amount of the impaired stores' assets to their fair value of approximately \$39.7 million, including \$37.0 million related to operating lease right-of-use assets.

Refer to Note 2, "[SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Long-lived Asset Impairment](#)," for discussion regarding significant accounting policies related to impairment of the Company's long-lived assets.

10. ACCRUED EXPENSES

Accrued expenses consisted of:

<i>(in thousands)</i>	February 1, 2025	February 3, 2024
Accrued payroll and related costs ⁽¹⁾	\$ 92,504	\$ 100,825
Accrued marketing	77,509	52,792
Other ⁽²⁾	334,909	283,038
Accrued expenses	<u>\$ 504,922</u>	<u>\$ 436,655</u>

⁽¹⁾ Accrued payroll and related costs include salaries, incentive compensation, benefits, withholdings and other payroll-related costs.

⁽²⁾ Other primarily includes the Company's gift card and loyalty programs liabilities, accrued taxes, accrued rent and expenses incurred but not yet paid primarily related to outside services associated with store and home office operations, construction in progress and costs related to the Company's DCs and digital operations. Refer to Note 3, "[REVENUE RECOGNITION](#)."

11. INCOME TAXES

Impact of valuation allowances and other tax benefits during Fiscal 2024

During Fiscal 2024, the Company did not recognize income tax benefits on \$53.8 million of pre-tax losses, primarily in Switzerland, resulting in adverse tax impacts of \$8.2 million.

As of February 1, 2025, the Company had foreign net deferred tax assets of approximately \$35.7 million, including \$8.2 million, \$5.4 million, and \$13.4 million in China, Japan, and the United Kingdom, respectively. While the Company believes that these net deferred tax assets are more-likely-than-not to be realized, it is not a certainty, as the Company continues to evaluate and respond to situations as they emerge. Should circumstances change, the net deferred tax assets may become subject to additional valuation allowances in the future. Additional valuation allowances would result in additional tax expense.

Impact of valuation allowances and other tax benefits during Fiscal 2023

During Fiscal 2023, the Company did not recognize income tax benefits on \$103.0 million of pre-tax losses, primarily in Switzerland, resulting in adverse tax impacts of \$15.6 million.

As of February 3, 2024, the Company had foreign net deferred tax assets of approximately \$36.7 million, including \$7.6 million, \$7.5 million, and \$12.6 million in China, Japan, and the United Kingdom, respectively.

Impact of valuation allowances and other tax charges during Fiscal 2022

During Fiscal 2022, the Company did not recognize income tax benefits on \$136.5 million of pre-tax losses, primarily in Switzerland, resulting in adverse tax impacts of \$20.0 million.

As of January 28, 2023, the Company had foreign net deferred tax assets of approximately \$43.8 million, including \$8.0 million, \$9.1 million, and \$15.6 million in China, Japan, and the United Kingdom, respectively.

Components of Income Taxes

Income before income taxes consisted of:

<i>(in thousands)</i>	Fiscal 2024	Fiscal 2023	Fiscal 2022
Domestic ⁽¹⁾	\$ 757,835	\$ 526,967	\$ 152,608

Income before income taxes	<u>\$ 768,677</u>	<u>\$ 484,299</u>	<u>\$ 67,016</u>

⁽¹⁾ Includes intercompany charges to foreign affiliates for management fees, cost-sharing, royalties and interest and excludes a portion of foreign income that is currently includable on the U.S. federal income tax return.

Income tax expense consisted of:

<i>(in thousands)</i>	Fiscal 2024	Fiscal 2023	Fiscal 2022
Current:			
Federal	\$ 150,061	\$ 113,765	\$ 25,577
State	40,942	32,299	10,371
Foreign	15,936	7,565	9,183

Income tax expense	<u>\$ 194,661</u>	<u>\$ 148,886</u>	<u>\$ 56,631</u>

The Company's earnings and profits from its foreign subsidiaries could be repatriated to the U.S., without incurring additional federal income tax. The Company determined that the balance of the Company's undistributed earnings and profits from its foreign subsidiaries as of February 2, 2019, are considered indefinitely reinvested outside of the U.S., and if these funds were to be repatriated to the U.S., the Company would expect to incur an insignificant amount of state income taxes and foreign withholding taxes. The Company accrues for both state income taxes and foreign withholding taxes with respect to earnings and profits earned after February 2, 2019, in such a manner that these funds may be repatriated without incurring additional tax expense.

Reconciliation between the statutory federal income tax rate and the effective tax rate is as follows:

	Fiscal 2024	Fiscal 2023	Fiscal 2022
U.S. Federal income tax rate	21.0 %	21.0 %	21.0 %
State income tax, net of U.S. federal income tax effect	4.5	4.9	12.4
Foreign taxation of non-U.S. operations	1.4	1.4	16.2
Internal Revenue Code Section 162(m)	0.7	1.4	4.6
Net change in valuation allowances	0.6	3.4	30.7
Additional U.S. taxation of non-U.S. operations	0.1	0.1	1.3
Credit for increasing research activities	(0.1)	(0.5)	(2.5)
Audit and other adjustments to prior years' accruals, net	(0.2)	(0.2)	5.9
Net income attributable to noncontrolling interests	(0.2)	(0.3)	(2.4)
Tax benefit recognized on share-based compensation expense ⁽²⁾	(2.5)	(0.5)	(2.6)
Other items, net	—	—	(0.1)
Total	<u>25.3 %</u>	<u>30.7 %</u>	<u>84.5 %</u>

⁽¹⁾ U.S. branch operations in Puerto Rico were subject to tax at the full U.S. tax rates. As a result, income from these operations do not create reconciling items.

⁽²⁾ Refer to Note 13, "[SHARE-BASED COMPENSATION](#)," for details on discrete income tax benefits and charges related to share-based compensation awards during Fiscal 2024, Fiscal 2023, and Fiscal 2022.

For certain years, the impact of various tax items on the Company's effective tax rate were amplified on a percentage basis at lower levels of consolidated pre-tax income (loss) in absolute dollars. The effective tax rate remains sensitive to jurisdictional mix. The taxation of non-U.S. operations line items in the table above excludes items related to the Company's non-U.S. operations reported separately in the appropriate corresponding line items.

For Fiscal 2024, Fiscal 2023, and Fiscal 2022, the impact of taxation of non-U.S. operations on the Company's effective income tax rate was related to the Company's jurisdictional mix driven primarily by the Company's operations within Switzerland.

Components of Deferred Income Tax Assets and Deferred Income Tax Liabilities

The effect of temporary differences that gives rise to deferred income tax assets (liabilities) were as follows:

<i>(in thousands)</i>	February 1, 2025	February 3, 2024
Deferred income tax assets:		
Operating lease liabilities	\$ 241,873	\$ 211,863

Total deferred income tax liabilities	\$ (231,768)	\$ (205,663)
Net deferred income tax assets ⁽¹⁾	\$ 79,327	\$ 67,221

⁽¹⁾ This table does not reflect deferred taxes classified within AOCL. As of February 1, 2025 and February 3, 2024, AOCL included deferred tax liabilities of \$1.0 million and deferred tax liabilities of \$0.1 million, respectively.

As of February 1, 2025, the Company had deferred tax assets related to foreign and state NOL and credit carryforwards of \$91.9 million and \$0.1 million, respectively, that could be utilized to reduce future years' tax liabilities. If not utilized, a portion of the foreign NOL carryforwards will begin to expire in Fiscal 2026 and a portion of state NOL carryforwards will begin to expire in Fiscal 2029. Some foreign NOLs have an indefinite carryforward period. As of February 1, 2025, the Company did not have any deferred tax assets related to federal NOL and credit carryforwards that could be utilized to reduce future years' tax liabilities.

The valuation allowances for Fiscal 2024 and 2023 were \$151.8 million and \$147.0 million, respectively. The valuation allowances as of Fiscal 2024 have been established against deferred tax assets, primarily in Switzerland. All valuation allowances have been reflected through the Consolidated Statements of Operations and Comprehensive Income (Loss). The valuation allowances will remain until there is sufficient positive evidence to release them, such positive evidence would include having positive income within the jurisdiction. In such case, the Company will record an adjustment in the period in which a determination is made. The Company continues to review the need for valuation allowances on a quarterly basis.

Share-based Compensation

Refer to Note 13, "[SHARE-BASED COMPENSATION](#)," for details on income tax benefits and charges related to share-based compensation awards during Fiscal 2024, Fiscal 2023 and Fiscal 2022.

Other

The amount of uncertain tax positions as of February 1, 2025, February 3, 2024 and January 28, 2023, which would impact the Company's effective tax rate if recognized and a reconciliation of the beginning and ending amounts of uncertain tax positions, excluding accrued interest and penalties, are as follows:

<i>(in thousands)</i>	Fiscal 2024	Fiscal 2023	Fiscal 2022
Uncertain tax positions, beginning of the year	\$ 2,751	\$ 2,293	\$ 1,114
Gross addition for tax positions of the current year	611	572	339
Gross addition for tax positions of prior years	1,725	75	907
Reductions of tax positions of prior years for:			
Lapses of applicable statutes of limitations	(155)	(70)	(66)
Settlements during the period	(350)	(119)	(1)
Uncertain tax positions, end of year	<u>\$ 4,582</u>	<u>\$ 2,751</u>	<u>\$ 2,293</u>

The IRS is currently conducting an examination of the Company's U.S. federal income tax returns for Fiscal 2024 and 2023 as part of the IRS' Compliance Assurance Process program. The IRS examinations for Fiscal 2022 and prior years have been completed. State and foreign returns are generally subject to examination for a period of three to five years after the filing of the respective return. The Company typically has various state and foreign income tax returns in the process of examination, administrative appeals or litigation. The outcome of the examinations is not expected to have a material impact on the Company's financial statements. The Company believes that some of these audits and negotiations will conclude within the next 12 months and that it is reasonably possible the amount of uncertain income tax positions, including interest, may change by an immaterial amount due to settlement of audits and expiration of statutes of limitations.

The Company does not expect material adjustments to the total amount of uncertain tax positions within the next 12 months, but the outcome of tax matters is uncertain and unforeseen results can occur.

Refer to Note 2, "[SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Income Taxes](#)," for discussion regarding significant accounting policies related to the Company's income taxes.

12. BORROWINGSSenior Secured Notes

On July 15, 2024 (the "Redemption Date"), A&F redeemed all of its outstanding 8.75% Senior Secured Notes due July 15, 2025, which had an aggregate principal amount of \$214 million, at a redemption price equal to 100% of the principal amount, plus accrued and unpaid interest to, but excluding, the Redemption Date, and incurred a \$0.9 million loss on extinguishment of debt, recognized in interest expense on the Condensed Consolidated Statements of Operations and Comprehensive Income. For the year-to-date period through the Redemption Date, A&F Management repurchased \$9.3 million in the open market and redeemed \$214 million of its Senior Secured Notes and incurred a loss on extinguishment of debt of \$1.1 million. As of the Redemption Date, the Senior Secured Notes were no longer deemed outstanding and interest on the Senior Secured Notes ceased to accrue.

ABL Facility

On August 2, 2024, A&F, as parent and a guarantor, A&F Management, as lead borrower, and certain of A&F's direct and indirect wholly-owned subsidiaries, as additional borrowers and guarantors, entered into the Second Amendment to the Amended and Restated Credit Agreement (the "Second Amendment"), together with the lenders party thereto and Wells Fargo Bank, National Association, as administrative agent for the lenders. The Second Amendment amended the Amended and Restated Credit Agreement, dated as of April 29, 2021 (the "ABL Credit Agreement"), to, among other things (as described in greater detail below), provide for a \$500 million senior secured asset-based revolving credit facility (the "ABL Facility"). The Company incurred customary fees and expenses in connection with the entry into the Second Amendment.

The Second Amendment amended the ABL Credit Agreement to, among other things:

- increase the aggregate commitments thereunder from \$400 million to \$500 million;
- establish a \$100 million sub-facility for the benefit of Abfico Netherlands Distribution B.V. (“Abfico”) and AFH Stores UK Limited (“AFH UK”) that is (i) secured by a first priority security interest in all assets (subject to specified exclusions) of each of Abfico and AFH UK, (ii) guaranteed by A&F and certain of its domestic direct and indirect wholly-owned subsidiaries, and (iii) subject to a borrowing base as described therein;
- extend the maturity date from April 29, 2026 to August 2, 2029;
- increase the letter of credit sub-limit from \$50 million to \$62.5 million;
- decrease the swing line availability from \$50 million to \$30 million;
- decrease the unused line fee from a variable rate of 25 basis points to 37.5 basis points to a flat rate of 25 basis points; and
- increase pricing of the interest rate margin applicable to borrowings as follows:
 - from 1.25% to 1.50% when average availability is greater than or equal to 50% of the Loan Cap (as defined in the Second Amendment); and
 - from 1.50% to 1.75% when average availability is less than 50% of the Loan Cap.

The ABL Facility is subject to a borrowing base, consisting primarily of inventory located in the U.S., the United Kingdom and the Netherlands, with a letter of credit sub-limit of \$62.5 million, a swing line loan sub-limit of \$30 million, and an accordion feature allowing A&F to increase the revolving commitment by up to \$150 million subject to specified conditions. The ABL Facility is available for working capital, capital expenditures, and other general corporate purposes.

As of February 1, 2025, availability under the ABL Facility was \$500 million, net of \$0.4 million in outstanding stand-by letters of credit. As the Company must maintain excess availability equal to the greater of 10% of the Loan Cap or \$36 million under the ABL Facility, borrowing capacity available to the Company under the ABL Facility was \$450 million as of February 1, 2025.

Representations, Warranties and Covenants

The agreements related to the ABL Facility contain various representations, warranties and restrictive covenants that, among other things and subject to specified exceptions, restrict the ability of the Company and its subsidiaries to: grant or incur liens; incur, assume or guarantee additional indebtedness; sell or otherwise dispose of assets, including capital stock of subsidiaries; make investments in certain subsidiaries; pay dividends, make distributions or redeem or repurchase capital stock; change the nature of their business; and consolidate or merge with or into, or sell substantially all of the assets of the Company or A&F Management to another entity.

Certain of the agreements related to the ABL Facility also contain certain affirmative covenants, including reporting requirements, such as delivery of financial statements, certificates and notices of certain events, maintaining insurance and providing additional guarantees and collateral in certain circumstances.

The Company was in compliance with all covenants under these agreements as of February 1, 2025.

13. SHARE-BASED COMPENSATION

Plans

As of February 1, 2025, the Company had two primary share-based compensation plans: (i) the 2016 Directors LTIP, with 900,000 shares of Common Stock authorized for issuance, under which the Company is authorized to grant restricted stock, restricted stock units, stock appreciation rights, stock options and deferred stock awards to non-associate members of the Board of Directors; and (ii) the 2016 Associates LTIP, with 10,965,000 shares of Common Stock authorized for issuance, under which the Company is authorized to grant restricted stock, restricted stock units, performance share awards, stock appreciation rights and stock options to associates of the Company. The Company also has outstanding shares from two other share-based compensation plans under which the Company granted restricted stock units, performance share awards, stock appreciation rights and stock options to associates of the Company and restricted stock units, stock options and deferred stock awards to non-associate members of the Board of Directors in prior years. No new shares may be granted under these previously-authorized plans and any outstanding awards continue in effect in accordance with their respective terms.

The 2016 Directors LTIP, a stockholder-approved plan, permits the Company to annually grant awards to non-associate directors, subject to the following limits:

- *For non-associate directors:* awards with an aggregate fair market value on the date of the grant of no more than \$300,000;
- *For the non-associate director occupying the role of Non-Executive Chairperson of the Board (if any):* additional awards with an aggregate fair market value on the date of grant of no more than \$500,000; and
- *For the non-associate director occupying the role of Executive Chairperson of the Board (if any):* additional awards with an aggregate fair market value on the date of grant of no more than \$2,500,000.

Under the 2016 Directors LTIP, restricted stock units are subject to a minimum vesting period ending no sooner than the earlier of (i) the first anniversary of the grant date or (ii) the date of the next regularly scheduled annual meeting of stockholders held after the grant date. Any stock appreciation rights or stock options granted under this plan have the same minimum vesting period requirements as restricted stock units and, in addition, must have a term that does not exceed a period of ten years from the grant date, subject to forfeiture under the terms of the 2016 Directors LTIP.

The 2016 Associates LTIP, a stockholder-approved plan, permits the Company to annually grant one or more types of awards covering up to an aggregate for all awards of 1.0 million underlying shares of the Common Stock to any associate of the Company. Under the 2016 Associates LTIP, for restricted stock units that have performance-based vesting, performance must be measured over a period of at least one year and for restricted stock units that do not have performance-based vesting, vesting in full may not occur more quickly than in pro-rata installments over a period of three years from the date of the grant, with the first installment vesting no sooner than the first anniversary of the date of the grant. In addition, any stock options or stock appreciation rights granted under this plan must have a minimum vesting period of one year and a term that does not exceed a period of ten years from the grant date, subject to forfeiture under the terms of the 2016 Associates LTIP.

Each of the 2016 Directors LTIP and the 2016 Associates LTIP provides for accelerated vesting of awards if there is a change of control and certain other conditions specified in each plan are met.

14. DERIVATIVE INSTRUMENTS

As of February 1, 2025, the Company had outstanding the following foreign currency exchange forward contracts that were entered into to hedge either a portion, or all, of forecasted foreign-currency-denominated intercompany inventory transactions, the resulting settlement of the foreign-currency-denominated intercompany accounts receivable, or both:

<i>(in thousands)</i>	Notional Amount ⁽¹⁾
Euro	\$ 72,219
British pound	79,206
Canadian dollar	26,186

⁽¹⁾ Amounts reported are the U.S. Dollar notional amounts outstanding as of February 1, 2025.

The fair value of derivative instruments is determined using quoted market prices of the same or similar instruments, adjusted for counterparty risk. The location and amounts of derivative fair values of foreign currency exchange forward contracts on the Consolidated Balance Sheets as of February 1, 2025, and February 3, 2024 were as follows:

16. SAVINGS AND RETIREMENT PLANS

The Company maintains the Abercrombie & Fitch Co. Savings and Retirement Plan, a qualified plan. All U.S. associates are eligible to participate in this plan if they are at least 21 years of age. In addition, the Company maintains the Abercrombie & Fitch Nonqualified Savings and Supplemental Retirement Plan, comprised of two sub-plans (Plan I and Plan II). Plan I contains contributions made through December 31, 2004, while Plan II contains contributions made on and after January 1, 2005. Participation in these plans is based on service and compensation. The Company's contributions to these plans are based on a percentage of associates' eligible annual compensation. The cost of the Company's contributions to these plans was \$18.0 million, \$16.9 million and \$14.7 million for Fiscal 2024, Fiscal 2023 and Fiscal 2022, respectively.

In addition, the Company maintains the Supplemental Executive Retirement Plan, which provides retirement income to its former Chief Executive Officer for life, based on averaged compensation before retirement, including base salary and cash incentive compensation. As of February 1, 2025 and February 3, 2024, the Company had recorded \$6.1 million and \$6.7 million, respectively, in other liabilities on the Consolidated Balance Sheets related to Supplemental Executive Retirement Plan distributions.

17. SEGMENT REPORTING

The Company's reportable segments are based on the financial information the chief operating decision maker ("CODM") uses to allocate resources and assess performance of its business.

During the second quarter of Fiscal 2023, to leverage the knowledge and experience of our regional teams to better drive brand growth, the Company reorganized its structure and now manages its business on a geographic basis, consisting of three reportable segments: Americas; Europe, the Middle East and Africa (EMEA); and Asia-Pacific (APAC). Corporate functions and other income and expenses are evaluated on a consolidated basis and are not allocated to the Company's segments, and therefore are included as a reconciling item between segment and total operating income (loss). The Americas reportable segment includes the results of operations in North America and South America. The EMEA reportable segment includes the results of operations in Europe, the Middle East and Africa. The APAC reportable segment includes the results of operations in the Asia-Pacific region, including Asia and Oceania. Intersegment sales and transfers are recorded at cost and are treated as a transfer of inventory. All intercompany revenues are eliminated in consolidation and are not reviewed when evaluating segment performance. All prior periods presented are recast to conform to the new segment presentation.

The group comprised of the Company's (i) Chief Executive Officer, (ii) Chief Operating Officer, and (iii) Chief Financial Officer functions as the Company's CODM. The Company's CODM manages business operations and evaluates the performance of each segment based on the net sales and operating income (loss) of the segment. The CODM considers actual performance relative to expectations, and growth potential to determine the appropriate allocation of resources to each segment.

Net sales by segment are presented by attributing revenues on the basis of the segment that fulfills the order. Operating income (loss) for each segment includes net sales to third parties, related cost of sales and operating expenses directly attributed to the segment. Corporate/other expenses include expenses incurred that are not directly attributed to a reportable segment and primarily relate to corporate or global functions such as design, sourcing, brand management, corporate strategy, information technology, finance, treasury, legal, human resources, and other corporate support services, as well as certain globally managed components of the planning, merchandising, and marketing functions.

The Company reports inventories by segment as that information is used by the CODM in determining allocation of resources to the segments. The Company does not report its other assets by segment as that information is not used by the CODM in assessing segment performance or allocating resources.

18. CONTINGENCIES

The Company and its affiliates are defendants in lawsuits and other adversary proceedings that may range from individual actions involving a single plaintiff to class action lawsuits. The Company's legal costs incurred in connection with the resolution of claims and lawsuits are generally expensed as incurred, and the Company establishes estimated liabilities for the outcome of litigation where losses are deemed probable and the amount of loss, or range of loss, is reasonably estimable. The Company also determines estimates of reasonably possible losses or ranges of reasonably possible losses in excess of related accrued liabilities, if any, when it has determined that a loss is reasonably possible and it is able to determine such estimates. Based on currently available information, the Company cannot estimate a range of reasonably possible losses in excess of the accrued charges for legal contingencies. In addition, the Company has not established accruals for certain claims and legal proceedings pending against the Company where it is not possible to reasonably estimate the outcome or potential liability, and the Company cannot estimate a range of reasonably possible losses for these legal matters.

Actual liabilities may differ from the amounts recorded, due to uncertainties regarding final settlement agreement negotiations, court approvals and the terms of any approval by the courts, and there can be no assurance that final resolution of legal matters will not have a material adverse effect on the Company's financial condition, results of operations or cash flows. The Company's assessment of the current exposure could change in the event of the discovery of additional facts.

Report of Independent Registered Public Accounting Firm

To the Board of Directors and Stockholders of Abercrombie & Fitch Co.

Opinions on the Financial Statements and Internal Control over Financial Reporting

We have audited the accompanying consolidated balance sheets of Abercrombie & Fitch Co. and its subsidiaries (the “Company”) as of February 1, 2025 and February 3, 2024, and the related consolidated statements of operations and comprehensive income (loss), of stockholders’ equity and of cash flows for each of the three years in the period ended February 1, 2025, including the related notes (collectively referred to as the “consolidated financial statements”). We also have audited the Company’s internal control over financial reporting as of February 1, 2025, based on criteria established in *Internal Control - Integrated Framework* (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO).

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of the Company as of February 1, 2025 and February 3, 2024, and the results of its operations and its cash flows for each of the three years in the period ended February 1, 2025 in conformity with accounting principles generally accepted in the United States of America. Also in our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of February 1, 2025, based on criteria established in *Internal Control - Integrated Framework* (2013) issued by the COSO.

Basis for Opinions

The Company’s management is responsible for these consolidated financial statements, for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting, included in Management’s Annual Report on Internal Control over Financial Reporting appearing under Item 9A. Our responsibility is to express opinions on the Company’s consolidated financial statements and on the Company’s internal control over financial reporting based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement, whether due to error or fraud, and whether effective internal control over financial reporting was maintained in all material respects.

Our audits of the consolidated financial statements included performing procedures to assess the risks of material misstatement of the consolidated financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

Definition and Limitations of Internal Control over Financial Reporting

A company’s internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Critical Audit Matters

The critical audit matter communicated below is a matter arising from the current period audit of the consolidated financial statements that was communicated or required to be communicated to the audit committee and that (i) relates to accounts or disclosures that are material to the consolidated financial statements and (ii) involved our especially challenging, subjective, or complex judgments. The communication of critical audit matters does not alter in any way our opinion on the consolidated financial statements, taken as a whole, and we are not, by communicating the critical audit matter below, providing a separate opinion on the critical audit matter or on the accounts or disclosures to which it relates.

Impairment of Long-Lived Assets – Stores

As described in Notes 2, 7 and 9 to the consolidated financial statements, the Company's consolidated property and equipment, net balance was \$575.8 million and consolidated operating lease right-of-use assets balance was \$803.1 million as of February 1, 2025. During the year ended February 1, 2025, the Company recognized long-lived asset store impairment charges of \$11.6 million. The Company's long-lived assets, primarily operating lease right-of-use assets, leasehold improvements, furniture, fixtures and equipment, are grouped with other assets and liabilities at the store level, which is the lowest level for which identifiable cash flows are largely independent of the cash flows of other assets and liabilities. On at least a quarterly basis, management reviews the Company's asset groups for indicators of impairment, which include, but are not limited to, material declines in operational performance, a history of losses, an expectation of future losses, adverse market conditions, store closure or relocation decisions, and any other events or changes in circumstances that would indicate the carrying amount of an asset group might not be recoverable. If an asset group displays an indicator of impairment, it is tested for recoverability by comparing the sum of the estimated future undiscounted cash flows attributable to the asset group to the carrying amount of the asset group. This recoverability test requires management to make assumptions and judgments related, but not limited, to management's expectations for future cash flows from operating the store. The key assumption used in developing these projected cash flows used in the recoverability test is estimated sales growth rate. If the sum of the estimated future undiscounted cash flows attributable to an asset group is less than its carrying amount, and it is determined that the carrying amount of the asset group is not recoverable, management determines if there is an impairment loss by comparing the carrying amount of the asset group to its fair value. Fair value of an asset group is based on the highest and best use of the asset group, often using a discounted cash flow model that utilizes Level 3 fair value inputs. The key assumptions used in the Company's fair value analysis are estimated sales growth rate and comparable market rents. An impairment loss is recognized based on the excess of the carrying amount of the asset group over its fair value.

The principal considerations for our determination that performing procedures relating to the impairment of long-lived assets - stores is a critical audit matter are (i) the significant judgment by management when developing the future undiscounted cash flows attributable to an asset group when testing for recoverability and when estimating the fair value of the asset groups to measure for impairment; and (ii) a high degree of auditor judgment, subjectivity, and effort in performing procedures and evaluating management's significant assumptions related to estimated sales growth rate when developing the future undiscounted cash flows, and comparable market rents when estimating the fair value.

Addressing the matter involved performing procedures and evaluating audit evidence in connection with forming our overall opinion on the consolidated financial statements. These procedures included testing the effectiveness of controls relating to management's store impairment assessments, including controls over the recoverability test and fair value estimate of the asset groups. These procedures also included, among others (i) testing management's process for developing the future undiscounted cash flows attributable to an asset group when testing for recoverability and when estimating the fair value of the asset groups to measure for impairment; (ii) evaluating the appropriateness of the models used by management in estimating the fair value of the asset groups; (iii) testing the completeness and accuracy of underlying data used in the models; and (iv) evaluating the reasonableness of the significant assumptions used by management related to estimated sales growth rate when developing the future undiscounted cash flows and comparable market rents when estimating the fair value. Evaluating management's assumptions involved evaluating whether the assumptions used by management were reasonable considering the current and past performance of the asset groups as it relates to estimated sales growth rate, the consistency with evidence obtained in other areas of the audit as it relates to estimated sales growth rate, and the consistency with external market data as it relates to estimated sales growth rate and comparable market rents.

Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure

None.

Item 9A. Controls and Procedures

DISCLOSURE CONTROLS AND PROCEDURES

A&F maintains disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act") that are designed to provide reasonable assurance that information required to be disclosed in the reports that A&F files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to A&F's management, including A&F's Principal Executive Officer and Principal Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. Because of inherent limitations, disclosure controls and procedures, no matter how well designed and operated, can provide only reasonable, and not absolute, assurance that the objectives of disclosure controls and procedures are met.

A&F's management, including the Chief Executive Officer of A&F (who serves as Principal Executive Officer of A&F) and the Senior Vice President, Chief Financial Officer of A&F (who serves as Principal Financial Officer of A&F), evaluated the effectiveness of A&F's disclosure controls and procedures as of February 1, 2025. The Chief Executive Officer of A&F (in such individual's capacity as the Principal Executive Officer of A&F) and the Senior Vice President, Chief Financial Officer of A&F (in such individual's capacity as the Principal Financial Officer of A&F) concluded that A&F's disclosure controls and procedures were effective at a reasonable level of assurance as of February 1, 2025, the end of the period covered by this Annual Report on Form 10-K.

MANAGEMENT'S ANNUAL REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING

The management of A&F is responsible for establishing and maintaining adequate internal control over financial reporting. A&F's internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluations of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

With the participation of the Chief Executive Officer of A&F and the Senior Vice President and Chief Financial Officer of A&F, management evaluated the effectiveness of A&F's internal control over financial reporting as of February 1, 2025 using criteria established in the *Internal Control - Integrated Framework* (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission ("COSO"). Based on the assessment of A&F's internal control over financial reporting, under the criteria described in the preceding sentence, management has concluded that, as of February 1, 2025, A&F's internal control over financial reporting was effective.

The effectiveness of A&F's internal control over financial reporting as of February 1, 2025 has been audited by PricewaterhouseCoopers LLP, an independent registered public accounting firm, as stated in their report, which is included in "[ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA](#)" of this Annual Report on Form 10-K.

CHANGES IN INTERNAL CONTROL OVER FINANCIAL REPORTING

There were no changes in A&F's internal control over financial reporting during the quarter ended February 1, 2025 that have materially affected, or are reasonably likely to materially affect, A&F's internal control over financial reporting.

Item 9B. Other Information

Rule 10b5-1 Trading Plans

During the thirteen weeks ended February 1, 2025, no director or officer of the Company adopted a new “Rule 10b5-1 trading arrangement” or “non-Rule 10b5-1 trading arrangement,” and no director or officer of the Company modified or terminated an existing “Rule 10b5-1 trading arrangement” or “non-Rule 10b5-1 trading arrangement,” as each term is defined in Item 408(a) of Regulation S-K under the Exchange Act.

Re: Abercrombie & Fitch Co.
Commission File Number: 001-12107
Annual Report on Form 10-K for the Fiscal Year Ended February 1, 2025

Ladies and Gentlemen:

Abercrombie & Fitch Co., a Delaware corporation ("A&F"), is today filing with the Securities and Exchange Commission (the "SEC") the Annual Report on Form 10-K of A&F for the fiscal year ended February 1, 2025 ("A&F's Fiscal 2024 Form 10-K").

Neither (i) A&F nor (ii) any of A&F's consolidated subsidiaries has outstanding any instrument or agreement with respect to its long-term debt, other than those filed or incorporated by reference as an exhibit to A&F's Fiscal 2024 Form 10-K, under which the total amount of long-term debt authorized exceeds 10% of the total assets of A&F and A&F's subsidiaries on a consolidated basis. In accordance with the provisions of Item 601(b)(4)(iii) of SEC Regulation S-K, A&F hereby agrees to furnish to the SEC, upon request, a copy of each instrument or agreement defining (i) the rights of holders of long-term debt of A&F or (ii) the rights of holders of long-term debt of a consolidated subsidiary of A&F, in each case which is not being filed or incorporated by reference as an exhibit to A&F's Fiscal 2024 Form 10-K.

Very truly yours,

ABERCROMBIE & FITCH CO.

RESTRICTED STOCK UNIT AWARD AGREEMENT
(2016 Long-Term Incentive Plan for Associates)

This RESTRICTED STOCK UNIT AWARD AGREEMENT (this “AGREEMENT”) is made to be effective as of [Grant Date] (the date on which the COMMITTEE (as defined below) approves the award, referred to as the “GRANT DATE”), by and between Abercrombie & Fitch Co., a Delaware corporation (the “COMPANY”), and [Participant Name], an employee of the COMPANY or one of the COMPANY’s subsidiaries or affiliates (“PARTICIPANT”).

WITNESSETH:

WHEREAS, pursuant to the provisions of the 2016 Long-Term Incentive Plan for Associates of the COMPANY (the “PLAN”), the Compensation and Human Capital Committee (the “COMMITTEE”) of the Board of Directors of the COMPANY (the “BOARD”) administers the PLAN; and

WHEREAS, the COMMITTEE has determined that PARTICIPANT should be granted rights to receive [Shares Granted] shares of Class A Common Stock, \$0.01 par value, of the COMPANY (such rights, the “RESTRICTED STOCK UNITS”), subject to the restrictions, conditions and other terms set forth in this AGREEMENT;

NOW, THEREFORE, in consideration of the premises, the parties hereto make the following agreement, intending to be legally bound thereby:

1. Grant of RESTRICTED STOCK UNITS. Pursuant to, and subject to, the terms and conditions set forth in this AGREEMENT and in the PLAN, the COMPANY hereby grants to PARTICIPANT [Shares Granted] RESTRICTED STOCK UNITS of the COMPANY (subject to adjustment as provided in Section 11(c) of the PLAN and Section 5(F) of this AGREEMENT, if applicable). Each RESTRICTED STOCK UNIT shall represent the right to receive one issued and outstanding share of Class A Common Stock, \$0.01 par value (the “SHARES”), of the COMPANY, but shall be subject to the restrictions, conditions and other terms set forth in this AGREEMENT.

2. Terms and Conditions of the RESTRICTED STOCK UNITS.

(A) RESTRICTED PERIOD. Except as provided under Sections 3 and 4 of this AGREEMENT, the period of restriction (the “RESTRICTED PERIOD”), after which the RESTRICTED STOCK UNITS shall become vested and no longer be subject to forfeiture to the COMPANY shall lapse according to the following schedule:

(i) the RESTRICTED PERIOD shall lapse as to **25%** of the RESTRICTED STOCK UNITS (subject to adjustment as provided in Section 11(c) of the PLAN), and such RESTRICTED STOCK UNITS shall become vested, on the first anniversary

of the date which is approved by the COMMITTEE and then recorded and communicated through the System of Record and which shall not be earlier than the GRANT DATE (hereinafter referred to as the "VESTING DATE"), provided PARTICIPANT is employed by the COMPANY or a subsidiary or affiliate of the COMPANY on such date;

(ii) the RESTRICTED PERIOD shall lapse as to **25%** of the RESTRICTED STOCK UNITS (subject to adjustment as provided in Section 11(c) of the PLAN), and such RESTRICTED STOCK UNITS shall become vested, on the second anniversary of the VESTING DATE, provided PARTICIPANT is employed by the COMPANY or a subsidiary or affiliate of the COMPANY on such date;

(iii) the RESTRICTED PERIOD shall lapse as to **25%** of the RESTRICTED STOCK UNITS (subject to adjustment as provided in Section 11(c) of the PLAN), and such RESTRICTED STOCK UNITS shall become vested, on the third anniversary of the VESTING DATE, provided PARTICIPANT is employed by the COMPANY or a subsidiary or affiliate of the COMPANY on such date; and

(iv) the RESTRICTED PERIOD shall lapse as to **25%** of the RESTRICTED STOCK UNITS (subject to adjustment as provided in Section 11(c) of the PLAN), and such RESTRICTED STOCK UNITS shall become vested, on the fourth anniversary of the VESTING DATE, provided PARTICIPANT is employed by the COMPANY or a subsidiary or affiliate of the COMPANY on such date.

(B) Non-Transferability of RESTRICTED STOCK UNITS. RESTRICTED STOCK UNITS may not be pledged, hypothecated or otherwise encumbered or subject to any lien, obligation or liability of PARTICIPANT to any party (other than the COMPANY or a subsidiary or affiliate of the COMPANY) or assigned or transferred (whether by operation of law or otherwise) by PARTICIPANT, otherwise than by will or by the applicable laws of descent and distribution, and the RESTRICTED STOCK UNITS shall not be subject to execution, attachment or similar process.

(C) Lapse of RESTRICTED PERIOD. Upon the lapse of the RESTRICTED PERIOD applicable to any RESTRICTED STOCK UNITS, as promptly as is reasonably practicable, and in no case later than March 15th of the year after the year the RESTRICTED PERIOD lapses, SHARES of the COMPANY shall be issued to PARTICIPANT and the COMPANY shall deliver a stock certificate or other appropriate documentation evidencing the number of SHARES of the COMPANY issued in settlement of such vested RESTRICTED STOCK UNITS to PARTICIPANT.

(D) Tax Withholding. The COMPANY shall have the right to require PARTICIPANT to remit to the COMPANY an amount sufficient to satisfy any applicable federal, state, local and foreign tax withholding requirements in respect of the settlement of the RESTRICTED STOCK UNITS. Unless PARTICIPANT is notified otherwise, the COMPANY will withhold SHARES of the COMPANY otherwise deliverable upon settlement of the RESTRICTED STOCK UNITS having a FAIR MARKET VALUE (as defined in the PLAN) on the date of settlement equal to the amount required to be withheld (but only to the extent of the

minimum amount that must be withheld to comply with applicable federal, state, local and foreign income, employment and wage tax laws). Pursuant to the PLAN, the COMPANY reserves the right to notify PARTICIPANT prior to settlement of the RESTRICTED STOCK UNITS, that in lieu of the foregoing, the COMPANY may require that the minimum amount that must be withheld to comply with applicable federal, state, local and foreign income, employment and wage tax laws) be settled in cash either: (i) through the sale, on PARTICIPANT's behalf on the open market, of a number of SHARES of the COMPANY required to cover such amount or (ii) at PARTICIPANT's option, through a direct cash payment by PARTICIPANT to the COMPANY to cover such amount.

(E) Rights as Holder of RESTRICTED STOCK UNITS. With respect to these RESTRICTED STOCK UNITS, PARTICIPANT shall have no rights as a stockholder of the COMPANY (including no right to vote or receive dividends) with respect to any SHARES of the COMPANY until the date of issuance to PARTICIPANT of a certificate or other evidence of ownership representing such SHARES in settlement thereof. In addition, dividend equivalents will not be paid or payable with respect to the RESTRICTED STOCK UNITS subject to this AGREEMENT until such date of issuance.

3. Change of Control. Unless the BOARD or the COMMITTEE provides otherwise prior to a "Change of Control" (as such term is defined in the PLAN), upon a Change of Control, Section 9 of the PLAN shall govern the treatment of the RESTRICTED STOCK UNITS.

4. Effect of Termination of Employment.

(A) The grant of the RESTRICTED STOCK UNITS shall not confer upon PARTICIPANT any right to continue in the employment of the COMPANY or any of the subsidiaries or affiliates of the COMPANY or interfere with or limit in any way the right of the COMPANY or any of the subsidiaries or affiliates of the COMPANY to modify the terms of or terminate the employment of PARTICIPANT at any time in accordance with applicable law and the COMPANY's or the subsidiary's or affiliate's governing corporate documents.

(B) Except as the COMMITTEE may at any time provide, and subject to Section 4(E) of this AGREEMENT, if the employment of PARTICIPANT with the COMPANY and the subsidiaries and affiliates of the COMPANY is terminated for any reason other than death or "total disability" (as defined below) prior to the lapsing of the RESTRICTED PERIOD applicable to any RESTRICTED STOCK UNITS, such RESTRICTED STOCK UNITS shall be forfeited to the COMPANY.

(C) If PARTICIPANT becomes totally disabled prior to the lapsing of the RESTRICTED PERIOD applicable to any RESTRICTED STOCK UNITS, such RESTRICTED PERIOD shall immediately lapse and the RESTRICTED STOCK UNITS shall become fully vested.

(D) If PARTICIPANT dies while employed by the COMPANY or one of the subsidiaries or affiliates of the COMPANY prior to the lapsing of the RESTRICTED PERIOD

applicable to any RESTRICTED STOCK UNITS, such RESTRICTED PERIOD shall immediately lapse and the RESTRICTED STOCK UNITS shall become fully vested.

(E) Upon the retirement of PARTICIPANT, the COMMITTEE may, but shall not be required to, shorten or terminate the RESTRICTED PERIOD applicable to the RESTRICTED STOCK UNITS.

(F) For purposes of this AGREEMENT, “total disability” shall have the definition set forth in the Abercrombie & Fitch Co. Long Term Disability Plan, which definition is incorporated herein by reference.

5. Forfeiture of RESTRICTED STOCK UNITS.

(A) The RESTRICTED STOCK UNITS shall be subject to the following additional forfeiture conditions, to which PARTICIPANT, by accepting the RESTRICTED STOCK UNITS, agrees. If any of the events specified in Section 5(B)(i), (ii), (iii) or (iv) of this AGREEMENT occurs (a “FORFEITURE EVENT”), the following forfeiture will result:

(i) any RESTRICTED STOCK UNITS held by PARTICIPANT and not then settled will be immediately forfeited and canceled upon the occurrence of the FORFEITURE EVENT; and

(ii) PARTICIPANT will be obligated to repay to the COMPANY, in cash, within five business days after demand is made therefor by the COMPANY, the total amount of “AWARD GAIN” (as defined below) realized by PARTICIPANT upon each settlement of RESTRICTED STOCK UNITS that occurred on or after (x) the date that is twenty-four months prior to the occurrence of the FORFEITURE EVENT, if the FORFEITURE EVENT occurred while PARTICIPANT was employed by the COMPANY or a subsidiary or affiliate of the COMPANY, or (y) the date that is twenty-four months prior to the date PARTICIPANT’s employment by the COMPANY or a subsidiary or affiliate of the COMPANY terminated, if the FORFEITURE EVENT occurred after PARTICIPANT ceased to be so employed; provided, however, that this right of recoupment shall not limit the BOARD’s recoupment authority under any applicable clawback or recoupment policy approved by the BOARD. For purposes of this Section 5, the term “AWARD GAIN” shall mean, in respect of any settlement of RESTRICTED STOCK UNITS granted to PARTICIPANT, the FAIR MARKET VALUE as of the applicable VESTING DATE of the cash and/or SHARES of the COMPANY paid or payable to PARTICIPANT (regardless of any elective deferrals).

(B) The forfeitures specified in Section 5(A) of this AGREEMENT will be triggered upon the occurrence of any one of the following FORFEITURE EVENTS at any time during PARTICIPANT’s employment by the COMPANY or a subsidiary or affiliate of the COMPANY, or during the twenty-four-month period following termination of such employment:

(i) PARTICIPANT, acting alone or with others, directly or indirectly, (I) engages, either as an employee, employer, consultant, advisor, or director, or as an owner, investor, partner, or stockholder unless PARTICIPANT’s interest is insubstantial, in any business in an area or region in which the COMPANY or any subsidiary or affiliate of the COMPANY conducts business at the date the event occurs, which is directly in competition with

a business then conducted by the COMPANY or a subsidiary or affiliate of the COMPANY; (II) induces any customer or supplier of the COMPANY or a subsidiary or affiliate of the COMPANY, with which the COMPANY or a subsidiary or affiliate of the COMPANY has a business relationship, to curtail, cancel, not renew, or not continue his or her or its business with the COMPANY or any subsidiary or affiliate of the COMPANY; or (III) induces, or attempts to influence, any employee of or service provider to the COMPANY or a subsidiary or affiliate of the COMPANY to terminate such employment or service. The COMMITTEE shall, in its discretion, determine which lines of business the COMPANY and the subsidiaries and affiliates of the COMPANY conduct on any particular date and which third parties may reasonably be deemed to be in competition with the COMPANY or any subsidiary or affiliate of the COMPANY. For purposes of this Section 5(B)(i), PARTICIPANT's interest as a stockholder is insubstantial if it represents beneficial ownership of less than five percent of the outstanding class of stock, and PARTICIPANT's interest as an owner, investor, or partner is insubstantial if it represents ownership, as determined by the COMMITTEE in its discretion, of less than five percent of the outstanding equity of the entity;

(ii) PARTICIPANT discloses, uses, sells, or otherwise transfers, except in the course of employment with or other service to the COMPANY or any subsidiary or affiliate of the COMPANY, any confidential or proprietary information of the COMPANY or any subsidiary or affiliate of the COMPANY, including but not limited to information regarding the COMPANY's or any subsidiary's or affiliate's current and potential customers, organization, employees, finances, and methods of operations and investments, so long as such information has not otherwise been disclosed to the public or is not otherwise in the public domain (other than by PARTICIPANT's breach of this provision), except as required by law or pursuant to legal process, or PARTICIPANT makes statements or representations, or otherwise communicates, directly or indirectly, in writing, orally, or otherwise, or takes any other action which may, directly or indirectly, disparage or be damaging to the COMPANY or any of the subsidiaries or affiliates of the COMPANY or their respective officers, directors, employees, advisors, businesses or reputations, except as required by law or pursuant to legal process;

(iii) PARTICIPANT fails to cooperate with the COMPANY or any subsidiary or affiliate of the COMPANY in any way, including, without limitation, by making PARTICIPANT available to testify on behalf of the COMPANY or such subsidiary or affiliate of the COMPANY in any action, suit, or proceeding, whether civil, criminal, administrative, or investigative, or otherwise fails to assist the COMPANY or any subsidiary or affiliate of the COMPANY in any way, including, without limitation, in connection with any such action, suit, or proceeding by providing information and meeting and consulting with members of management of, other representatives of, or counsel to, the COMPANY or such subsidiary or affiliate of the COMPANY, as reasonably requested; or

(iv) PARTICIPANT, during the period PARTICIPANT is employed by the COMPANY or any subsidiary or affiliate of the COMPANY and for twenty-four months thereafter (the "NON-SOLICITATION PERIOD"), alone or in conjunction with another person, (I) interferes with or harms, or attempts to interfere with or harm, the relationship of the COMPANY or any subsidiary or affiliate of the COMPANY with any person who at any time was a customer or supplier of the COMPANY or any subsidiary or affiliate of the COMPANY or otherwise had a business relationship with the COMPANY or any subsidiary or affiliate of the

COMPANY; or (II) hires, solicits for hire, aids in or facilitates the hire, or causes to be hired, either as an employee, contractor or consultant, any person who is currently employed, or was employed at any time during the six-month period prior thereto, as an employee, contractor or consultant of the COMPANY or any subsidiary or affiliate of the COMPANY.

(C) Despite the conditions set forth in this Section 5, PARTICIPANT is not hereby prohibited from engaging in any activity set forth in Section 5(B)(i) of this AGREEMENT, including but not limited to competition with the COMPANY and the subsidiaries and affiliates of the COMPANY. Rather, the non-occurrence of the FORFEITURE EVENTS set forth in Section 5(B) of this AGREEMENT is a condition to PARTICIPANT's right to realize and retain value from the RESTRICTED STOCK UNITS, and the consequences under the PLAN and this AGREEMENT if PARTICIPANT engages in an activity giving rise to any such FORFEITURE EVENTS are the forfeitures specified therein and as otherwise provided in this AGREEMENT. The COMPANY and PARTICIPANT shall not be precluded by this provision or otherwise from entering into other agreements concerning the subject matter of Sections 5(A) and 5(B) of this AGREEMENT.

(D) The COMMITTEE may, in its discretion, waive in whole or in part the COMPANY's right to forfeiture under this Section 5, but no such waiver shall be effective unless evidenced by a writing signed by a duly authorized officer of the COMPANY.

(E) In addition to the above, PARTICIPANT agrees that any of the conduct described in Sections 5(B)(ii) and (iv) of this AGREEMENT would result in irreparable injury and damage to the COMPANY for which the COMPANY would have no adequate remedy at law. PARTICIPANT agrees that in the event of such occurrence or any threat thereof, the COMPANY shall be entitled to an immediate injunction and restraining order to prevent such conduct and threatened conduct and/or continued conduct by PARTICIPANT and/or any and all persons and/or entities acting for and/or with PARTICIPANT, and without having to prove damages and to all costs and expenses incurred by the COMPANY in seeking to enforce the COMPANY's rights under this AGREEMENT. These remedies are in addition to any other remedies to which the COMPANY may be entitled at law or in equity. PARTICIPANT agrees that the covenants of PARTICIPANT contained in Section 5(B) of this AGREEMENT are reasonable. For the same reasons, the COMPANY shall be entitled to an immediate injunction without having to prove damages to enforce the COMPANY's right to forfeit the RESTRICTED STOCK UNITS pursuant to Section 5(C) for a violation of Section 5(B)(i).

(F) This Section 5(F) shall apply only if PARTICIPANT was granted the RESTRICTED STOCK UNITS under this AGREEMENT pursuant to the achievement of a performance goal under Section 7 of the PLAN. If the COMMITTEE determines that the earlier determination as to the achievement of the performance goal was based on incorrect data and that in fact the performance goal had not been achieved or had been achieved to a lesser extent than originally determined and a number of the RESTRICTED STOCK UNITS would not have been granted, given the correct data, then (i) the aggregate number of RESTRICTED STOCK UNITS set forth in Section 1 of this AGREEMENT shall be reduced by such number of RESTRICTED STOCK UNITS that would not have been granted (such RESTRICTED STOCK UNITS, the "EXCESS RSUs"), (ii) any EXCESS RSUs that have not yet vested in accordance with the terms

of this AGREEMENT shall be forfeited and (iii) any SHARES of the COMPANY received upon settlement of vested EXCESS RSUs (or if such SHARES were disposed of, the cash equivalent) shall be returned to the COMPANY as provided by the COMMITTEE; provided, however, that this right of recoupment shall not limit the BOARD's recoupment authority under any applicable clawback or recoupment policy approved by the BOARD.

6. Restrictions on Transfers of SHARES. Anything contained in this AGREEMENT or elsewhere to the contrary notwithstanding, the COMPANY may postpone the issuance and delivery of SHARES of the COMPANY upon any settlement of the RESTRICTED STOCK UNITS until completion of any stock exchange listing or registration or other qualification of such SHARES under any state, federal or foreign law, rule or regulation as the COMPANY may consider appropriate; and may require PARTICIPANT in connection with the issuance of the SHARES to make such representations and furnish such information as the COMPANY may consider appropriate in connection with the issuance of the SHARES in compliance with applicable laws, rules and regulations. SHARES of the COMPANY issued and delivered upon settlement of the RESTRICTED STOCK UNITS shall be subject to such restrictions on trading, including appropriate legending of certificates to that effect, as the COMPANY, in its discretion, shall determine are necessary to satisfy applicable laws, rules and regulations.

7. PLAN as Controlling; PARTICIPANT Acknowledgments. All terms and conditions of the PLAN applicable to the RESTRICTED STOCK UNITS which are not set forth in this AGREEMENT shall be deemed incorporated herein by reference. In the event that any term or condition of this AGREEMENT is inconsistent with the terms and conditions of the PLAN, the PLAN shall be deemed controlling. PARTICIPANT acknowledges receipt of a copy of the PLAN and of the Prospectus related to the PLAN. PARTICIPANT also acknowledges that all decisions, determinations and interpretations of the COMMITTEE in respect of the PLAN, this AGREEMENT and the RESTRICTED STOCK UNITS shall be final, conclusive and binding on PARTICIPANT, all other persons interested in the PLAN and stockholders of the COMPANY.

8. Award Subject to Applicable Laws and COMPANY Policies. This award of RESTRICTED STOCK UNITS shall be subject to any applicable clawback or recoupment policies, share trading policies, and other policies that may be implemented by the BOARD from time to time in accordance with applicable law. Notwithstanding anything in this AGREEMENT to the contrary, the PLAN, this AGREEMENT, and the RESTRICTED STOCK UNITS awarded hereunder shall be subject to all applicable laws, rules, regulations, listing requirements, restrictions, or governmental guidance that becomes applicable to the COMPANY, and the COMMITTEE reserves the right to modify this AGREEMENT and the RESTRICTED STOCK UNITS as necessary to conform to any restrictions imposed by any such laws, rules, regulations, listing requirements, restrictions, or governmental guidance or to conform to any applicable clawback or recoupment policies, share trading policies, and other policies that may be implemented by the BOARD from time to time. As a condition of participating in the Plan, and by PARTICIPANT's acceptance of the RESTRICTED STOCK UNITS, PARTICIPANT is deemed to have agreed to any such modifications that may be imposed by the COMMITTEE,

and agrees to sign such waivers or acknowledgments as the COMMITTEE may deem necessary or appropriate with respect to such modifications.

9. Governing Law. To the extent not preempted by applicable federal or foreign law, this AGREEMENT shall be governed by and construed in accordance with the laws of the State of Delaware, except with respect to provisions relating to the covenants set forth in Section 5 of this AGREEMENT, which shall be governed by the laws of the State of Ohio.

10. Rights and Remedies Cumulative. All rights and remedies of the COMPANY and of PARTICIPANT enumerated in this AGREEMENT shall be cumulative and, except as expressly provided otherwise in this AGREEMENT, none shall exclude any other rights or remedies allowed by law or in equity, and each of said rights or remedies may be exercised and enforced concurrently.

11. Captions. The captions contained in this AGREEMENT are included only for convenience of reference and do not define, limit, explain or modify this AGREEMENT or its interpretation, construction or meaning and are in no way to be construed as a part of this AGREEMENT.

12. Severability. If any provision of this AGREEMENT or the application of any provision hereof to any person or any circumstance shall be determined to be invalid or unenforceable, then such determination shall not affect any other provision of this AGREEMENT or the application of said provision to any other person or circumstance, all of which other provisions shall remain in full force and effect, and it is the intention of each party to this AGREEMENT that if any provision of this AGREEMENT is susceptible of two or more constructions, one of which would render the provision enforceable and the other or others of which would render the provision unenforceable, then the provision shall have the meaning which renders it enforceable.

13. Number and Gender. When used in this AGREEMENT, the number and gender of each pronoun shall be construed to be such number and gender as the context, circumstances or its antecedent may require.

14. Entire Agreement. This AGREEMENT, including the PLAN incorporated herein by reference, constitutes the entire agreement between the COMPANY and PARTICIPANT in respect of the subject matter of this AGREEMENT, and this AGREEMENT supersedes all prior and contemporaneous agreements between the parties hereto in connection with the subject matter of this AGREEMENT. No officer, employee or other servant or agent of the COMPANY, and no servant or agent of PARTICIPANT, is authorized to make any representation, warranty or other promise not contained in this AGREEMENT. Other than as set forth in Section 11(e) of the PLAN or Section 8 of this AGREEMENT, no change, termination or attempted waiver of any of the provisions of this AGREEMENT shall be binding upon either party hereto unless contained in a writing signed by the party to be charged.

15. Successors and Assigns of the COMPANY. The obligations of the COMPANY under this AGREEMENT shall be binding upon any successor corporation or organization

resulting from the merger, consolidation or other reorganization of the COMPANY, or upon any successor corporation or organization succeeding to substantially all of the assets and businesses of the COMPANY.

IN WITNESS WHEREOF, the COMPANY has caused this AGREEMENT to be executed by its duly authorized officer, and PARTICIPANT has executed this AGREEMENT, in each case effective as of the GRANT DATE.

Insider Trading Policy
Policy Effective: February 1, 2024

I. INTRODUCTION

The Board of Directors of Abercrombie & Fitch Co. (the “**Company**”) has adopted this Insider Trading Policy (the “**Policy**”) to establish acceptable transactions in Company securities by our associates, directors, advisors, and consultants (collectively, “**Covered Persons**”).

During the course of your tenure with the Company, you may receive important information that has not yet been publicly announced by the Company or concerning other publicly-traded companies with which the Company has business dealings (“**material non-public information**”). Because of your access to this material non-public information, you may be in a position to potentially profit financially by buying or selling, or in some other way dealing, in Company stock, or stock of another publicly-traded company, or to disclose such information to a third party who does so profit (a “**tippee**”).

This Policy applies to you and to (i) anyone who resides with you or lives in your household, and any family members who do not live with you, but whose transactions in Company securities are directed by, or are subject to, your influence or control, such as parents or children (collectively, “**Family Members**”) and (ii) entities controlled by you (“**Related Entities**”). It is your obligation to make your Family Members and Related Entities aware of, and understand and comply with, the provisions and obligations of this Policy.

It is important that you understand the breadth of activities that constitute illegal insider trading and the consequences, which can be serious. The U.S. Securities and Exchange Commission (“**SEC**”), the Financial Industry Regulatory Authority, and the New York Stock Exchange investigate and are very effective at detecting insider trading. Cases have been successfully prosecuted against individuals as a result of trading involving only a small number of shares. There are no exceptions for small or “immaterial” transactions.

This Policy applies even after your termination of employment or service with the Company. Please refer to Section IV below for additional information.

There are no exceptions to this Policy, even for situations that may seem necessary or justifiable (such as the need to raise money for an emergency expenditure) or small transactions. If material non-public information is inadvertently disclosed – no matter what the circumstances – the person making or discovering that disclosure should immediately report the disclosure to the Company’s General Counsel or their designee(s) (the “**Clearing Officer**”).

Any Covered Person who has questions about this Policy should contact their own attorney or the Clearing Officer. Upon request, any Covered Person must certify their understanding of, and compliance with, this Policy.

II. PROHIBITED ACTIVITY

A. Use of Material Non-Public Information in Securities Transactions Prohibited

Use of material non-public information by you for personal gain or profit, or to pass on, or “tip,” the material non-public information to someone who uses it for personal gain or profit, is illegal, regardless of the quantity of shares involved, and is therefore prohibited. You can be held liable both for your own transactions and for transactions effected by a tippee, or even a tippee

of a tippee. Furthermore, it is important that the appearance of insider trading in securities be avoided. The only exceptions to the restrictions of this Policy are certain transactions directly between you and the Company, as described further in Section II.F.1 below. However, any subsequent sale (including the sale of shares in a cashless exercise program) or other disposition of stock acquired through these transactions is fully subject to the restrictions of this Policy.

Accordingly, you, any Family Member, and any Related Entity may not:

- Buy, sell, or otherwise engage in any transactions, either directly or through a third party, ("**trade**") in Company securities or the securities of another publicly-traded company with which the Company has business dealings while in possession of material non-public information regarding the Company or such other company.
- Make any changes in enrollment or elections relating to Company securities under any contributory plan, including the Abercrombie & Fitch Co. Associate Stock Purchase Plan (the "**ASPP**") and the Directors' Deferred Compensation Plan (the "**DCP**" and, together with the ASPP, the "**Contributory Plans**").
- Tip, directly or indirectly, material non-public information to any person who might (i) trade in Company securities or (ii) pass along such information to others who might trade.
- Make recommendations or express opinions to any person about trading in Company securities on the basis of material non-public information.
- Additionally, you may not, directly or indirectly, disclose material non-public information to anyone (i) within the Company whose job does not require them to have that information or (ii) outside the Company including, but not limited to, Family Members, Related Entities, friends, business associates, investors, and consulting firms, unless the disclosure is authorized by the Company.

In the event you receive any inquiry or request for information (particularly financial results and/or projections, including to affirm or deny information about the Company) from any person or entity outside the Company, such as a stock analyst or news reporter, and it is not part of your regular corporate duties to respond to such an inquiry or request, the inquiry should be referred to Investor Relations, which will determine whether the inquiry should also be forwarded to the Clearing Officer.

B. *Material Non-Public Information*

As a practical matter, it is sometimes difficult to determine whether you possess "inside" or material non-public information. Under the securities laws, "material" information is: (i) any information that a reasonable investor would likely consider important in deciding whether to buy, sell, or hold the Company's securities; or (ii) any information that might affect the market or price for the Company's securities (whether positive or negative). Certainly, if the information makes you want to trade, it would probably have the same effect on others. Remember, both positive and negative information can be material. If you possess material non-public information, you may not trade in a company's securities, advise anyone else to do so, or communicate the information to anyone else until you know that the information has been publicly disseminated. For information to be considered publicly disseminated, it must be widely

disclosed through a press release or SEC filing, and a sufficient amount of time (i.e., two business days) has passed to allow the information to be fully absorbed and evaluated. This means that in some circumstances, you may have to forego a proposed transaction in a company's securities even if you planned to execute the transaction prior to learning of the material non-public information and even though you believe you may suffer an economic loss or sacrifice an anticipated profit by waiting.

Although by no means an all-inclusive list, information about the following items (whether positive or negative) may be considered to be material non-public information until it is publicly disseminated:

- recent operating or financial results;
- the Board of Directors' approval of a stock repurchase program;
- projections of future earnings or losses, or other earnings-related guidance;
- changes to previously announced, or the decision to suspend, earnings guidance;
- developments affecting financial stability or liquidity;
- changes in auditors or notification that an auditor's report may no longer be relied upon;
- changes in business plans or strategies;
- changes in the Company's pricing or discount policies;
- major labor relations events;
- acquisitions or dispositions of assets, divisions, companies, etc.;
- pending public or private sales, or repurchases, of debt or equity securities;
- declaration of stock splits or dividends;
- significant new ventures or marketing plans;
- the gain or loss of a significant supplier;
- top management or control changes;
- possible tender offers or proxy fights;
- significant write-offs;
- significant actual or threatened litigation, or government investigations;
- significant public relations events;
- impending bankruptcy; and
- knowledge of a significant data security, privacy, or cybersecurity incident.

Please note that the imposition of any event-specific restriction (also known as an off-cycle blackout) could, in and of itself, be material, non-public information.

"Non-public" information is any information that has not been disclosed broadly to the marketplace and which the investing public has not yet had time to absorb and evaluate. Generally speaking, information will be considered publicly disseminated after **two full trading days** have elapsed since the date of public disclosure of the information. For example, if the Company announces material non-public information prior to the market opening on Wednesday, then you may execute a transaction in the Company's securities on after the market opens on Friday.

C. Prohibition of Speculative or Short-Term Trading

Covered Persons may not engage in short sales (a sale of securities that are not currently owned by the seller), transactions in put or call options, margin trading or other inherently speculative transactions with respect to Company securities at any time. In addition, Section 16(c) of the Securities Exchange Act of 1934, as amended (the "**Exchange Act**") prohibits officers and directors from engaging in short sales. Short sales arising from certain

types of hedging transactions are governed by the paragraph below captioned “Policy Relating to Hedging.”

D. *Policy Relating to Hedging*

The Company seeks to have the long-term financial interests of Covered Persons fully aligned with the interests of its other stockholders. For this reason, Covered Persons are prohibited from purchasing financial instruments (including prepaid variable forward contracts, equity swaps, collars, and exchange funds), or otherwise engaging in transactions that hedge, offset, or are designed to hedge or offset, any decrease in the market value or the full ownership risks and rewards of Covered Persons’ direct or indirect holdings in Company securities.

E. *Policy Relating to Pledging*

Pledging by Covered Persons of the Company’s stock as collateral for indebtedness creates the risk of an unplanned sale that may occur at a time when a Covered Person is aware of material non-public information or is otherwise not permitted to trade in the Company’s stock. For this reason, Covered Persons may not, directly or indirectly, pledge, hypothecate, or otherwise encumber shares of the Company’s stock as collateral for indebtedness. This prohibition includes, but is not limited to, holding such shares in a margin account or any other account that could cause the Company’s stock to be subject to a margin call or otherwise be available as collateral for a margin loan. The foregoing prohibition applies to the Company’s stock that (i) a Covered Person owns directly or indirectly or (ii) is granted by the Company as part of a Covered Person’s compensation.

F. *Permitted Transactions*

The prohibitions of this Policy do not apply to the following transactions (collectively, the “**Permitted Transactions**”):

1. Transactions Between Covered Persons and Company

- a. *Vesting of Restricted Stock or Vesting and Delivery of Shares of Stock Underlying Restricted Stock Units.* This Policy does not apply to the vesting of restricted stock or the vesting and delivery of shares of stock underlying restricted stock units. The Policy does apply, however, to any market sale of shares of Company stock upon the vesting of restricted stock or the vesting and delivery of shares of stock underlying restricted stock units; provided, however, Covered Persons that are not deemed to be Section 16 Insiders (as defined below) may sell Company stock to satisfy tax obligations arising in connection with the vesting of restricted stock or the vesting and delivery of shares of stock underlying restricted stock units if such sale is involuntary and made pursuant to a pre-established plan, program, or policy providing for such automatic sale.
- b. *Stock Appreciation Rights and Stock Option Exercises.* This Policy does not apply to the exercise of stock options or stock appreciation rights granted under the Company’s incentive plans through payment of the exercise price with cash (i.e., without Company securities being sold into the market). However, the subsequent sale of the stock (including sales of stock in a broker-assisted cashless exercise) acquired upon the exercise of stock appreciation rights or stock options is subject to all provisions of this Policy.

- c. *Tax Withholding Arrangements.* This Policy does not apply to the withholding or surrender of Company securities to the Company to satisfy tax withholding obligations arising from the exercise of stock options, the vesting of restricted stock, or the vesting and delivery of shares of stock underlying restricted stock units.
- d. *Contributory Plans.* The Policy's trading restrictions generally do not apply to acquisitions of Company securities under any Contributory Plan pursuant to the affected Covered Person's advance election made while not in possession of material non-public information. The Policy's trading restrictions do apply, however, to (i) your initial election to enroll in a Contributory Plan, (ii) any changes to your enrollment in a Contributory Plan, and (iii) the sale of Company securities acquired under a Contributory Plan.

2. Rule 10b5-1 Trading Plans

Purchases or sales of Company securities made pursuant to, and in compliance with, a written plan established by a Covered Person (a "**Trading Plan**") that meets the requirements of Rule 10b5-1 ("**Rule 10b5-1**"). In order to be eligible to rely on this defense, a Covered Person must enter into a Trading Plan that meets certain conditions specified in Rule 10b5-1 and must be in accordance with the Company's "Guidelines for Rule 10b5-1 Plans." If the Trading Plan meets such requirements, transactions in Company securities may occur even when the Covered Person who has entered into a Trading Plan is aware of material nonpublic information. To comply with the Policy, a Trading Plan must be approved by the Clearing Officer and meet the requirements of Rule 10b5-1 and the Company's "Guidelines for Rule 10b5-1 Plans," which may be obtained from the Clearing Officer.

Additionally, with respect to Section 16 Insiders, no trades pursuant to the Trading Plan may be made until the later of (i) 90 days after the date of the adoption, amendment, modification, or replacement of the Trading Plan and (ii) two business days following the Company's disclosure of its financial results for the fiscal quarter in which the Trading Plan was adopted, amended, modified, or replaced in an Annual Report on Form 10-K or a Quarterly Report on Form 10-Q (the "**Cooling-Off Period**"); *provided*, however, that the Cooling-Off Period need not exceed 120 days following the adoption, amendment, modification, or replacement of the Trading Plan. With respect to Covered Persons that are not Section 16 Insiders, no trades pursuant to the Trading Plan may be made until 30 days after the date of the adoption, amendment, modification, or replacement of the Trading Plan.

Trading Plans should be submitted for approval by the Clearing Officer at least three business days prior to the entry into the Trading Plan.

III. TRADING WINDOWS

A. *Trading Window Policy*

In addition to the restrictions applicable to Covered Persons set forth in Section II.A above, certain individuals designated by the Clearing Officer (collectively, the "**Trading Window Persons**") may not (i) engage in any transactions in Company securities, except Permitted Transactions or (ii) make any changes in enrollment or elections relating to Company securities under any Contributory Plan except, in each case, during an open "**trading window**" period and then only if such individual is not otherwise aware of material non-public information.

The Company will annually distribute to all Trading Window Persons a calendar of open trading windows in which a Trading Window Person may trade in Company securities if the Trading Window Person is not otherwise aware of material non-public information.

Trading windows apply to all Trading Window Persons. A trading window may be closed early or may not open if, in the judgment of the General Counsel, there exists undisclosed information that would make trading in Company securities inappropriate. It is important to note that the fact that a trading window has closed early or has not opened should be considered material non-public information.

B. *Pre-Clearance and Advance Notice*

In addition to the restrictions applicable to Trading Window Persons set forth in Section III.A above, certain individuals designated by the Clearing Officer (collectively, "**Pre-Clearance Persons**") may not engage in any transactions in Company securities, except Permitted Transactions, without first obtaining pre-clearance of the transaction from the Clearing Officer at least two business days in advance of the date of the proposed transaction.

The Clearing Officer will then determine whether the transaction may proceed and, if so, will assist in complying with any applicable reporting requirements under Section 16(a) of the Exchange Act. Pre-cleared transactions not completed within five business days shall require new pre-clearance under the provisions of this Section III.B. The Company may, at its discretion, shorten such period of time. Upon completion of any transaction, the Pre-Clearance Person must immediately notify the Clearing Officer so that the Company may assist with any reporting obligations under Section 16 of the Exchange Act.

C. *Section 16 Reports*

Directors and Covered Persons designated as "officers" pursuant to Section 16 of the Exchange Act (collectively, "**Section 16 Insiders**") are required to file reports with the SEC that disclose such individuals' trading and other transactions relating to Company securities ("**Section 16 Reports**"). The Legal Department will assist Section 16 Insiders in preparing and filing the required Section 16 Reports; however, such Section 16 Insiders retain responsibility for the Section 16 Reports. To ensure compliance with all reporting requirements, a Section 16 Insider must, on the date of any trade, provide the Legal Department with all information relating to the trade that is necessary to properly prepare a Form 4 or other Section 16 Report, including, among other information, whether the trade is pursuant to a Trading Plan. A Section 16 Insider must also execute a Form 4 or other Section 16 Report (either individually or through a duly-authorized power of attorney) within a sufficient amount of time to allow the Legal Department to electronically file the Form 4 with the SEC via EDGAR before the end of the second business day following the trade.

D. *Form 144*

Under certain circumstances, Covered Persons considered "affiliates" of the Company pursuant to Rule 144 under the Securities Act are required to file a Form 144 before making an open market sale of Company securities. A Form 144 notifies the SEC of an affiliate's intent to sell Company securities. For a Covered Person considered an affiliate of the Company, this form is generally prepared and filed by such Covered Person's broker and is in addition to the Section 16 Reports filed on the Covered Person's behalf by the Legal Department.

IV. DURATION OF POLICY'S APPLICABILITY

This Policy continues to apply to your transactions in Company securities or the stock of other public companies engaged in business dealings with the Company even after your tenure with the Company has terminated. If you are in possession of material non-public information when your employment or service with the Company concludes, you, your Family Members, and any Related Entities may not trade in Company securities or the stock of such other company until the information has been publicly disseminated or is no longer material.

V. TRANSACTIONS BY FAMILY MEMBERS AND RELATED ENTITIES

As stated above, this Policy applies with equal force to Family Members and Related Entities. All Covered Persons are responsible for ensuring that Family Members and Related Entities do not engage in the activities restricted or prohibited under this Policy. As such, Covered Persons should ensure that all Family Members and Related Entities are aware of the need to confer with such Covered Person before the Family Member or Related Entity trades in Company securities. Covered Persons should treat all such transactions for the purposes of this Policy and applicable securities laws as if the transactions were for your own account.

Note that this Policy does not, however, apply to transactions in Company securities where the purchase or sale decision is made by a third party that is not controlled by, influenced by, or related to the Covered Person, Family Member, or Related Entity (such as a third party managed mutual fund account).

VI. CONSEQUENCES AND PENALTIES

Anyone who effects transactions in Company securities or the stock of other public companies engaged in business dealings with the Company (or provides information to enable others to do so) on the basis of material non-public information is subject to both civil liability and criminal penalties, as well as disciplinary action by the Company.

Penalties for insider trading can be severe for both you and the Company. Under securities laws, the Company and its directors, officers, or supervising associates may be liable for significant penalties if they do not take appropriate action to prevent a person directly or indirectly under their control from trading in securities while in possession of material non-public information – or if they recklessly disregard the likelihood that such trading would take place.

In addition to your dismissal from the Company, failure to comply with this Policy could result in:

- Forfeiture of trading gains made or losses avoided, as well as civil penalties of up to three times the trading gains made or losses avoided.
- Criminal fines of up to \$5 million.
- Injunctions against future violations.
- Imprisonment for up to 20 years.
- Private party damages.

CERTIFICATIONS

I, Fran Horowitz, certify that:

1. I have reviewed this Annual Report on Form 10-K of Abercrombie & Fitch Co. for the fiscal year ended February 1, 2025;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
